## 1. SETUP AND ASSEMBLY

The Cozyman Saddle Counter Stools are designed for quick and simple assembly. Each barstool typically takes 10-15 minutes to assemble. All necessary tools and clear instructions are included in the packaging.

### Assembly Steps:

1. Unpack all components and verify against the parts list provided in the box. Ensure all parts are present and undamaged.
2. Attach the legs to the seat frame using the provided screws and Allen wrench. Make sure to align the pre-drilled holes correctly.
3. Securely fasten all screws. Do not overtighten initially; tighten fully once all components are loosely assembled.
4. Attach the footrests between the legs, ensuring they are level and stable.
5. Once assembled, place the stool on a flat surface and check for stability. Adjust the leveling feet if necessary to prevent wobbling.

# 24" Counter Height Bar Stools

*Ergonomic & Saddle Seat*

*Sturdy Solid Wood Frame*

*Non-slip & Leveling Feet*

## 2. OPERATING INSTRUCTIONS

These counter stools are designed for comfortable and stable seating at standard kitchen islands and counters. The ergonomic saddle seat and thick cushioning provide support for extended sitting.

### Key Usage Guidelines:

- **Weight Capacity:** Each stool is tested to support a maximum weight of 300 lbs (approximately 136 kg). Do not exceed this weight limit to ensure safety and product longevity.

- **Suitable Counter Height:** With a seat height of 24 inches, these stools are ideally suited for kitchen islands and counters that are between 34 to 36 inches tall.
- **Placement:** Ensure the stool is placed on a flat, stable surface. Use the leveling feet to adjust if the floor is uneven.
- **Movement:** When moving the stools, lift them rather than dragging to prevent damage to the legs or floor.

### 3. MAINTENANCE

Proper care and maintenance will help preserve the appearance and extend the lifespan of your Cozyman Saddle Counter Stools.

#### Cleaning Instructions:

- **Fabric Upholstery (Linen):** For general cleaning, gently vacuum the fabric to remove dust and loose debris. For

spills, blot immediately with a clean, dry cloth. For tougher stains, use a mild fabric cleaner following the product's instructions, testing on an inconspicuous area first. Avoid harsh chemicals or abrasive cleaners.

- **Wooden Frame (Rubberwood):** Wipe the wooden legs and frame with a soft, damp cloth. Dry immediately with a clean, dry cloth to prevent water marks. Avoid direct sunlight and extreme temperature changes to prevent wood warping or fading. Do not use silicone-based polishes.
- **General Care:** Periodically check and tighten all screws and bolts to ensure the stool remains stable.

## 4. TROUBLESHOOTING

---

If you encounter any issues with your Cozyman Saddle Counter Stools, refer to the common solutions below.

### Common Issues and Solutions:

- **Stool is Wobbling:**

- Ensure all screws are securely tightened. Loosen slightly, press down on the seat to level, then retighten.
- Check the leveling feet at the bottom of each leg. Adjust them by twisting until the stool is stable on an even surface.
- Verify that the stool is on a flat floor. Uneven flooring can cause wobbling.

- **Parts are Loose After Assembly:**

- Re-check all connection points and tighten screws firmly. Avoid overtightening, which can strip threads.
- Ensure all components are correctly oriented according to the assembly instructions.

- **Unusual Noises (Creaking/Squeaking):**

- Tighten all screws. Sometimes slight loosening can cause friction and noise.
- Apply a small amount of furniture wax or silicone spray to the joints if tightening does not resolve the issue.
