1. **Ensure the charging port is completely dry** before connecting the charger, especially after each use. Water in the charging port can cause damage.
2. While the device is charging, store it in a **cool and well-ventilated area**. Avoid charging it in direct sunlight to prevent overheating.
3. If salt crystals form on the charging pins, you can clean them by gently rubbing with a dry cloth dampened with white vinegar or lemon juice.

The charger provides a fast, 3-hour charge, ensuring efficient and safe power replenishment for your device. A red indicator typically signifies charging, while a green indicator shows a complete charge.

4. MAINTENANCE

Regular maintenance is essential for the optimal performance and lifespan of your LiteVac 800 and its accessories.

4.1. Cleaning Charging Pins

- As mentioned in the charging instructions, if salt crystals accumulate on the charging pins, clean them with a dry cloth lightly moistened with white vinegar or lemon juice. This prevents corrosion and ensures a good electrical connection.

4.2. Filter and Filter Basket Cleaning

- After each use, remove the filter basket and filter mesh from the LiteVac 800.
- Rinse the filter mesh and filter basket thoroughly with clean water to remove all trapped debris.
- Ensure all components are completely dry before reassembling them into the robotic cleaner.
