6. MAINTENANCE

To ensure the longevity and optimal performance of your charging cable, please follow these maintenance guidelines:

- **Storage:** Store the cable in a clean, dry place away from direct sunlight and extreme temperatures. Avoid tightly coiling or bending the cable at sharp angles.
- **Cleaning:** Gently wipe the cable and connectors with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Handling:** Always grasp the connector head when plugging or unplugging the cable. Avoid pulling directly on the cable itself, as this can damage the internal wires.
- **Inspection:** Periodically inspect the cable for any signs of wear, fraying, or damage to the connectors. Discontinue use if any damage is observed.

7. TROUBLESHOOTING

If you encounter issues with your xiwxi 3-in-2 Multi-Charging Cable, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging	Loose connection, faulty power source, incompatible device, damaged cable.	Ensure all connections are secure. Try a different power source or wall adapter. Verify device compatibility. Inspect cable for damage; discontinue use if damaged.
Slow charging speed	Low-power adapter, multiple devices charging simultaneously, device case interfering with magnetic charging.	Use a higher wattage power adapter. If charging multiple devices, charging speed may be distributed. Remove thick cases from Apple Watch for optimal magnetic connection.

Problem	Possible Cause	Solution
Apple Watch not magnetically attaching	Obstruction, device case.	Ensure no debris is on the charging module or watch back. Remove any protective cases that might interfere with the magnetic connection.
Cable appears damaged	Physical stress, wear and tear.	Discontinue use immediately to prevent potential hazards. Contact customer support for warranty information.
