JAMBO JMWS00226

JAMBO 40FT x 7FT XL MEGA Water Slide Instruction Manual

Model: JMWS00226

Safety Information Package Contents Setup Operation Maintenance Troubleshooting Specifications Warranty Support

1. Safety Information

Read and understand all safety warnings before using the JAMBO Water Slide. Failure to follow these instructions may result in serious injury.

- **Choking hazard - small parts.** Keep small components away from young children.
- Adult supervision is required at all times.
- Ensure the slide is placed on a flat, grassy surface free of sharp objects, rocks, or debris.
- Do not use the slide on hard surfaces like concrete or asphalt.
- Ensure adequate clear space around the slide to prevent collisions.
- Only use the slide with water to ensure proper slipperiness and reduce friction injuries.
- Do not slide headfirst. Always slide feet first.
- Maximum weight recommendation: 200 pounds.
- Recommended age: 5 years and older.

2. Package Contents

Verify that all components are present before beginning setup.

- 1x JAMBO 40FT x 7FT XL MEGA Water Slide
- 2x Bodyboards
- Repair Patches
- Hose Adaptor

- Anchors (for securing the slide)

3. Setup Instructions

Follow these steps to properly set up your JAMBO Water Slide:

1. **Prepare the Area:** Select a flat, grassy surface in your backyard. Ensure the area is clear of any sharp objects, rocks, sticks, or other debris that could damage the slide or cause injury.
2. **Unroll the Slide:** Carefully unroll the JAMBO Water Slide completely on the prepared grassy surface. Ensure it is laid out flat and straight.
3. **Secure the Slide:** Use the included anchors to secure the slide to the ground. This prevents the slide from shifting during use. Place anchors at designated points along the edges of the slide.
4. **Connect Water Hose:** Attach your garden hose to the provided hose adaptor. Connect the adaptor to the water inlet on the slide. Ensure all connections are tight to prevent leaks.
5. **Inflate Splash Pad (if applicable):** If your model includes an inflatable splash pad at the end, inflate it using an air pump (not included) or by mouth.
6. **Turn on Water:** Slowly turn on the water supply. The built-in sprinkler system along the slide will activate, wetting the surface for optimal slipperiness. Adjust water flow as needed to keep the entire sliding surface wet.

Image: A close-up view of the water spray holes along the edge of the JAMBO water slide, illustrating how water is distributed to keep the surface wet.

4. Operating Instructions

Ensure the slide is fully wet before use. Always follow safety guidelines during operation.

1. **Use Bodyboards:** Place one of the included bodyboards on the wet slide surface at the starting point.
2. **Slide Feet First:** Lie down on the bodyboard, facing forward, and push off with your feet. Always slide feet first to minimize the risk of head injuries.
3. **Maintain Water Flow:** Keep the water running throughout the use of the slide to ensure a consistently slippery surface.
4. **Supervise Children:** Always have an adult supervising children using the slide. Ensure only one person slides at a time to prevent collisions.

5. **Exit Safely:** Once you reach the end of the slide, move away from the landing area quickly to allow others to slide.

Image: Multiple children sliding down the JAMBO water slide on bodyboards, illustrating the intended use of the product.

5. Maintenance

Proper maintenance extends the life of your water slide.

- **Cleaning:** After each use, rinse the slide thoroughly with clean water to remove any dirt, grass, or debris. Use a mild soap solution if necessary, then rinse completely.
- **Drying:** Ensure the slide is completely dry before folding and storing. Lay it out in the sun or wipe it down to prevent mold and mildew growth.
- **Storage:** Fold the dry slide neatly and store it in a cool, dry place away from direct sunlight and extreme temperatures. Keep it in its original packaging or a protective bag to prevent punctures.
- **Repair Patches:** In case of small punctures, use the included repair patches. Clean the damaged area, apply the

patch firmly, and allow it to cure according to the patch instructions before re-using the slide.

Image: A close-up view highlighting the thicker material and stronger seams of the JAMBO water slide, indicating its durability.

6. Troubleshooting

Common issues and their solutions:

Problem	Possible Cause	Solution
Slide is not slippery enough.	Insufficient water flow or dry spots.	Increase water pressure or adjust the hose to ensure even water distribution across the entire slide surface.

Problem	Possible Cause	Solution
Water is leaking from the slide.	Loose hose connection or a small puncture.	Check hose connections and tighten if necessary. Inspect the slide for punctures and use a repair patch if found.
Slide moves during use.	Anchors not properly secured or insufficient number of anchors used.	Ensure all anchors are firmly pushed into the ground. If the ground is too soft, consider repositioning the slide to a firmer area.

7. Specifications

Feature	Detail
Model Number	JMWS00226
Dimensions	40 FT (Length) x 7 FT (Width)
Material	Polyvinyl Chloride (PVC)
Item Weight	10.5 pounds
Maximum Weight Recommendation	200 pounds
Age Range Description	5 Years and Older
Included Components	Bodyboards, Repair Patches, Hose Adaptor, Slide, Anchors
UPC	850062542280
