## CaDA C64008W

# CaDA Master C64008W Mercedes-AMG GT3 Building Set Instruction Manual

Model: C64008W | Brand: CaDA

## INTRODUCTION

Welcome to the CaDA Master C64008W Mercedes-AMG GT3 Building Set. This 1:8 scale model is an officially licensed replica designed for advanced builders and automotive enthusiasts. It features intricate mechanical functions and a detailed exterior, providing a rewarding construction and display experience. Please read this manual carefully before beginning assembly to ensure proper construction and understanding of all features.

## SAFETY INFORMATION

### **WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.**

- Keep all small parts away from young children.
- Ensure a clean and organized workspace to prevent loss of parts.
- Follow the assembly instructions carefully to avoid injury or damage to the model.

## SETUP AND ASSEMBLY

The CaDA Master C64008W Mercedes-AMG GT3 model requires assembly using the provided 5466 pieces. A detailed instruction manual is included in the box to guide you through each step of the building process.

### **Preparation:**

- Unpack all components and verify that all parts are present according to the parts list in the included manual.
- Organize parts by type or bag number to streamline the assembly process.
- Ensure you have adequate lighting and a spacious, flat surface for construction.

### **Assembly Steps:**

1. Begin by following the step-by-step instructions in the printed manual.
2. Pay close attention to the orientation of each piece as indicated in the diagrams.
3. The model features advanced mechanical functions such as a multi-speed gearbox, steering-linked front wheels, and four-wheel independent suspension. These sections require precise assembly.
4. Install the USB-powered lighting components as directed in the manual to enable the model's lighting features.
5. The unique pneumatic-style tire-changing system and modular quick-release components (hood, engine, intake system, interior sections) are integrated during specific assembly stages.

For detailed visual guidance, refer to the included instruction manual.

## PNEUMATIC AIR LIFTING SYSTEM

1. Attach the air nozzle to the air port.

2. Lock the valve. Continuously press the air pump to lift the model

3. Use the tool to unlock the tires, then remove them

4. Pull the valve to release the air

### OPERATING FEATURES

Once assembled, the CaDA Master C64008W model offers several interactive and functional features:

- **Steering:** The front wheels are linked to the steering wheel, allowing for manual steering control.
- **Suspension:** Experience realistic movement with the four-wheel independent suspension system.
- **Gearbox:** Engage the detailed multi-speed gearbox with paddle-style shifting for an authentic feel.
- **Opening Elements:** The hood, engine cover, and interior sections are designed with quick-release mechanisms for easy access and display of internal components.
- **Lighting:** The USB-powered lighting components illuminate the model, enhancing its display presence.
- **Tire Change System:** Utilize the pneumatic-style tire-changing system to simulate pit stop operations.

## MAINTENANCE

To ensure the longevity and appearance of your CaDA Master C64008W model:

- Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. For stubborn dirt, use a slightly damp cloth and dry immediately. Avoid harsh chemicals or abrasive cleaners.
- Storage:** Store the model in a cool, dry place away from direct sunlight to prevent discoloration or warping of plastic parts.
- Handling:** Handle the model with care, especially when operating movable parts, to prevent accidental damage.
- Part Replacement:** In case of lost or damaged parts, contact CaDA customer support for assistance.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Parts do not fit together	Incorrect orientation or wrong part used.	Review the instruction manual for the correct part and orientation. Ensure parts are fully pressed together.
Missing parts	Packaging error or part misplaced during assembly.	Double-check all packaging and your workspace. If still missing, contact CaDA customer support.
Functional features (e.g., steering, gearbox) are stiff or not working	Incorrect assembly of internal mechanisms or gears.	Carefully re-examine the relevant sections of the instruction manual. Disassemble and reassemble the affected mechanism, ensuring all gears and linkages move freely.
USB lights not working	Loose connection or power source issue.	Check all USB connections. Ensure the power source is functioning correctly.

## SPECIFICATIONS

---

- Product Dimensions:** 23.23 x 9.84 x 6.69 inches
- Item Weight:** 13.2 pounds
- Item Model Number:** SO CaDA C64008W Super car 251015
- Manufacturer Recommended Age:** 14 years and up
- Number of Pieces:** 5466
- Scale:** 1:8
- Features:** Multi-speed gearbox, steering-linked front wheels, four-wheel independent suspension, USB-powered lighting, pneumatic-style tire-changing system, modular quick-release components.
