Garvee 16 Gal Dual Trash Can

Garvee 16 Gal Dual Trash Can User Manual

Model: 16 Gal Dual Trash Can

1. Introduction

Thank you for choosing the Garvee 16 Gal Dual Trash Can. This product is designed to streamline your waste management with its innovative dual-compartment system, including a dedicated compost bin and a pull-out recycling section. Crafted from durable stainless steel with odor control features, it offers a hygienic and efficient solution for your home or office.

Please read this manual thoroughly before use to ensure proper setup, operation, and maintenance, maximizing the lifespan and functionality of your trash can.

2. Safety Information

- Keep out of reach of children and pets to prevent accidents.
- Do not overload the bins beyond their capacity.
- Avoid placing hot ashes or flammable materials directly into the bins.
- Ensure the unit is placed on a stable, level surface.

- Do not use abrasive cleaners or harsh chemicals, as they may damage the stainless steel finish.

3. Package Contents

Verify that all components are present in the package:

- 1 x 60 Liter (16 Gal) Dual Trash Can Unit
- 1 x 33L Upper Compartment Inner Bucket
- 1 x 3L Lidded Food Waste Caddy (for upper compartment)
- 1 x 27L Lower Compartment Inner Bucket
- 1 x Removable Partition for Lower Compartment
- 1 x Odor Control Filter (pre-installed or separate)

4. Setup

The Garvee Dual Trash Can comes largely pre-assembled. Follow these steps for initial setup:

1. **Unpack:** Carefully remove all packaging materials and place the trash can on a flat, stable surface.
2. **Insert Inner Buckets:** Place the 33L inner bucket into the upper compartment and the 27L inner bucket into the lower pull-out compartment.
3. **Install Food Waste Caddy:** Place the 3L lidded food waste caddy into the designated slot within the upper 33L inner bucket.
4. **Configure Recycling Bin (Optional):** The lower 27L bin can be used as a single large recycling bin or divided into two smaller sections using the provided removable partition. Simply slide the partition into the grooves inside the lower inner bucket to create two 3.5 Gal sections.
5. **Check Odor Filter:** Ensure the odor control filter is securely in place under the lid of the upper compartment.

Image 4.2: The lower bin can be configured as one large or two smaller recycling compartments using the removable baffle.

5. Operating Instructions

5.1. Using the Upper Compartment (Residual Waste & Compost)

- To open the lid, press the button located on the front edge of the lid. The lid will open smoothly.
- Dispose of general residual waste into the main section of the upper 33L inner bucket.
- For food scraps, use the smaller 3L lidded caddy within the upper compartment. This helps contain odors.
- To close the lid, gently push it down until it clicks into place.

Image 5.1: Press the button to open the upper compartment lid.

5.2. Using the Lower Compartment (Recycling)

- The lower compartment is a pull-out drawer designed for recyclables.
- Gently pull the handle on the front of the lower section to slide out the recycling bin.
- Place your sorted recyclables into the 27L inner bucket. If you have installed the partition, sort items into the two smaller sections.
- Push the drawer back in until it is fully closed. The built-in wheels ensure smooth operation.

Image 5.2: The lower recycling bin features built-in wheels for easy pull-out access.

5.3. Odor Control

- The integrated odor control filter helps neutralize unpleasant smells from the upper compartment.
- Periodically check the filter and replace it as needed to maintain optimal odor absorption.

Image 5.3: The built-in filter helps reduce odors from waste.

6. Maintenance

6.1. Cleaning the Exterior

- The stainless steel exterior is fingerprint-proof and scratch-resistant.
- Wipe the exterior with a soft, damp cloth and mild detergent.
- Dry thoroughly with a clean, soft cloth to prevent water spots.

- Do not use abrasive pads, steel wool, or harsh chemical cleaners.

Image 6.1: The high-quality stainless steel is easy to clean and fingerprint resistant.

6.2. Cleaning the Inner Buckets

- The inner buckets are removable for easy cleaning.
- Lift out the inner buckets and wash them with warm, soapy water.
- Rinse thoroughly and allow them to dry completely before placing them back into the unit.

6.3. Odor Filter Replacement

- The odor control filter should be replaced every 3-6 months, depending on usage and waste type.
- To replace, open the lid, locate the filter compartment, remove the old filter, and insert a new one.

7. Troubleshooting

- **Lid not opening/closing smoothly:** Check for any obstructions around the lid mechanism. Ensure the inner bucket is correctly seated.
- **Lower bin not sliding smoothly:** Check for debris in the wheel tracks. Ensure the bin is not overloaded or misaligned.
- **Persistent odors:** Replace the odor control filter. Ensure inner buckets are cleaned regularly and waste is emptied frequently.
- **Scratches on exterior:** While scratch-resistant, extreme force or abrasive materials can cause scratches. Avoid using sharp objects near the surface.

8. Specifications

Feature	Detail
Brand	Garvee
Capacity	16 Gallons (60 Liters total: 33L upper, 27L lower)
