SETUP AND INSTALLATION

Professional installation is recommended for this device. Ensure the vehicle's power is disconnected before beginning installation.

Wiring Connections

1. **Power Connection:** Connect the main power harness to your vehicle's wiring. Ensure correct connections for constant power (B+), accessory power (ACC), and ground (GND).
2. **Speaker Connection:** Connect the speaker wires to your vehicle's speakers, observing correct polarity for each channel (front left, front right, rear left, rear right).
3. **Rear View Camera:** Connect the rear camera input cable to the designated port on the car stereo. Connect the camera's power to the reverse light circuit for automatic activation.

4. **GPS Antenna:** Mount the GPS antenna in a location with a clear view of the sky, typically on the dashboard or under the windshield. Connect it to the GPS antenna port.
5. **External Microphone:** Plug the external microphone into its dedicated input for improved call quality.
6. **USB/Type-C Ports:** Connect the provided USB/Type-C cables for media playback, phone charging, or connecting other USB devices.
7. **Steering Wheel Controls (SWC):** Connect the SWC wires to your vehicle's steering wheel control interface. Refer to your vehicle's wiring diagram for specific connections.

OPERATING INSTRUCTIONS

Android 15 System

The car stereo operates on the latest Android 15 system, providing a familiar and secure user experience. It features 4GB

RAM and 128GB ROM for smooth performance and ample storage for apps and media.

- **App Installation:** Download your favorite applications directly from the integrated app store.
- **User Interface:** Customize the interface with multiple available themes to suit your preference.

Wireless CarPlay & Android Auto / Mirror Link

Connect your smartphone wirelessly for seamless integration of CarPlay or Android Auto. This allows you to project maps, messages, and music directly onto the car stereo's screen.

- **Wireless Connection:** Your phone will automatically connect once paired.
- **Functionality:** Access navigation apps (e.g., Waze), make hands-free calls, and manage music playlists using the touchscreen or steering wheel controls.
- **Mirror Link:** Use the Mirror Link function for broader compatibility, mirroring your phone's screen directly to the car stereo.

GPS Navigation & Wi-Fi

The integrated GPS and Wi-Fi capabilities ensure you are always on the right path and connected.

- **Navigation:** Utilize online or offline maps for precise route guidance.
- **Wi-Fi:** Connect to a Wi-Fi hotspot for internet access, app updates, and online services.

Audio Features (DSP, Bluetooth, FM/RDS)

Experience professional-grade audio control with the integrated Digital Sound Processor (DSP).

- **DSP Equalizer:** Adjust sound frequencies to match your music genre and vehicle acoustics.
- **Bluetooth Audio:** Pair your phone via Bluetooth for crystal-clear calls and wireless audio streaming.
- **FM/RDS Radio:** Enjoy clear reception of FM radio stations with RDS (Radio Data System) information display.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the touchscreen and unit. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for software updates via Wi-Fi to ensure optimal performance and access to new features.
- **Temperature:** Avoid exposing the unit to extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Incorrect wiring; Blown fuse	Check power connections (B+, ACC, GND). Inspect and replace fuses if necessary.
No sound	Incorrect speaker wiring; Volume too low; Mute activated	Verify speaker connections. Increase volume. Check if mute function is active.
GPS signal lost or inaccurate	GPS antenna obstructed or improperly placed	Ensure GPS antenna has a clear view of the sky. Check antenna connection.
Bluetooth connection issues	Device not in pairing mode; Interference	Ensure Bluetooth is enabled on both devices and in pairing mode. Restart both devices.
Touchscreen unresponsive	System freeze; Software issue	Perform a soft reset (refer to device settings). If issue persists, contact support.
