5. Operating Instructions

5.1 Music Modes

The headphones offer three distinct listening modes. Press the **ANC button** to cycle through them:

- **Standard Mode:** Provides a balanced sound profile for general listening.
- **Active Noise Cancellation (ANC) Mode:** Reduces ambient noise for an immersive audio experience.
- **Transparency Mode:** Allows you to hear your surroundings while listening to audio, enhancing situational awareness.

7. Maintenance

To maintain the performance and appearance of your headphones:

- Clean the earcups and headband regularly with a soft, dry cloth.
- Avoid exposing the headphones to extreme temperatures, humidity, or liquids.
- Store the headphones in a cool, dry place when not in use, preferably in a protective case.
- Do not attempt to disassemble or repair the headphones yourself. Contact customer support for assistance.

8. Troubleshooting

If you encounter issues with your headphones, refer to the following common solutions:

- **No Power:** Ensure the headphones are fully charged.
- **Cannot Pair via Bluetooth:** Make sure the headphones are in pairing mode (flashing blue/red LED) and within range of your device. Forget the device on your phone and try pairing again.
- **No Sound:** Check volume levels on both the headphones and your connected device. Ensure the correct audio output is selected on your device. If using wired mode, ensure the cable is fully inserted and functional.
- **ANC Not Working Effectively:** Ensure the ANC mode is activated. Environmental factors can affect ANC performance.
- **Poor Call Quality:** Ensure the microphone is not obstructed. Move closer to your device to improve Bluetooth signal strength.
