2. SETUP AND INSTALLATION

Professional installation is recommended for optimal performance and to avoid damage to your vehicle or the unit. Ensure the vehicle's power is disconnected before beginning installation.

2.1 Wiring Diagram

Refer to the following diagram for proper connection of the power, audio, and video cables. Ensure all connections are secure.

Image 2: Detailed wiring connections for the car stereo system.

2.2 Backup Camera Connection

The included AHD backup camera provides a wide-angle view and night vision for safer reversing. Connect the camera as shown in the video and diagram below. The camera automatically activates when the vehicle is in reverse gear.

Your browser does not support the video tag.

Video 1: Instructions on how to connect the included backup camera to the car stereo.

Backup Camera

When the car is in the reverse gear, it automatically switches to the reverse image, which is easier and safer to reverse

Steering Wheel Control

If you wish to use the steering wheel control function, please confirm the following compatibility options: Audi-Audi-Audi A4 2002-2008. If the function still does not work properly, Please ask us

3. OPERATING INSTRUCTIONS

3.1 Wireless Carplay & Android Auto

Connect your smartphone wirelessly to access navigation, music, calls, and more directly on the car stereo display. This feature supports both iOS Carplay and Android Auto.

Your browser does not support the video tag.

Video 2: Demonstration of connecting and using Wireless Carplay and Android Auto.

Image 5: Illustrates the wireless Carplay, Android Auto, and Mirror Link functionalities.

3.2 GPS Navigation & WiFi Connectivity

The unit features a built-in GPS chip for both online and offline navigation. Connect to WiFi via a mobile hotspot to download online maps, stream content, and access various applications.

GPS Navigation

Navigate with accuracy and ease with the built-in GPS module, which supports online and offline maps

WiFi Connection

Connect to the internet via WIFI hotspot or tethering, and browse the web, stream online content, download apps, and more on the device

3.3 Bluetooth 5.0, FM/RDS Radio & EQ Settings

Utilize Bluetooth 5.0 for hands-free calling and high-quality music streaming. The FM/RDS radio allows you to save your favorite stations. Customize your audio experience with the integrated EQ settings, offering various presets and manual adjustments.
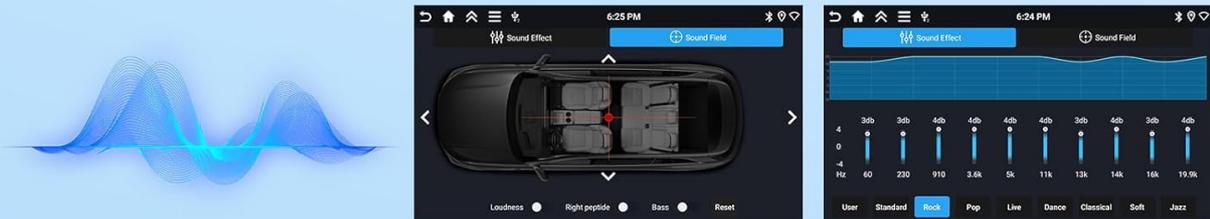

Image 7: Demonstrates Bluetooth connectivity, FM/RDS radio interface, and equalizer settings.
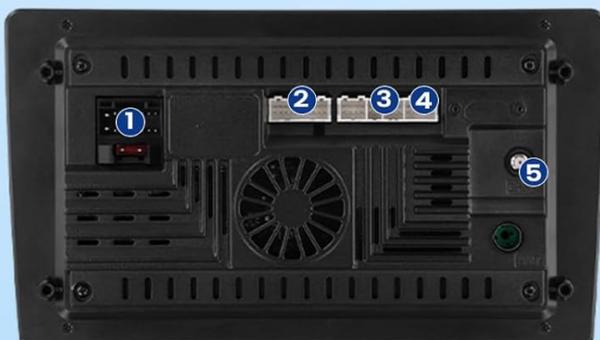

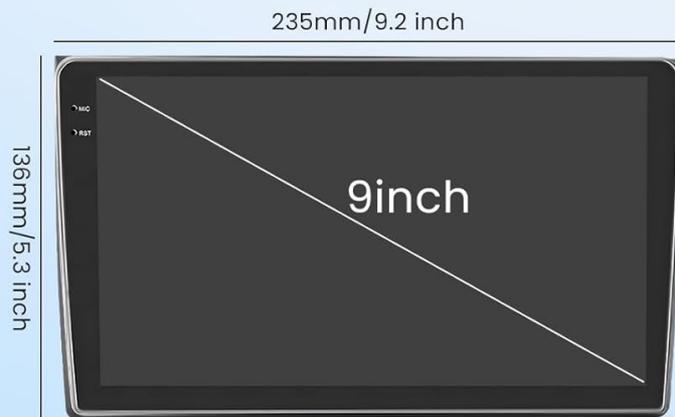

3.4 Steering Wheel Control (SWC)

The unit supports steering wheel controls for convenient operation without taking your hands off the wheel. Ensure your vehicle's SWC system is compatible (Audi A4 S4 RS4 2002-2008). If functions do not work, consult the troubleshooting section or contact support.

3.5 In-cell Touchscreen

The 9-inch HD IPS touchscreen features scratch-resistant 2.5D tempered glass and an in-cell display for a thinner profile and brighter image. It supports multi-touch gestures and offers various customizable themes.

Your browser does not support the video tag.

Video 3: A detailed demonstration of the car stereo's various functions and user interface.

4. MAINTENANCE

To ensure the longevity and optimal performance of your Inefala car stereo, follow these general maintenance guidelines:

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touchscreen. For stubborn smudges,

slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals or abrasive materials.

- **General Cleaning:** Keep the unit and surrounding dashboard area free of dust and debris. Use a soft brush or compressed air to clean vents and crevices.
- **Temperature Control:** Avoid exposing the unit to extreme temperatures, both hot and cold, for extended periods.
- **Software Updates:** Periodically check for software updates to ensure you have the latest features and bug fixes. Refer to the device settings for update options.
- **Cable Connections:** Ensure all cables remain securely connected. Loose connections can lead to intermittent issues.

5. TROUBLESHOOTING

If you encounter any issues with your Inefala car stereo, please refer to the following common troubleshooting steps. If the problem persists, contact customer support.

- **No Power:**
  - Check all power cable connections.
  - Verify the vehicle's fuse for the stereo is intact.
  - Ensure the ignition is on or the vehicle is running.

- **No Sound:**
  - Check volume levels on the stereo and any connected devices.
  - Verify speaker wire connections.
  - Ensure the correct audio source is selected.

- **Carplay/Android Auto Not Connecting:**
  - Ensure Bluetooth is enabled on both your phone and the stereo.
  - Forget and re-pair the Bluetooth connection.
  - Check for any pending software updates on your phone or the stereo.

- **GPS Not Working:**
  - Ensure the GPS antenna is properly installed and has a clear view of the sky.
  - Check GPS settings in the stereo menu.
  - Verify map data is up-to-date.

- **Backup Camera Not Displaying:**
  - Check the camera's power and video signal connections.
  - Ensure the vehicle is in reverse gear.
  - Verify the camera type setting in the stereo's factory settings (password 1234).
