2. Safety Information

WARNING: To reduce the risk of fire, electric shock, or personal injury, always follow these basic precautions:

- Ensure the installation site is structurally sound and can support the fan's weight.
- All electrical connections must be made in accordance with local codes, ordinances, and the National Electrical Code. If you are unfamiliar with electrical wiring, consult a qualified electrician.

- Disconnect power at the main circuit breaker before installation or servicing.
- Do not operate the fan with damaged blades or any other damaged components.
- Avoid placing objects in the path of the fan blades.
- This fan is suitable for both indoor and outdoor (covered patio, garage) use. Ensure proper weather protection for outdoor installations.

3. Package Contents

Before beginning installation, verify that all parts are present. If any parts are missing or damaged, do not attempt to assemble or install the fan. Contact Ohniyou customer service for assistance.

The package should include:

- Ceiling Fan Motor Assembly
- 5 Aluminum Fan Blades
- LED Light Kit
- Remote Control
- Downrod (7.87 inches)
- Mounting Bracket
- Hardware Pack (screws, wire nuts, etc.)
- User Manual

4. Setup and Installation

Professional installation is recommended for safety and optimal performance. Ensure power is disconnected at the circuit breaker before starting.

4.1 Mounting Options

This fan supports various mounting options:

- **Low Ceiling:** Standard flush mount (if applicable, though downrod is mentioned).
- **High Ceiling:** Utilizes the included 7.87-inch downrod.
- **Sloped Ceiling:** Suitable for ceilings with a slope of up to 15 degrees.

5. Operating Instructions

Your Ohniyou ceiling fan can be controlled via the included remote control or a dedicated smartphone application.

5.1 Remote Control Functions

The remote control allows you to manage all fan and light features:

- **Power On/Off:** Turns the fan and light on or off.
- **Fan Speed:** Select from 6 adjustable wind speeds (Levels 1-6).
- **Light Control:** Turn the LED light on/off, adjust brightness (100% to 10%), and change color temperature (Warm, Natural, Cool White).
- **Reversible Function:** Switch between Summer mode (downward airflow) and Winter mode (upward airflow).
- **Timer:** Set the fan to turn off automatically after 1, 4, or 8 hours.
- **Natural Wind Mode:** Activates a mode where fan speed changes randomly to simulate natural breeze.

5.3 Reversible Airflow

The fan features a reversible DC motor for year-round comfort:

- **Summer Mode (Downward Airflow):** Creates a cooling breeze.

- **Winter Mode (Upward Airflow):** Circulates warm air trapped near the ceiling, helping to distribute heat more evenly.

Image: Visual representation of the fan's reversible function, illustrating downward airflow for cooling in summer and upward airflow for heat circulation in winter.

5.4 Dimmable LED Light

The integrated LED light offers adjustable brightness and color temperature:

- **Brightness:** Dimmable from 100% to 10%.
- **Color Temperatures:** Switch between Warm Light (3000K), Natural White (4500K), and Cool White (6000K).

6. Maintenance

Regular maintenance ensures the longevity and optimal performance of your ceiling fan.

- **Cleaning:** Dust the fan blades and motor housing periodically with a soft, damp cloth. Do not use abrasive cleaners or solvents. The aluminum blades are designed for easy cleaning.
- **Blade Inspection:** Check fan blade screws for tightness at least twice a year. Loose screws can cause wobbling and noise.
- **Light Kit:** The integrated LED light source is designed for long life and typically does not require replacement.

7. Troubleshooting

If you experience issues with your ceiling fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; loose wire connections; remote control battery low.	Check circuit breaker. Ensure all wire connections are secure. Replace remote control batteries (2x AAA, not included).
Fan wobbles	Loose blade screws; unbalanced blades; loose mounting bracket.	Tighten all blade screws. Ensure blades are balanced (a balancing kit may be required). Verify mounting bracket is securely fastened.
Light does not work	Loose wire connection to light kit; light kit failure.	Check light kit wiring connections. If problem persists, contact customer support.
Remote control not working	Low battery; remote not paired with fan.	Replace batteries. Refer to the pairing instructions in the full manual or app.
Excessive noise	Loose screws; motor issue; blades hitting an obstruction.	Check and tighten all screws. Ensure no obstructions are near the blades. If noise persists, contact customer support. The DC motor is designed for quiet operation (35dB).
