## SHRATE SH01

# SHRATE Ionic Hair Dryer with Diffuser (Model SH01) Instruction Manual

Model: SH01 | Brand: SHRATE

## Important Safety Instructions

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- **DANGER** – As with most electrical appliances, electrical parts are electrically live even when the switch is off. To reduce the risk of death by electric shock:
    a. Always unplug this appliance immediately after using.
    b. Do not use while bathing.
    c. Do not place or store appliance where it can fall or be pulled into a tub or sink.
    d. Do not place in or drop into water or other liquid.
    e. If an appliance falls into water, unplug it immediately. Do not reach into the water.
- **WARNING** – To reduce the risk of burns, electrocution, fire, or injury to persons:
    a. An appliance should never be left unattended when plugged in.
    b. Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities.
    c. Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
    d. Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped, damaged, or dropped into water.
    e. Keep the cord away from heated surfaces. Do not pull, twist, or wrap cord around the appliance.
    f. Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair, and the like.
    g. Never use while sleeping.
    h. Never drop or insert any object into any opening.
    i. Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
    j. Do not use an extension cord with this appliance.
    k. Do not direct hot air towards eyes or other heat-sensitive areas.
    l. Attachments may be hot during use. Allow them to cool before handling.
    m. Do not place appliance on any surface while it is operating.
    n. While using the appliance, keep your hair away from the air inlets.

## Product Overview

The SHRATE Ionic Hair Dryer with Diffuser (Model SH01) is designed for efficient and gentle hair drying. It features an 1800W motor, ionic technology for frizz reduction, and constant temperature control to minimize heat damage. The compact and lightweight design makes it suitable for both home use and travel.

### Key Features:

- **1800W High-Speed Motor:** Delivers powerful airflow for rapid drying.
- **Ionic Frizz Reduction:** Emits negative ions to reduce frizz, enhance shine, and promote smoother hair.
- **Constant Temperature Control:** Maintains a stable heat level to prevent excessive heat damage.
- **Compact and Lightweight Design:** Weighs approximately 0.99 lbs, making it easy to handle and ideal for travel.
- **Multiple Heat/Speed Settings:** Offers two-speed settings and three temperature options (Hot, Warm, Cold) for versatile styling.
- **Cool Shot Button:** Helps to set hairstyles and reduce static.
- **Three Magnetic Attachments:** Includes a diffuser nozzle, a smooth nozzle, and a styling nozzle for various hair types and styles.

Figure 3: Included magnetic attachments: diffuser, smooth, and styling nozzles.

## Setup

Before first use, ensure the hair dryer is clean and free from any packaging materials. Attach the desired nozzle according to your styling needs.

### Attaching Nozzles:

The SHRATE Ionic Hair Dryer comes with three magnetic attachments: a diffuser, a smooth nozzle, and a styling nozzle. These attachments connect magnetically to the front of the dryer.

1. Select the appropriate attachment for your desired style.
2. Align the attachment with the front opening of the hair dryer.
3. The magnetic connection will secure the attachment in place. Ensure it is firmly attached before use.
4. To remove, gently pull the attachment away from the dryer.

Video 1: Demonstration of attaching and detaching the diffuser and other nozzles. This video shows how to easily connect the magnetic attachments to the hair dryer.

## Operating Instructions

Follow these steps for safe and effective operation of your SHRATE Ionic Hair Dryer.

### Powering On/Off:

1. Plug the hair dryer into a suitable electrical outlet.
2. Locate the power switch on the handle.
3. Slide the switch to the 'Low' (I) or 'High' (II) position to turn on the dryer.
4. Slide the switch to the 'Off' (O) position to turn off the dryer.

### Adjusting Heat and Speed Settings:

The dryer features separate controls for speed and temperature.

- **Speed Settings:**
  - **I (Low):** For gentle drying and styling.
  - **II (High):** For rapid drying.
- **Temperature Settings:**
  - **Hot:** For fast drying and styling.
  - **Warm:** For normal drying.
  - **Cold:** For gentle drying or setting styles.
- **Cool Shot Button:** Press and hold the cool shot button for a burst of cool air to set your style.

### Using Attachments:

- **Diffuser Nozzle:** Ideal for curly and wavy hair. Use on a low speed and warm temperature setting. Gently cup sections of hair with the diffuser, lifting towards the scalp to enhance natural curls and reduce frizz.
- **Smooth Nozzle:** For sleek and straight styles. Direct the airflow downwards along the hair shaft while brushing to achieve a smooth finish.
- **Styling Nozzle:** For precise styling. Use with a round brush to create volume or shape specific sections of hair.

## Maintenance

Regular maintenance ensures optimal performance and extends the life of your hair dryer.

### Cleaning the Air Filter:

The rear air filter should be cleaned periodically to prevent lint and hair buildup, which can affect performance and lead to overheating.

1. Ensure the hair dryer is unplugged from the power outlet and completely cool.
2. Locate the removable air filter cover at the rear of the dryer.
3. Gently twist or pull the cover to remove it (refer to Figure 4 for illustration).
4. Clean any accumulated lint, dust, or hair from the filter screen using a soft brush or cloth.
5. Replace the filter cover, ensuring it clicks securely into place.

Figure 4: Rear view of the hair dryer, indicating the air filter location.

## General Cleaning:

- Wipe the exterior of the dryer with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Ensure the dryer is completely dry before plugging it in and using it again.

## Troubleshooting

If you encounter issues with your SHRATE Ionic Hair Dryer, refer to the following common problems and solutions.

| Problem | Possible Cause | Solution |
|---|---|---|
| Dryer does not turn on. | No power, faulty outlet, power switch in 'Off' position. | Ensure the dryer is securely plugged into a working electrical outlet.<br>Check if the power switch is set to 'Low' (I) or 'High' (II).<br>Test the outlet with another appliance to confirm it has power. |

| Problem | Possible Cause | Solution |
|---|---|---|
| Airflow is weak or inconsistent. | Blocked air inlet/outlet, dirty air filter. | Unplug the dryer and check for any obstructions in the air inlet or outlet.<br>Clean the air filter as described in the Maintenance section. |
| Dryer overheats and shuts off. | Blocked air filter, prolonged use, internal safety mechanism activated. | Unplug the dryer and allow it to cool down for at least 10-15 minutes.<br>Clean the air filter thoroughly.<br>Ensure air inlets and outlets are not blocked during use. |
| Attachments do not stay on. | Improper attachment, debris on magnetic surface. | Ensure the attachment is correctly aligned and fully seated onto the magnetic connection point.<br>Clean the magnetic surfaces on both the dryer and the attachment to remove any debris. |

If the problem persists after attempting these solutions, please contact customer support.

## Specifications

| Feature | Detail |
|---|---|
| Brand | SHRATE |
| Model Number | SH01 |
| Power Source | Corded Electric |
| Wattage | 1875 watts (Note: Product title states 1800W, specifications state 1875W. Using 1875W from specifications for accuracy.) |
