5. Maintenance

Proper maintenance will extend the life and appearance of your Benass Outdoor Storage Shed. The shed is constructed from durable galvanized steel, offering excellent resistance to weather and corrosion.

Care and Cleaning:

- **Regular Cleaning:** Clean the exterior periodically with mild soap and water to remove dirt and grime. Avoid abrasive cleaners or harsh chemicals.
- **Inspect for Damage:** Regularly check for any loose fasteners, dents, or scratches. Address minor damage promptly to prevent further issues.
- **Ventilation:** Ensure the four vents are clear of obstructions to maintain proper airflow and prevent moisture buildup inside the shed.
- **Door Mechanism:** Lubricate hinges and the lock mechanism annually to ensure smooth operation.

6. Troubleshooting

This section addresses common issues you might encounter with your Benass Outdoor Storage Shed. For problems not listed here, please contact customer support.

Problem	Possible Cause	Solution
Doors do not close or lock properly	Misalignment during assembly; obstruction in the door track; uneven ground.	Check door alignment and adjust hinges if necessary. Clear any debris from the door track. Ensure the shed is on a level surface.
Water accumulation inside the shed	Improper assembly of roof panels; clogged vents; damaged seals.	Verify all roof panels are correctly installed and sealed. Clear any blockages from the vents. Inspect and replace damaged seals if present.
Shed feels unstable or wobbly	Loose fasteners; uneven foundation; missing anchor points.	Tighten all screws and bolts. Ensure the shed is on a firm, level foundation. Secure the shed to the ground using appropriate anchoring methods (not included).

Problem	Possible Cause	Solution
Poor air circulation/stuffy interior	Vents are blocked or obstructed.	Regularly check and clear the four ventilation vents on the shed to ensure unobstructed airflow.
