1. INTRODUCTION

Thank you for choosing the Bapick AI Smart Glasses. These innovative glasses integrate an 8MP HD camera, open-ear audio, real-time AI translation, and voice assistant capabilities into a stylish and functional design. This manual provides detailed instructions to help you get the most out of your new smart glasses.

2. WHAT'S IN THE BOX

- Bapick AI Smart Glasses
- Foldable glasses case
- Instruction manual
- Glasses cloth
- 1 pair of blue light blocking lenses
- 1 pair of UV protection black lenses
- Charging cable

3. KEY FEATURES

3.1. 4K HD Imaging & 1080P Video Stabilization

Equipped with an 8MP HD camera, these smart glasses capture smooth 30fps videos and support 32MP high-resolution photos. Advanced multi-frame noise reduction and video stabilization algorithms ensure clear and stable footage, ideal for vlogging, travel, cycling, outdoor sports, fishing, and family moments.

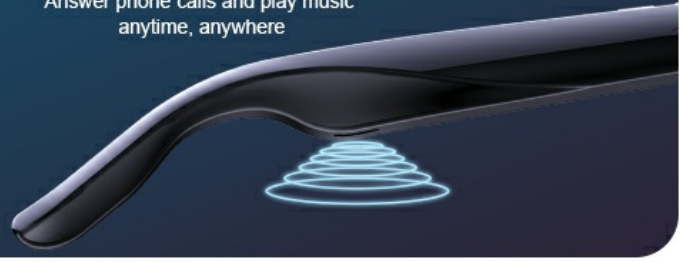

8MP HD Camera

Photo/Video capture, 1st-Person view, Hands-Free

Directional Sound

Answer phone calls and play music anytime, anywhere

290mAh Battery, Ultra-Long Battery Life

2-Hour Charge,
7-Hour Music Play,
4-Hour Talk Time

AI Voice Assistant

Supports ChatGPT, Doubao & other general large models, Chat Anytime

APP Control, Simple & Efficient

4. SETUP

4.1. Charging the Glasses

Before first use, fully charge your Bapick AI Smart Glasses using the provided charging cable. Connect the cable to the charging port on the glasses and a compatible USB power source. The indicator light will show charging status.

4.2. Powering On/Off

To power on the glasses, toggle the power switch. When powering on, a prompt tone will be emitted from the two microphone ports. To power off, toggle the switch again.

4.3. App Download and Connection

Scan the QR code in the instruction manual or search for the "HeyCyan" app in your mobile phone's app store to download. Open the app, click "Connect device", and follow the prompts to select your glasses for pairing via Bluetooth 5.0 and Wi-Fi.

5.2. Voice Call

- **Single-click (Left Button):** Answer a call.
- **Long-press for 2 seconds (Left Button):** Reject a call.
- **During a call, short-press (Left Button):** End the call.

5.3. Recording

- **Long-press (Left Button):** Start recording audio.
- **Short-press (Left Button) during recording:** End recording.

5.4. Music Playback

- **Play/Pause:** Double-tap the touch area.
- **Next Song:** Swipe forward on the touch area.
- **Previous Song:** Swipe backward on the touch area.
- **Volume Control:** Triple-tap the touch area.

5.5. AI Voice Assistant Activation

- **Single-click (Right Button):** Activate the AI Voice Assistant.
- **Long-press (Right Button):** Activate the AI Voice Assistant for quick image recognition.

6. MAINTENANCE

- Use the provided glasses cloth to clean lenses and frames.
- Avoid exposing the glasses to extreme temperatures or direct sunlight for prolonged periods.
- Store the glasses in the foldable case when not in use to prevent scratches and damage.
- Keep the charging port clean and free of debris.

7. TROUBLESHOOTING

Q: Why is the video quality limited?

A: These smart glasses feature an 8-megapixel camera. Use them in well-lit environments; it's sufficient for daily use. Please avoid comparing them to the pixel count of current smartphones, which range from 50 to 200 megapixels.

Q: How do I set up the glasses for the first time?

A: The first time you use the smart glasses, please turn on the power, turn on your phone's Bluetooth, find the Bluetooth name of the smart glasses, connect them, then open the "HeyCyan" app and follow the instructions.

Q: Why isn't the AI Assistant working?

A: To use the AI voice assistant, activate it with the English wake phrase: "Hey Cyan." Once activated, you can ask questions in your preferred language. Note: Each wake phrase triggers a single question. To ask another question, say "Hey Cyan" again.

Q: How many languages are supported for real-time translation, and how do I switch between them?

A: Real-time translation currently supports 144 languages. To switch languages: Open the "AI Translate" feature in the HeyCyan app. Select your desired translation mode. Use the dropdown menus to choose the source and target languages.

Q: Why does the battery drain so quickly?

A: The 290mAh battery provides up to 120h standby, 30h music, or 0.5h video. High-power tasks like recording and exporting drain it quickly.

8. SPECIFICATIONS

Feature	Detail
Brand	Bapick
Model Number	757060943111
Camera	8MP HD Camera, 1080P 30fps video recording
