Giantex GX-13614WD-VJ

Giantex Swivel Bar Stools Instruction Manual

Model: GX-13614WD-VJ

INTRODUCTION

Thank you for choosing Giantex Swivel Bar Stools. This manual provides essential information for the safe assembly, operation, maintenance, and care of your new bar stools. Please read these instructions carefully before assembly and retain them for future reference.

IMPORTANT SAFETY INFORMATION

- Always follow the assembly instructions precisely. Incorrect assembly can lead to instability and injury.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not stand on the bar stools. They are designed for seating only.
- Do not exceed the maximum weight capacity of 350 lbs (158 kg) per stool.
- Keep children away from the assembly area. Small parts may pose a choking hazard.
- Use the stools on a flat, stable surface to prevent tipping.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts are present and undamaged. Refer to the included paper instruction manual for a detailed list of components and hardware.

- 2 x Bar Height Chairs (disassembled components)
- 1 x Instruction Manual (paper copy)
- Assembly Hardware (screws, bolts, washers, Allen wrench, etc.)

ASSEMBLY INSTRUCTIONS (SETUP)

Assembly is required for these bar stools. Please follow the step-by-step instructions provided in the separate paper manual included in your package. Ensure you have adequate space and the necessary tools (usually an Allen wrench is provided).

1. Unpack all components and hardware. Place them on a clean, soft surface to prevent scratches.
2. Identify all parts using the component list in the paper manual.
3. Attach the legs to the seat frame, ensuring proper alignment. Do not fully tighten screws until all components are loosely assembled.
4. Install the footrest ring, aligning it with the pre-drilled holes in the legs.
5. Secure the backrest to the seat frame.
6. Once all parts are in place, gradually tighten all screws and bolts evenly. Do not overtighten.
7. Place the assembled stool on a flat surface and check for stability. If wobbly, loosen screws slightly, adjust, and re-tighten.

Dimensions

Image: Dimensional diagram of the bar stool, indicating overall height (44"), seat height (30.5"), seat diameter (16.5"), footrest height (14"), and base dimensions (19.5"D x 17"W). Also shows a maximum load of 350 lbs and suitability for 40"-43" bar height.

Solid Rubber Wood Frame

Ensures long-lasting durability and stability

High-Strength

Splinter-Free

OPERATION

Your Giantex Swivel Bar Stools are designed for comfort and functionality in various settings.

360° Swivel Seat

The seat features a smooth 360-degree swivel mechanism, allowing for easy rotation. This design enhances social interaction and provides effortless access to your surroundings without needing to move the entire stool.

360-Degree Swivel Design

Allows for easy interaction and socializing

Ergonomic Support

The stools are equipped with an ergonomically curved backrest and a conveniently placed round footrest. These features promote proper posture and reduce leg fatigue, making the stools comfortable for extended periods of seating.

Ergonomic Support

Curved Backrest

Provides excellent back support

Round Footrest

Offers a cozy place to rest your feet

MAINTENANCE AND CARE

Proper care will extend the life and appearance of your bar stools.

Wood Frame Care

- Wipe the wood frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals.
- Dry immediately with a clean, soft cloth to prevent water spots.
- Keep the stools away from direct sunlight and heat sources to prevent wood warping or fading.
- Periodically check and tighten all hardware to ensure stability.

Upholstery Care

- Vacuum the upholstered seat regularly to remove dust and debris.
- For spills, blot immediately with a clean, dry cloth. Do not rub.
- For stubborn stains, use a mild fabric cleaner according to the product instructions, testing on an inconspicuous area first.

- Avoid saturating the fabric with water or cleaning solutions.

TROUBLESHOOTING

If you encounter any issues with your bar stools, refer to the following common problems and solutions:

- **Stool is wobbly:** Ensure all assembly screws and bolts are fully and evenly tightened. If the issue persists, loosen all fasteners slightly, sit on the stool to settle the components, and then re-tighten all fasteners.
- **Swivel mechanism is stiff:** The swivel mechanism is designed for smooth operation. If it feels stiff, ensure no debris is obstructing the mechanism. A small amount of silicone-based lubricant (avoid oil-based lubricants on wood) can be applied to the swivel plate if necessary, but typically this should not be required.
- **Parts are missing or damaged:** Refer to the customer support section for assistance. Do not attempt to use the stool with missing or damaged parts.

SPECIFICATIONS

Feature	Specification
Overall Dimensions (L x W x H)	19.5" x 17" x 44"
Diameter of Seat	16.5"
Seat Height	30.5"
Footrest Height	14"
Weight Capacity	350 lbs
Net Weight of Each Chair	17.5 lbs
Color	Driftwood + Sand
