## Rovibek FTGFD88

# Rovibek 75 Inch Double Dog Crate Furniture User Manual

Model: FTGFD88

## INTRODUCTION

---

Thank you for choosing the Rovibek 75 Inch Double Dog Crate Furniture. This product is designed to provide a comfortable and secure space for your pets while also serving as a functional piece of furniture, such as a TV stand or coffee table. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure safe and effective use of your new dog crate.

This furniture-style dog crate features a robust design with a reinforced steel-pipe door and P2-grade particleboard construction, ensuring durability and safety. It includes a removable divider for flexible space management and easy-clean hidden trays for convenient maintenance.

## SAFETY INFORMATION

---

- Always ensure all parts are securely fastened before allowing pets to use the crate.
- Do not exceed the maximum weight capacity of the top surface (up to 400 pounds).
- Regularly inspect the crate for any loose or damaged parts. Discontinue use if damage is found and contact support.
- Keep small children away from the assembly area and ensure they do not play inside or on the crate.
- Ensure proper ventilation for your pets.
- This product is intended for indoor use only.

## PACKAGE CONTENTS

---

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- 1 x Rovibek 75 Inch Double Dog Crate Furniture
- 1 x Accessory Kit (includes hardware and tools)
- 1 x Instruction Manual

## SETUP AND ASSEMBLY

---

Assembly is designed to be straightforward with clear instructions and included tools. It is recommended to have a helper for easier assembly due to the size and weight of some components.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Identify Parts:** Refer to the parts list in the included accessory kit to identify each component.
3. **Assemble Frame:** Begin by assembling the main steel frame structure according to the diagrams in the accessory kit. Ensure all screws are finger-tightened initially.
4. **Attach Wood Panels:** Secure the P2-grade particleboard panels to the steel frame. Pay attention to the orientation of each panel.
5. **Install Doors:** Attach the reinforced steel-pipe doors to the designated openings. Ensure the hinges operate smoothly and the safety door locks engage properly.
6. **Insert Trays:** Slide the two removable trays into their respective compartments at the bottom of the crate.
7. **Install Divider (Optional):** If separating the space for two dogs, insert the removable divider into the central slot. For a single large space, the divider can be omitted.
8. **Final Tightening:** Once all components are in place, systematically tighten all screws and bolts using the provided tools. Do not overtighten.
9. **Adjust Feet:** The crate features adjustable feet. Level the crate by adjusting the feet to ensure stability on uneven surfaces.

For optimal adjustment, leave the doors open initially, allowing your pets to explore and get used to their new space in comfort.

## OPERATING INSTRUCTIONS

---

### Using the Double Doors

The crate features double doors for each compartment, allowing flexible access for your pets. To open, slide the safety door locks and gently pull the doors outwards. To close, push the doors shut and engage the locks securely.

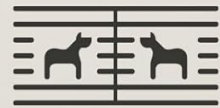

### Utilizing the Removable Divider

The central divider allows you to configure the crate for one or two dogs. To create two separate compartments, slide the divider into the designated grooves in the middle of the crate. To create one large space, simply remove the divider. This flexibility helps accommodate different pet needs and can minimize conflicts between pets.

# Removable Divider

**Without Divider  
One Room**

**With Divider  
Two Rooms**

Image: The removable divider allows conversion between a single large space and two individual compartments.

## Accessing the Easy-Clean Trays

Each compartment is equipped with a removable tray at the bottom for easy cleaning. To access, lift the hinged section of the crate floor and slide the tray out. After cleaning, ensure the tray is properly reinserted and the hinged floor section is securely closed.

## MAINTENANCE

---

### Cleaning the Trays

The removable trays are designed for easy cleaning. Simply slide them out, wash with mild soap and water, rinse thoroughly, and dry completely before reinserting. This helps maintain hygiene and contains pet hair and food debris.

