

U-MAX 16318DG

U-MAX Resin Outdoor Storage Cabinet User Manual

MODEL: 16318DG

Important Safety Information

Read all instructions carefully before assembly and use. Failure to follow these instructions may result in product damage or personal injury.

- Always follow the assembly instructions carefully.
- Use appropriate tools and assistance when handling heavy components.
- Keep the storage cabinet on a stable, level surface to prevent tipping.
- Do not exceed the weight limit of **70 lbs (31.75 kg) per shelf**.
- Ensure all doors are securely closed and latched to prevent accidental opening, especially in windy conditions.
- Do not allow children to climb on or play inside the cabinet.
- Consult the user manual for detailed safety instructions and warnings.

Product Overview

The U-MAX Resin Outdoor Storage Cabinet is designed for versatile storage in various environments, offering protection for your belongings. Its durable resin construction and weather-resistant features make it suitable for both indoor and outdoor use.

- **Weather-Resistant Protection:** Features a slanted plastic roof to prevent water pooling and secure double doors for moisture protection.
- **Customizable Storage:** Equipped with 3 adjustable shelves to organize various items.
- **Durable Construction:** Made from high-quality, UV-resistant resin for longevity and easy cleaning.
- **Heavy-Duty Capacity:** Each shelf supports up to 70 lbs (31.75 kg).

Assembly Instructions

Assembly of the U-MAX storage cabinet is designed to be straightforward. Follow the provided step-by-step instructions and diagrams carefully. It is recommended to have a helper for certain steps.

1. **Unpack and Identify Parts:** Carefully unpack all components and verify against the parts list in your included manual. Ensure all parts are present and undamaged.
2. **Prepare the Base:** Assemble the base unit on a flat, level surface. Ensure all connections are secure.
3. **Attach Side and Back Panels:** Connect the side and back panels to the base. Pay close attention to the orientation of each panel as indicated in the diagrams. Some connections may require self-tapping screws; apply firm, even pressure.
4. **Install Shelves:** Insert the adjustable shelves into the desired positions. The shelves can be repositioned later as needed.
5. **Assemble and Attach Doors:** Secure the doors to the cabinet frame using the provided hinges. Ensure the doors align properly and open/close smoothly.
6. **Install Roof:** Attach the sloped resin roof, ensuring it is securely fastened to provide weather protection.
7. **Final Checks:** Verify all screws and fasteners are tightened. Test the doors for proper function.

Note: Some users have reported that pre-drilled holes may not always be present for all screw locations. In such cases, self-tapping screws are designed to create their own pilot holes. Apply steady pressure and ensure screws are driven straight. If you encounter difficulties, U-MAX technical support is available for remote assistance.

Operation

The U-MAX storage cabinet is designed for simple and effective use.

- **Opening and Closing Doors:** Grasp the door handles and pull gently to open. Push firmly to close, ensuring the latches engage for security and weather sealing.
- **Adjusting Shelves:** To adjust shelf height, carefully lift the shelf and reposition it into the desired slots on the side panels. Ensure the shelf is level and securely seated before placing items on it.
- **Loading Items:** Distribute weight evenly across shelves. Do not exceed the 70 lbs (31.75 kg) weight limit per shelf. Place heavier items on lower shelves for stability.

Maintenance and Care

Proper maintenance will ensure the longevity and appearance of your U-MAX storage cabinet.

- **Cleaning:** The resin material requires only simple wiping for cleaning. Use a soft cloth with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Weather Protection:** The cabinet's UV-resistant resin construction and slanted roof are designed to withstand various weather conditions. Regularly check the roof for debris accumulation and clear it to maintain proper water runoff.
- **Door Alignment:** Periodically check door alignment and hinge tightness. If doors become misaligned, adjust hinges as necessary to ensure a tight seal.

Troubleshooting

If you encounter issues during assembly or use, refer to the following common solutions:

Problem	Possible Cause	Solution
Difficulty with assembly / Unclear instructions	Diagrams may be vague; lack of pre-drilled holes.	Review diagrams carefully. For self-tapping screws, apply firm, steady pressure. Contact U-MAX customer support for remote assistance if needed.
Parts do not align properly	Incorrect orientation of panels; uneven assembly surface.	Disassemble affected section and re-check panel orientation. Ensure assembly is on a flat, level surface.
Cabinet feels flimsy or unstable	Screws not fully tightened; uneven ground.	Ensure all screws are securely tightened. Place the cabinet on a completely level surface. Consider anchoring the cabinet if in a windy area (anchoring hardware not included).
Doors do not close flush or latch	Misaligned hinges; cabinet not level.	Adjust hinge screws to realign doors. Verify the cabinet is on a level surface.
Missing or damaged parts	Shipping damage; packaging error.	Contact U-MAX customer support immediately with your purchase details for replacement parts.

Product Specifications

Specification	Detail
Brand	U-MAX
Model Number	16318DG

Specification	Detail
Color	Light Grey
Material	Plastic (Resin)
Product Dimensions (D x W x H)	18.7" x 35.4" x 70.5" (47.5 cm x 89.9 cm x 179.1 cm)
Item Weight	69.3 Pounds (31.43 kg)
Weight Limit per Shelf	70 Pounds (31.75 kg)
Total Weight Limit	210 Pounds (95.25 kg)
Water Resistance Level	Waterproof
Assembly Required	Yes
