## Statik PUP-0507-BLK

# Statik GoHub Slim Portable Charger User Manual

Model: PUP-0507-BLK

### INTRODUCTION

Thank you for choosing the Statik GoHub Slim Portable Charger. This device is designed to provide convenient and versatile power for your electronic devices, whether you are at home or on the go. It features a 10000mAh battery capacity, built-in charging cables, and an integrated wall plug for easy recharging. This manual provides essential information on setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your portable charger.

### KEY FEATURES

- **Integrated Wall Plug:** Allows direct charging of the power bank from any standard wall outlet without extra adapters.
- **Built-in Charging Cables:** Includes Micro-USB, USB-C, and Apple-compatible cables for charging various devices.
- **Additional USB-C Port:** Provides an extra port for charging a fourth device.
- **10000mAh Capacity:** High-capacity battery to provide multiple charges for most smartphones.
- **LED Display:** Shows the remaining battery percentage of the power bank.
- **Slim and Lightweight Design:** Portable and easy to carry in a pocket or bag.
- **Advanced Safety System:** Protects devices against short circuits, overheating, and overcharging.

## SETUP AND INITIAL CHARGING

**Charging the GoHub Portable Charger:**

1. Locate the foldable wall plug on the side of the GoHub charger.
2. Fold out the prongs and plug the charger directly into a standard wall outlet.
3. The LED display will illuminate, showing the current battery percentage and indicating that the device is charging.
4. Allow the charger to fully charge until the LED display shows "100".

## OPERATING INSTRUCTIONS

### Charging Your Devices:

1. Identify the appropriate built-in cable for your device (Micro-USB, USB-C, or Apple compatible).
2. Connect the chosen cable to your device's charging port.
3. The GoHub charger will automatically begin charging your device. The LED display will show the remaining power bank battery level.
4. To charge a fourth device, use your own USB-C cable and connect it to the additional USB-C output port on the GoHub.
5. You can charge up to three devices simultaneously using the built-in cables, or four devices if utilizing the additional USB-C port.

# 10,000 mAH

# CHARGE 3 DEVICES AT ONCE

Integrated USB-C, Micro-USB and Apple compatible cables plus a USB-A and USB-C port for a 3rd device.

Image: A person holding the Statik GoHub Portable Charger next to a tangled mess of traditional charging cables, illustrating that the GoHub eliminates the need for additional adapters or cables by having them built-in (USB-C, Micro USB, Apple compatible).

## Checking Battery Level:

Press the power button located on the side of the GoHub charger. The LED display will show the remaining battery percentage.

## MAINTENANCE AND CARE

- Keep the device dry. Do not expose it to moisture or liquids.
- Avoid extreme temperatures. Store the charger in a cool, dry place.
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- Do not attempt to disassemble or repair the charger yourself. This will void the warranty and may cause damage or injury.
- When not in use for extended periods, charge the power bank at least once every three months to maintain battery health.

## SAFETY INFORMATION

The Statik GoHub Slim Portable Charger is equipped with an Advanced Safety Multi-Protection System to safeguard your devices. This system provides protection against:

- Short circuits
- Overheating
- Overcharging

Always use the product as intended and avoid exposing it to physical shock or dropping it.

## TROUBLESHOOTING

| Problem | Possible Solution |
| --- | --- |
| Device not charging from GoHub. | <ul><li>Ensure the GoHub is sufficiently charged (check LED display).</li><li>Verify that the correct cable is securely connected to your device.</li><li>Try a different built-in cable or the additional USB-C port.</li><li>Ensure your device's charging port is clean and free of debris.</li></ul> |
| GoHub not recharging when plugged into wall. | <ul><li>Check if the wall outlet is functional by plugging in another device.</li><li>Ensure the foldable prongs are fully extended and securely inserted into the outlet.</li><li>If the issue persists, contact customer support.</li></ul> |
| LED display is not working. | <ul><li>Press the power button to activate the display.</li><li>If the display remains off, the battery may be completely depleted. Plug the GoHub into a wall outlet to charge.</li></ul> |
