

MINISO MS112

MINISO MS112 AI Translation Earbuds User Manual

Model: MS112

INTRODUCTION

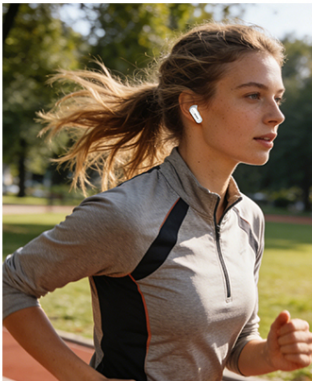

Thank you for choosing the MINISO MS112 AI Translation Earbuds. These intelligent earbuds are designed to facilitate real-time communication across languages, monitor heart rate, and provide high-fidelity audio. This manual will guide you through the setup, operation, and maintenance of your device.

The MS112 earbuds offer a 4-in-1 functionality, combining real-time translation, video calls, phone calls, and high-fidelity music listening. They are compatible with both iOS and Android devices.

SETUP

1. Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case. Connect the provided USB-C cable to the charging case and a power source. The indicator lights on the case will show the charging status.

2. App Installation

The translation function requires the "AuralIntelli" application. Please download the app from your device's app store (iOS or Android).

1. Download the "AuralIntelli" app.
2. Log in to the app or create a new account.

App Tutorial

1

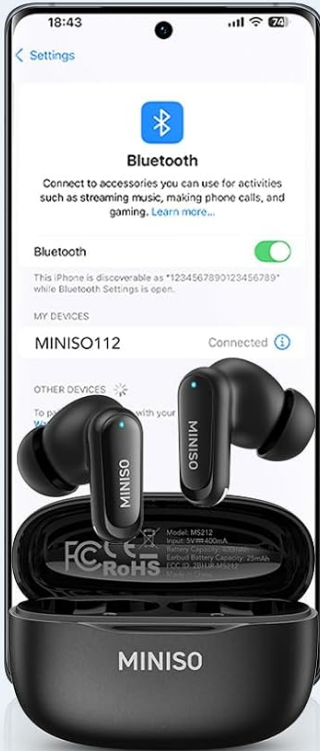

Download the "AuralIntelli" app

2

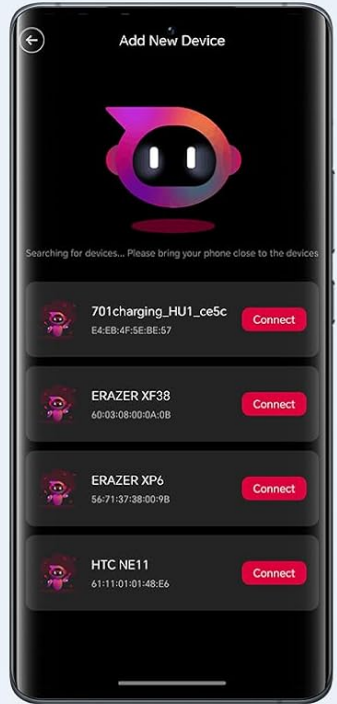

Log in to the APP

3

Take out the headphones and connect to your device

4

Enter the APP and connect to Bluetooth

Image: Steps for downloading and logging into the AuralIntelli app.

3. Bluetooth Pairing

To connect your MINISO MS112 earbuds to your smartphone:

1. Ensure the earbuds are charged and placed in the charging case.
2. Open the charging case. The earbuds will enter pairing mode.
3. On your smartphone, go to Bluetooth settings and enable Bluetooth.
4. Select "MINISO MS112" from the list of available devices to pair.
5. Once paired, open the "AuralIntelli" app and connect the earbuds within the app's device management section.

Photo Translation

The camera translation mode can instantly recognize and translate text through the camera

- **AI Conversation Mode:** Facilitates fluent dialogue with AI assistance.
- **Conference Mode:** Designed for multilingual meetings.
- **Dual Mode:** Allows simultaneous music listening and translation.
- **Voice Memos:** Automatically transcribes spoken words.

9 Funktionen

For Various Different Situations

-  AI chat
-  Translation machine mode
-  Free Talk Mode
-  Headphone + phone mode
-  Photo translation
-  HD music listening
-  Voice note
-  Voice call
-  ASMR audio

Image: Overview of the 9 functions, including multiple translation modes.

Real-time translation function

Make cross-language communication as natural as a native-speaker conversation, making business trips and travel a breeze.

