Xixini 002

Xixini Shoe Storage Cabinet with 4 Flip Drawers - Model 002 Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Xixini Shoe Storage Cabinet, Model 002. Please read all instructions carefully before beginning assembly and retain this manual for future reference. This cabinet is designed to offer a space-saving and organized solution for shoe storage in various areas of your home.

SAFETY INFORMATION

WARNING: To prevent tipping and ensure safety, especially for children, this shoe storage cabinet must be securely fixed to the wall using the provided anti-tipping device.

Provides A Large Space to Store Shoes

PRODUCT FEATURES

- **Multifunctional Storage:** This cabinet is designed to accommodate various shoe types, including heels, sneakers, flats, and boots. Each flip-out drawer includes an adjustable or removable panel, allowing for customized storage based on shoe size and style.
- **Large Capacity:** The freestanding shoe cabinet can store up to 24 pairs of shoes (capacity may vary based on shoe size and style). It features 4 flip-out drawers, each with two layers of storage space.
- **Space-Saving Design:** The flip-top drawers are easy to open and close, making this cabinet suitable for narrow spaces. It helps keep shoes dust-free and protected from pets and insects.
- **Sturdy and Stable Construction:** Constructed from durable P2 engineered wood, ensuring high load-bearing capacity and long-term use. Includes an anti-tipping device for enhanced safety.
- **Modern Aesthetic:** Features an embedded door handle for a sleek, modern look that complements various home decor styles. Ideal for entryways, hallways, living rooms, or porches.

SETUP AND ASSEMBLY

Your Xixini Shoe Storage Cabinet comes with all necessary hardware and detailed instructions for assembly. For a smoother installation, power tools are recommended, and two-person assembly can be beneficial.

Assembly Steps Overview:

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the parts list in the included manual.
2. **Assemble Frame:** Follow the step-by-step diagrams to connect the main frame components using the provided screws and fasteners.
3. **Install Drawers:** Assemble each flip-out drawer according to the instructions, ensuring all panels are correctly aligned.
4. **Attach Drawers to Frame:** Secure the assembled drawers to the main cabinet frame.
5. **Install Anti-Tipping Device:** Crucially, attach the anti-tipping device to the back of the cabinet and secure it to a wall stud to prevent accidental tipping.

Close-Open 4-layer Shoe Cabinet

OPERATING INSTRUCTIONS

Using the Flip Drawers:

To open a drawer, gently pull the embedded handle. The drawer will flip down, revealing two tiers of storage. To close, push the drawer upwards until it clicks securely into place.

Adjusting or Removing Internal Panels:

Each flip-out drawer contains a middle panel that can be adjusted or removed. To adjust, locate the panel supports on the sides of the drawer. Carefully lift the panel and reposition it into the desired slots. To remove, simply lift the panel completely out of the supports. This allows for flexible storage of different shoe heights, such as boots or high heels.

2-TIER AMPLE & FLEXIBLE STORAGE SPACE

The panel can be adjusted or removed according to your need

MAINTENANCE

Cleaning:

Wipe the cabinet surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the engineered wood finish. For stubborn marks, a mild soap solution can be used, followed by drying with a clean cloth.

Ventilation:

The cabinet features a ventilation design to help prevent odors. Ensure the area around the cabinet is well-ventilated. Periodically open the drawers to allow for air circulation.

TROUBLESHOOTING

- **Drawers not closing properly:** Check for any obstructions inside the drawer or along the closing mechanism. Ensure the internal panel is correctly seated. Verify that the cabinet is level.
- **Cabinet feels unstable:** Confirm that the anti-tipping device is securely installed to a wall stud. Ensure all assembly screws are tightened.
- **Shoes do not fit:** Utilize the adjustable or removable internal panels to create more space for taller shoes. Consider storing larger shoes on the top surface of the cabinet if necessary.
- **Odor inside cabinet:** Ensure adequate ventilation. Consider using shoe deodorizers or sachets to maintain freshness.
