# Heybly Litter Box Enclosure HCLB004SR Instruction Manual

Model: HCLB004SR | Brand: Heybly

## 1. Introduction

The Heybly Litter Box Enclosure HCLB004SR is designed to provide a discreet and functional housing solution for large automatic and self-cleaning cat litter boxes. This enclosure offers a private space for your cat while seamlessly integrating into your home decor. It features an integrated power hub for convenient access to electricity for your litter robot and other accessories.

## 2. Safety Information

- **Anti-Tipping Device:** Always install the included anti-tipping device to prevent the enclosure from falling, especially if children or pets might climb on it.
- **Electrical Safety:** The integrated power hub is rated for 125V/12A (AC outlets) and 5V/2A (USB ports). Do not exceed these ratings. Ensure all connected devices are in good working order and that the power cord is not pinched or damaged.
- **Stable Placement:** Place the enclosure on a flat, stable surface to ensure stability and prevent wobbling.
- **Weight Limit:** Do not place excessively heavy items on top of the enclosure.
- **Ventilation:** Ensure the ventilation holes are not obstructed to allow for proper air circulation.

## 3. Package Contents

Before assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Wooden Boards (various sizes for panels, doors, top, base)
- Hardware Pack (screws, dowels, cam locks, hinges, magnetic latches, anti-tipping kit)
- Integrated Power Hub (with 2 AC outlets, 2 USB ports, and 4.9 ft power cord)
- Assembly Instructions Manual

## 4. Setup and Assembly

Follow these steps carefully to assemble your Heybly Litter Box Enclosure. It is recommended to have two people for assembly.

1. **Unpack and Identify Parts:** Lay out all wooden boards and hardware. Match them with the diagrams in the included assembly instructions.
2. **Assemble the Base and Side Panels:** Connect the base panel to the side panels using the provided hardware. Ensure all connections are secure.
3. **Install the Back Panel:** Attach the back panel to the assembled structure.
4. **Attach the Top Panel:** Secure the top panel to complete the main frame of the enclosure.
5. **Install the Doors:** Attach the doors using the hinges. Ensure they open and close smoothly. Install the magnetic latches to keep the doors securely closed.
6. **Install the Power Hub:** Insert the integrated power hub into the designated cutout on the top panel. Connect its power cord.
7. **Adjust Entryway Direction:** The cat entrance can be installed on either the left or right side. Choose the orientation that best suits your room layout and your cat's preference during assembly.
8. **Secure Anti-Tipping Device:** Attach the anti-tipping device to the back of the enclosure and secure it to a wall stud according to the separate instructions provided with the kit.

## Easily Fits Large Self-Cleaning Cat Litter Boxes

22L x 19.5W x 18H

20L x 19.5W x 25.5H

22.4L x 22.4W x 25.9H

## 5. Operating Instructions

Once assembled, using your Heybly Litter Box Enclosure is straightforward.

1. **Place Litter Box:** Open the front doors and carefully slide your self-cleaning litter box into the enclosure. Ensure there is enough space for its operation and for your cat to enter and exit comfortably.
2. **Connect Power:** Plug your litter box's power cord into one of the AC outlets on the integrated power hub. You can also use the USB ports to charge other pet accessories or small electronic devices.
3. **Close Doors:** Ensure the front doors are securely closed using the magnetic latches to maintain privacy and contain odors.
4. **Cat Access:** Your cat will use the designated arched entryway to access the litter box.

## 6. Maintenance

Regular cleaning and maintenance will ensure the longevity and hygiene of your litter box enclosure.

- **Cleaning Surfaces:** The enclosure features easy-wipe panels and a waterproof desktop. Use a damp cloth to wipe down surfaces regularly. For stubborn stains, a mild, non-abrasive cleaner can be used. Avoid harsh chemicals that may damage the finish.
- **Ventilation:** Periodically check that the ventilation holes are clear of dust or debris to ensure proper airflow.
- **Hardware Check:** Every few months, check all screws and connections to ensure they remain tight. Tighten if necessary.
- **Magnetic Latches:** Ensure the magnetic latches on the doors are functioning correctly for secure closure.

## 7. Troubleshooting

If you encounter any issues with your Heybly Litter Box Enclosure, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|---|---|---|
| Doors do not close securely. | Misaligned magnetic latches or hinges. | Adjust the position of the magnetic latches or tighten hinge screws. |
| Power hub not providing power. | Power cord unplugged or faulty device. | Ensure the power hub's cord is fully plugged into a working wall outlet. Test the connected device in another outlet. |
| Enclosure feels unstable. | Loose hardware or anti-tipping device not installed. | Tighten all assembly screws. Ensure the anti-tipping device is correctly installed and secured to a wall stud. |
| Odor retention. | Insufficient ventilation or infrequent cleaning. | Ensure ventilation holes are clear. Clean the enclosure and litter box regularly. Consider using odor-absorbing products inside the enclosure. |

## 8. Specifications