Image: Real-time translation function in use.

2. Heart Rate Sensing

The earbuds feature a built-in heart rate sensor that tracks your heart rate in real-time across over 50 workout types. This data is accessible through the "AuralIntelli" app.

To use this feature, ensure the earbuds are properly seated in your ear canal. Open the app, navigate to the heart rate detection section, and initiate a measurement. The app will display your current heart rate and historical data.

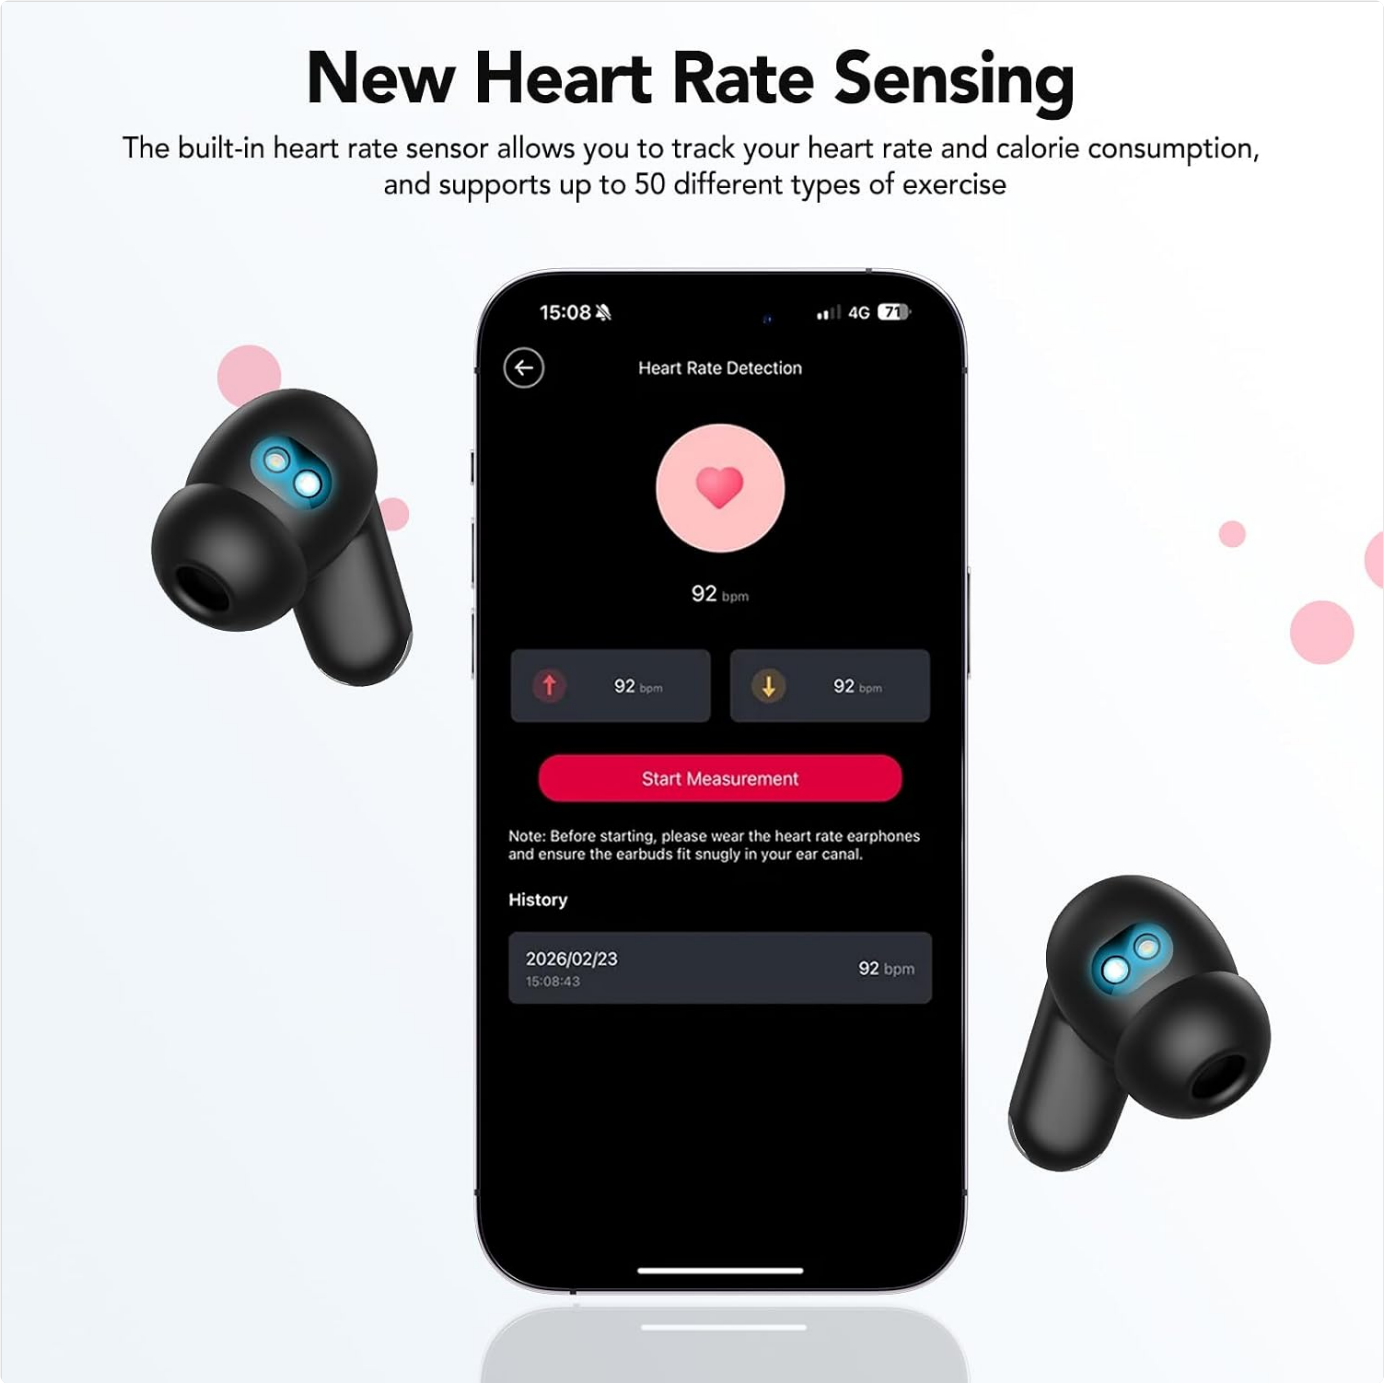

Image: Heart rate sensing feature displayed on a smartphone app.

Fast and accurate translation

Let you communicate easily when traveling abroad

Image: Heart rate monitoring during physical activity.

3. Active Noise Cancellation (ANC)

The earbuds are equipped with Adaptive Noise Cancellation to effectively block background noise, ensuring clear communication and immersive audio. This feature enhances your listening experience in various environments.

Strong And Smart Noise Cancelling

Simulating A Three-Dimensional Sound Field, The Sound Comes From All Directions.
This Creates A More Immersive And Realistic Listening Experience.

Image: Noise cancelling feature in use, showing different modes like Commuting, Outdoor, and Indoor.

4. Audio Playback and Calls

Enjoy high-fidelity stereo sound for music playback. The earbuds also support video calls and phone calls, providing clear audio for conversations.