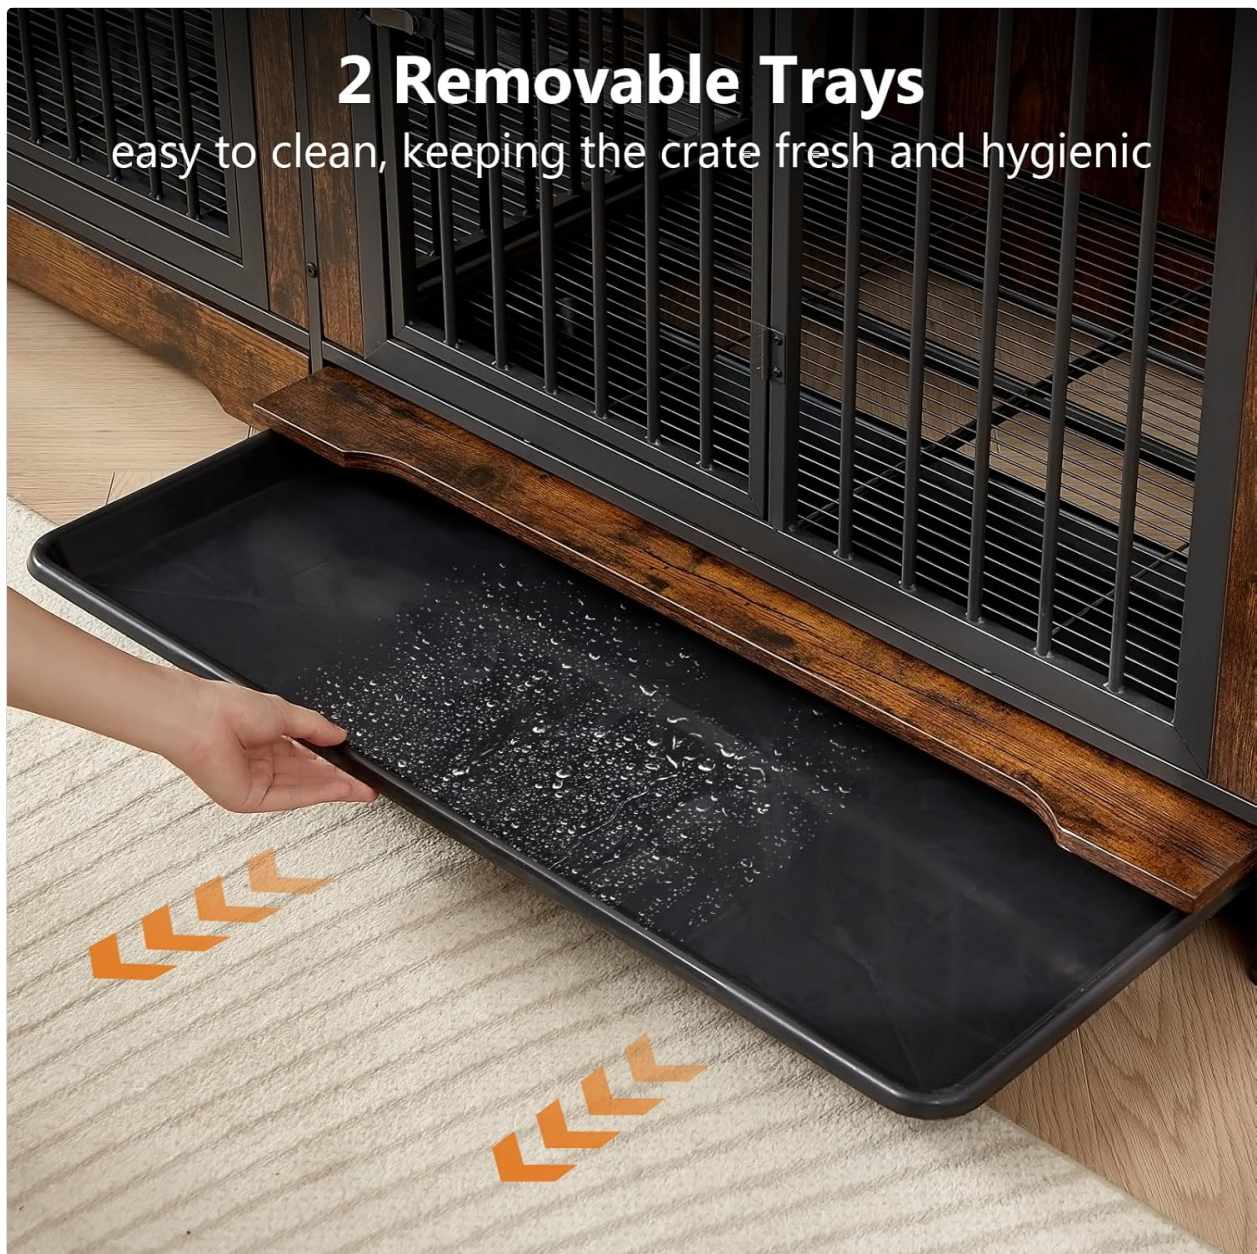

Image: The removable trays simplify cleaning, keeping the crate fresh and hygienic.

## Surface Care

The crate's surface is waterproof. Wipe down the wooden and steel surfaces with a damp cloth and mild cleaner as needed. Avoid abrasive cleaners that could damage the finish. Ensure all surfaces are dry after cleaning.

## Hardware Check

Periodically check all screws, bolts, and locks to ensure they remain tight and secure. Tighten any loose hardware to maintain the structural integrity and safety of the crate.

## TROUBLESHOOTING

---

- **Crate is unstable:** Ensure all adjustable feet are properly leveled. Check that all assembly screws are securely tightened.
- **Doors are difficult to open/close:** Verify that the door locks are aligned correctly. Apply a small amount of lubricant to the sliding pins if they are stiff. Ensure the crate is on a level surface.
- **Parts do not align during assembly:** Double-check the instruction manual to ensure all parts are

oriented correctly. If holes are misaligned, contact customer support for assistance. Do not force parts together.

- **Pet attempts to escape:** Ensure all door locks are fully engaged. For determined escape artists, consider additional external security measures or consult with a professional dog trainer. The reinforced steel-pipe design is more secure than traditional wire crates.
