## Infantino Flip Luxe 4-in-1 Convertible Baby Carrier

# Infantino Flip Luxe 4-in-1 Convertible Baby Carrier Instruction Manual

Model: Flip Luxe 4-in-1 Convertible Baby Carrier

## INTRODUCTION

The Infantino Flip Luxe 4-in-1 Convertible Baby Carrier is designed to provide ergonomic support and comfort for your child from infancy through toddlerhood. This versatile carrier offers four distinct carrying positions, adapting to your baby's growth and developmental stages. It features updated lumbar support, premium herringbone fabric, and elevated accents for both functionality and style.

- **4-in-1 Convertible Design:** Accommodates babies from 7 to 35 lbs with four versatile carrying positions.
- **Updated Lumbar & Weight Distribution:** Enhanced lumbar support belt and wider weight distribution for improved parent comfort.
- **Ergonomic Seat & Adjustable Fit:** Supports baby's natural "M" position for optimal hip health, with adjustable shoulder straps and lumbar belt for a customized parent fit.
- **Premium Herringbone Fabric:** Soft, easy-to-clean fabric with refined tonal or metallic details.

## SAFETY INFORMATION

Always prioritize your baby's safety when using the carrier. Follow these guidelines:

- Ensure your baby is within the recommended weight range of 7-35 lbs.
- Always check that all buckles, straps, and adjustments are securely fastened before and during use.
- Maintain an open airway for your baby; their chin should not be resting on their chest.
- Keep your baby close enough to kiss, ensuring their face is visible and not obstructed by fabric.
- Support your baby's natural spine position and healthy hip alignment (M-position).
- Regularly inspect the carrier for any signs of wear, tear, or damage. Discontinue use if any damage is found.
- Avoid activities that could put your baby at risk, such as cooking, running, or cycling, while wearing the carrier.

## SETUP AND ADJUSTMENTS

The Infantino Flip Luxe carrier is designed for easy and customizable fitting. Follow these steps to properly wear your carrier:

1. **Waistband Adjustment:** Fasten the main waist buckle around your waist or hips, ensuring a snug and comfortable fit. Adjust the straps to tighten or loosen as needed.
2. **Shoulder Straps:** Slip your arms through the shoulder straps like a backpack.
3. **Back Buckle:** Reach behind and fasten the chest/back buckle. Adjust its height and tension for optimal comfort and weight distribution.
4. **Seat Adjustment:** The carrier features a convertible seat. For smaller infants (7+ lbs), use the narrow seat position. As your baby grows, switch to the wide position to maintain ergonomic hip support. This is typically adjusted using snaps or buttons on the carrier's body.
5. **Head Support:** The adjustable head support can be folded down for older babies who can hold their head up, or kept up for newborns requiring head and neck stabilization.

Designed and tested with parents and their babies at Infantino's headquarters in San Diego, California — built on 25+ years of carrier innovation.

## OPERATING MODES (CARRYING POSITIONS)

The Infantino Flip Luxe offers four versatile carrying positions:

- **Facing-In with Folded Seat (Newborn):** Ideal for infants weighing 7+ lbs. The seat is folded to provide a snug fit, and the head support is up to stabilize the baby's head and neck.
- **Facing-In with Expanded Seat (Infant):** For babies weighing 15-35 lbs. The seat is expanded to support the baby's hips in an ergonomic M-position as they grow.
- **Facing-Out with Narrow Seat (Baby with Head Control):** For babies who can hold their head up unassisted. The seat is narrowed, and the head support is folded down, allowing the baby to face outwards and observe their surroundings.
- **Back Carry (Toddler):** For older babies and toddlers who can sit up unassisted. The carrier is worn on the parent's back, providing a comfortable and secure ride.

# 4 Modes

Grows with your little one from newborn to 35 lbs

7+ lbs Facing-in with newborn seat	15-35 lbs Facing-in with wide seat	Able to hold head up Facing-out with narrow seat	Able to sit up Back carry

## CARE AND MAINTENANCE

Proper care ensures the longevity and hygiene of your Infantino Flip Luxe Baby Carrier:

- **Washing Instructions:** The carrier is machine washable. Use cold water on a gentle cycle.
- **Drying:** Drip dry or tumble dry on low heat. Do not bleach or iron.
- **Storage:** Store in a clean, dry place away from direct sunlight when not in use.
- **Inspection:** Regularly check all seams, buckles, and straps for any signs of wear or damage.

## TROUBLESHOOTING

If you encounter any issues with your carrier, consider the following:

- **Discomfort for Parent:** Ensure all straps (shoulder, waist, back) are properly adjusted and tightened. The waist belt should

bear most of the baby's weight.

- **Baby Slumping/Not Secure:** Re-check all buckles and strap adjustments. Ensure the seat is correctly configured for your baby's age and weight, providing proper hip and back support.
- **Baby's Airway Obstruction:** Immediately adjust the baby's position to ensure their face is visible and chin is off their chest. Ensure the carrier is snug, keeping the baby high and close.
- **Difficulty Fastening Back Buckle:** Practice fastening the buckle before placing the baby in the carrier. If needed, ask for assistance or try fastening it before putting on the shoulder straps, then slipping the carrier over your head.
