First Ride On 36UTV01

First Ride On 36V Kids Ride On UTV Instruction Manual

Model: 36UTV01 | Brand: First Ride On

1. Safety Information

Always supervise children while using this ride-on car. Ensure the safety belt is fastened and doors are locked. Regularly check for any damage and discontinue use if any issues are found.

- **Adult Assembly Required:** This product requires adult assembly.
- **Age Recommendation:** Suitable for children aged 6 years and up.
- **Weight Limit:** Maximum weight capacity is 130 lbs (60 kg).
- **Supervision:** Direct adult supervision is required at all times.
- **Safe Operating Environment:** Never use near motor vehicles, on or near steep inclines or steps, swimming pools, or other bodies of water. Operate on flat, dry surfaces.
- **Safety Belts:** Always ensure safety belts are securely fastened.
- **Helmet Use:** Always wear a helmet for safety.
- **Choking Hazard:** Contains small parts. Not for children under 3 years.
- **Battery Safety:** The rechargeable battery is not replaceable. Never modify the electrical system.

2. Package Contents

Before assembly, ensure all components are present and undamaged. Refer to the parts list in your user manual for detailed identification.

- UTV Main Body (partially pre-assembled)
- 4 x 14" EVA Wheels
- 2 x Shock Absorbers
- Steering Wheel
- Front Bumper
- Rear Roll Bar with Lights
- 2 x Seats with 3-point Safety Belts
- Charging Box (Charger)
- Assembly Hardware (screws, nuts, washers, tools)
- User Manual

3. Assembly Instructions

Follow these steps carefully for proper assembly. An assembly video is provided for visual guidance.

Official assembly video for the First Ride On 36V UTV. This video provides a step-by-step guide to help you assemble your new ride-on vehicle.

3.1 Unboxing and Initial Setup

Carefully open the packaging and remove all components. Place the main UTV body on a stable surface, preferably on the cardboard packaging to protect the vehicle and your floor.

All components laid out after unboxing, ready for assembly.

3.2 Frame and Suspension Assembly

- Attach the front bumper to the main frame using the provided screws and nuts.
- Install the rear shock absorbers. Ensure they are securely fastened to the frame.

Close-up of the rear metal suspension system, designed for a smoother ride.

3.3 Wheel Installation

- Slide the EVA wheels onto the axles.
- Secure each wheel with the appropriate washers and nuts. Ensure they are tight but allow the wheel to spin freely.

3.4 Steering Wheel and Roll Bar

- Connect the steering wheel to the steering column.
- Attach the rear roll bar, ensuring the lights are facing the correct direction.

3.5 Seat Installation

- Assemble the two-seater unit.
- Place the assembled seat unit into the UTV body and secure it with the designated screws.
- Ensure the 3-point safety belts are correctly positioned.

3.6 Battery Connection and Charging

- Connect the battery terminals as indicated in the manual.
- Before first use, fully charge the battery using the provided charging box.

4. Features

- **Realistic Driving Experience:** Features a variable throttle pedal, forward and reverse gears, gradual start, and electronic brake for real vehicle control.
- **Entertainment System:** Includes Bluetooth music, FM radio, and LED lights for an enhanced driving experience.
- **Extended Playtime:** 36V battery provides 40-60 minutes of runtime per charge, depending on terrain.
- **Storage:** Spacious rear storage box for toys and snacks.
- **High-Performance Power System:** Equipped with a 36V 9Ah battery and dual 200W high-torque motors for powerful acceleration and climbing ability.
- **Speed:** Top speed of 5-8 mph.
- **Durable Construction:** 14-inch wear-resistant EVA tires and a reinforced metal chassis provide excellent traction and stability.
- **Comfort and Safety:** Rear metal spring suspension absorbs shocks for a smoother ride. Two-seater design with 3-point safety belts for added protection.

Feature comparison highlighting the advantages of the 36V system.

5. Operating Instructions

5.1 Starting the UTV

- Ensure the battery is fully charged and properly connected.
- Turn the main power switch to the 'ON' position.

5.2 Driving

- **Forward/Reverse:** Use the gear selector to choose between forward and reverse.
- **Acceleration:** Press the throttle pedal to accelerate. The speed is variable based on pedal pressure.
- **Braking:** Press the brake pedal to slow down or stop the UTV.
- **Steering:** Use the steering wheel to control direction.

5.3 Speed Modes

The UTV features multiple speed settings. Refer to the control panel for selecting high or low speed modes, if available.

5.4 Entertainment and Lights

- **Bluetooth Music:** Connect your device via Bluetooth to play music through the UTV's speakers.
- **FM Radio:** Tune into FM radio stations using the controls on the dashboard.
- **LED Lights:** Activate the LED lights for visibility and fun.

6. Charging the Battery

Locate the charging port on the UTV. Plug the charging box into the port and then into a standard wall outlet. The indicator light on the charger will show the charging status (e.g., red for charging, green for fully charged). Do not overcharge the battery.

Illustration of the charging port location on the UTV.

7. Maintenance

7.1 General Care

- Clean the UTV regularly with a damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Store the UTV in a dry, covered area away from direct sunlight and moisture.

7.2 Battery Maintenance

- Charge the battery fully after each use.
- If storing for an extended period, charge the battery once a month to prolong its lifespan.
- Do not allow the battery to completely discharge.

8. Troubleshooting

If you encounter any issues, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
UTV does not move	Battery is low or disconnected	Charge the battery; check battery connections.
Reduced speed/power	Low battery charge; heavy load; rough terrain	Recharge battery; reduce load; operate on smoother terrain.
Lights/music not working	Loose wiring; battery issue	Check connections; ensure battery is charged.
Unusual noises	Loose parts; motor issue	Inspect for loose parts and tighten; contact support if motor issue persists.

If problems persist, contact customer support.

9. Specifications

- **Product Dimensions:** 55 x 34.6 x 31.5 inches
- **Item Weight:** 97.8 pounds
- **Item Model Number:** 36UTV01
- **Manufacturer Recommended Age:** 3 years and up (Note: Product description states 6+ for optimal experience)
- **Battery:** 1 x 36V 9Ah (included)
- **Motors:** Dual 200W high-torque motors
- **Speed:** 5-8 mph
- **Wheels:** 14" EVA Tires
- **Frame:** Metal Frame
- **Suspension:** Rear Metal Spring Suspension

10. Warranty and Support

For warranty information and customer support, please refer to the documentation included with your product or contact First Ride On customer service directly. Keep your purchase receipt for any warranty claims.
