2. App Installation & Pairing

To unlock the full potential of your smartwatch, download and install the 'FitCloudPro' application on your smartphone.

1. Download 'FitCloudPro' from your device's app store (iOS or Android).
2. Ensure Bluetooth and GPS are enabled on your smartphone.
3. Open the 'FitCloudPro' app, navigate to the device section, and search for 'V10'. Select 'V10' to connect.
4. Once paired, you can manage your device settings, view detailed health and activity data, and customize watch features through the app.

OPERATING INSTRUCTIONS

Basic Navigation

The smartwatch features a 2.06-inch HD touchscreen. Swipe left, right, up, or down to navigate through menus, notifications, and widgets. Press the side button to return to the home screen or access the main menu.

Bluetooth Calling

The Jugeman V10 Smartwatch supports Bluetooth calls, allowing you to make and receive calls directly from your wrist. It is

equipped with a noise-canceling microphone and a speaker for clear communication.

- **To make a call:** Access the phone function on your watch, use the dial pad, or select a contact from your synchronized phonebook.
- **To receive a call:** The watch will vibrate and display the caller ID. Tap the green icon to answer or the red icon to reject.

Other Functions

The Jugeman V10 Smartwatch offers additional practical features including a timer, stopwatch, music control, weather forecasts, and brightness adjustment.

MAINTENANCE

Water Resistance

The smartwatch has an IP68 water resistance rating, making it suitable for daily activities such as hand washing, sweating, and exposure to rain. It is not recommended for use in hot baths, saunas, or corrosive liquids like seawater, as these can compromise the seal.

Image: IP68 water resistance features.

Cleaning

To maintain the watch's performance and appearance, regularly clean the device and strap with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

TROUBLESHOOTING

If you encounter issues with your Jugeman V10 Smartwatch, refer to the following common solutions:

- **Device not turning on:** Ensure the watch is fully charged. Connect it to the magnetic charging cable and a power source for at least 10 minutes.
- **Unable to pair with smartphone:**
 - Ensure Bluetooth is enabled on your smartphone and the watch.
 - Make sure the 'FitCloudPro' app is installed and running.
 - Restart both your smartphone and the smartwatch.
 - Ensure the watch is not already paired with another device.
 - Check that the watch is within Bluetooth range of your phone.
- **Inaccurate health data:**
 - Ensure the watch is worn snugly on your wrist, about one finger's width from the wrist bone.
 - Keep the sensor clean and free from debris.
 - Movement during measurement can affect accuracy.
- **Notifications not received:**
 - Verify that the watch is successfully paired with your phone.
 - Check notification permissions for the 'FitCloudPro' app in your phone's settings.
 - Ensure notifications are enabled within the 'FitCloudPro' app for the desired applications.
 - Confirm that your phone is receiving notifications for those apps.
- **Short battery life:**
 - Reduce screen brightness.
 - Disable unnecessary features like continuous heart rate monitoring if not needed.
 - Limit the number of active notifications.

- Ensure the watch is fully charged each time.

If problems persist, consult the 'FitCloudPro' app's help section or contact customer support.
