## LABIGO KS-7915

# LABIGO Upholstery & Carpet Cleaner Machine

MODEL: KS-7915

Brand: LABIGO

### Product Overview

The LABIGO KS-7915 is a portable upholstery and carpet cleaner machine designed for deep cleaning various fabric surfaces. It features powerful suction to effectively remove stubborn stains and spills from rugs, furniture, mattresses, sofas, stairs, and car interiors.

### Key Features:

- **Powerful 18Kpa Suction:** Penetrates deep into fabrics for effective stain removal.
- **Multi-Scene Cleaning:** Includes a brush head for stubborn stains and a suction nozzle for tight spaces, suitable for various non-removable fabric surfaces.
- **Portable & Easy to Store:** Lightweight design (3.68 kg) with integrated storage for hose, power cord, and brush.
- **Large Dual Water Tanks:** 1800ml clean water tank and 650ml dirty water tank for extended cleaning without frequent refills.
- **Easy Cleaning & Maintenance:** Features a self-cleaning function for the hose and flushable parts for hygiene.

## Portable Carpet Cleaner

Powerfully removes tough spots & stains

The LABIGO Portable Carpet Cleaner is designed for effective spot and stain removal on various surfaces.

### Setup Instructions

1. **Attach Power Cord Holders:** Secure the upper and lower power cord holders to the designated slots on the back of the machine.
2. **Attach Handle Holder:** Insert the handle holder into the side slot of the machine.
3. **Attach Hose Holder:** Secure the hose holder to the bottom of the machine.
4. **Fill Clean Water Tank:** Remove the clean water tank. Open the water spout and fill with clean water. For enhanced cleaning, add a suitable cleaning agent. Do not exceed the 'MAX' fill line.
5. **Install Clean Water Tank:** Place the filled clean water tank back onto the machine, ensuring it is properly seated.
6. **Attach Cleaning Tool:** Connect the desired cleaning tool (brush head or nozzle) to the end of the hose until it clicks into place.

This video demonstrates the assembly of the LABIGO Portable Carpet Cleaner, including attaching accessories and filling the water tank.

# Removable Large Capacity Water Tank

Note: Do not exceed the max line

The dual water tank system allows for separate storage of clean and dirty water.

## Operating Instructions

1. **Power On:** Plug the machine into a power outlet. Press the power button on the main unit to turn it on.
2. **Spray Solution:** Press the trigger on the cleaning tool handle to spray cleaning solution onto the stained area.
3. **Scrub (Optional):** For stubborn stains, use the brush head to gently scrub the area.
4. **Suction:** Release the trigger and move the cleaning tool over the wet area to vacuum up the dirty solution. For best results, move the brush head back and forth repeatedly. Tilt the brush head (15°-45°) for optimal water pickup.
5. **Repeat:** Continue spraying and vacuuming until the stain is removed and the area is clean.

## Clean Messes in 3 Easy Steps

Step1: Spray

Step2: Scrub

Step3: Suction

Follow these three easy steps for effective stain removal.

The powerful suction effectively lifts stains from upholstery.

## No More Messy Clean-Up!

Target spills and accidents in car interiors

The cleaner is suitable for targeting spills and accidents in car interiors.

### Maintenance

1. **Empty Dirty Water Tank:** After each use, remove the dirty water tank and empty its contents. Rinse the tank thoroughly with clean water.
2. **Self-Cleaning Function:** To clean the hose and brush head, place the brush head in a bucket or measuring cup filled with clean water. Turn on the machine and activate the spray and suction functions to flush the pipes. This helps prevent odors and removes hidden dirt.
3. **Clean All Parts:** All removable parts are flushable. Ensure all components are clean and dry before storage.
4. **Storage:** Utilize the integrated clips for the extra-long hose (3.28 FT), power cord (9.84 FT), and brush to keep them securely attached to the machine. Store the compact unit in a dry place, such as under a sink or in a closet corner.

This video demonstrates how to empty the dirty water tank and use the self-cleaning function for the hose and brush head.

**Easy to Storage**

**Portable & Compact**

The compact design allows for easy storage and portability.

## Troubleshooting: Weak Suction

If you experience weak suction, please check the following:

- **Dirty Water Tank Installation:** Ensure the dirty water tank is installed correctly and securely. Improper seating can lead to reduced suction power.
- **Dirty Water Level:** Do not exceed the 'MAX' fill line in the dirty water tank. Overfilling can reduce suction.
