The projector has a built-in speaker. For enhanced audio, connect external Bluetooth headphones or speakers via Bluetooth 5.4.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the projector's exterior. For the lens, use a specialized lens cleaning cloth and solution to avoid scratches.
- **Storage:** Store the projector in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Ventilation:** Ensure the ventilation openings are not blocked during operation to prevent overheating.

7. TROUBLESHOOTING

- **No Power:** Ensure the power cord is securely connected to both the projector and a working power outlet.
- **Blurry Image:** Adjust the focus wheel on the projector until the image is clear. Check if the projection surface is flat and smooth.

- **Image Not Rectangular:** The auto keystone correction should adjust this automatically. If not, check settings for manual keystone adjustment.
- **No Sound:** Check the volume settings on the projector and any connected external audio devices. Ensure Bluetooth devices are properly paired.
- **Cannot Connect to Wi-Fi/Bluetooth:** Ensure the Wi-Fi network is active and the password is correct. For Bluetooth, ensure the device is in pairing mode and within range.
- **Remote Control Not Working:** Check the batteries in the remote control. Ensure there are no obstructions between the remote and the projector.