Touch Controls:

The MINISO MS112 earbuds feature touch controls for managing playback, calls, and translation functions. Specific gestures and their corresponding actions can be configured or found within the "AuralIntelli" app.

MAINTENANCE

Cleaning

- Gently wipe the earbuds and charging case with a soft, dry, lint-free cloth.
- Do not use abrasive cleaners, alcohol, or chemical solvents.
- Ensure the charging ports are free of dust and debris.

Storage

When not in use, store the earbuds in their charging case to protect them and keep them charged. Avoid extreme temperatures and direct sunlight.

TROUBLESHOOTING

Problem	Possible Solution
Earbuds not pairing	• Ensure earbuds are charged. • Turn off and on your device's Bluetooth. • Forget the device in Bluetooth settings and re-pair. • Restart your smartphone.
Translation not working	• Ensure the "AuralIntelli" app is installed and updated. • Verify earbuds are connected within the app. • Check your internet connection (required for translation). • Ensure correct source and target languages are selected.
No sound or poor audio quality	• Check earbud placement and fit. • Clean any debris from the earbud speakers. • Adjust volume on your device. • Ensure earbuds are fully charged.
Heart rate sensor not detecting	• Ensure earbuds are securely and correctly placed in your ears. • Clean the sensor area on the earbuds. • Update the "AuralIntelli" app to the latest version.
