GUWIEYG Type 2 to Schuko Adapter 1m

GUWIEYG Type 2 to Schuko Adapter (1m) Instruction Manual

Model: Type 2 to Schuko Adapter 1m

1. Product Overview

The GUWIEYG Type 2 to Schuko Adapter is designed to facilitate charging of electric motorcycles, scooters, and bicycles at public or private Type 2 charging stations. This adapter converts a Type 2 charging port into a standard Schuko socket, allowing you to charge devices that use a Schuko plug. It supports a maximum current of 16A and a maximum power of 3.5 kW, ensuring efficient charging for compatible electric vehicles.

Image 1.1: The GUWIEYG Type 2 to Schuko Adapter in use, connecting an electric scooter to a Type 2 charging station.

Key Features:

- **Compatibility:** Utilizes IEC 62196 (Type 2 male plug) and a Schuko socket, compatible with electric motorcycles, electric bicycles, electric scooters, and other devices using a Schuko plug.
- **Plug and Play:** Simple to use; insert the Type 2 charging head directly into the IEC 62196 charging station to begin charging. The adapter can be easily removed, even from charging stations without a stop button.
- **Optimal Performance:** Supports a maximum current of 16 A and a maximum power of 3.5 kW for efficient charging.
- **Durability and Safety:** Constructed with high-quality TPU cable, designed to withstand over 10,000 plug-in/unplug cycles. Operates effectively in temperatures from -30 °C to 50 °C, and is water and dust resistant.
- **Portability:** Lightweight and portable design, includes a carrying bag for convenient transport and storage.

Image 1.2: The adapter comes with a carrying bag for easy portability.

2. Setup Instructions

Setting up your GUWIEYG Type 2 to Schuko Adapter is straightforward due to its plug-and-play design.

Steps for Initial Setup:

1. **Locate a Compatible Charging Station:** Ensure you are at a Type 2 charging station (IEC 62196 standard).
2. **Connect the Type 2 Plug:** Take the Type 2 male plug of the adapter and firmly insert it into the Type 2 socket of the charging station. You should hear a click or feel it lock into place.
3. **Connect Your Device:** Plug your electric motorcycle, scooter, or bicycle's Schuko charging cable into the Schuko socket on the adapter.
4. **Initiate Charging:** Follow the instructions of the charging station to start the charging process. The adapter will automatically facilitate the power transfer.

Image 2.1: The adapter is compatible with various Type 2 charging infrastructures, including public stations, wall boxes, and portable chargers.

3. Operating Instructions

Once the adapter is correctly set up, operating it for charging is simple.

Charging Process:

1. **Verify Connection:** Ensure both the Type 2 plug is securely connected to the charging station and your device's Schuko plug is securely connected to the adapter.
2. **Monitor Charging:** Observe your device's charging indicator or the charging station's display to confirm that charging has commenced. The adapter supports up to 16A and 3.5 kW, providing a steady charge.
3. **Completion:** Once your device is fully charged, or you wish to stop charging, follow the charging station's procedure to end the session.
4. **Disconnect:** First, unplug your device's Schuko cable from the adapter. Then, disconnect the Type 2 plug from the charging

station. The adapter is designed for easy removal.

Image 3.1: The adapter is compatible with a wide range of electric vehicles equipped with a Schuko plug.

4. Maintenance

Proper maintenance ensures the longevity and safe operation of your GUWIEYG Type 2 to Schuko Adapter.

Care and Storage:

- **Cleaning:** Keep the adapter clean and free from dust and debris. Use a dry, soft cloth for cleaning. Do not use harsh chemicals or abrasive materials.
- **Inspection:** Regularly inspect the cable and connectors for any signs of damage, wear, or corrosion. If any damage is found, discontinue use immediately and contact support.
- **Temperature:** The adapter is designed to operate between -30 °C and 50 °C. Avoid exposing it to extreme temperatures outside this range for prolonged periods.

- **Water and Dust Resistance:** The adapter is water and dust resistant, but it is not designed for submersion. Ensure connectors are dry before use.
- **Storage:** When not in use, store the adapter in its provided carrying bag in a cool, dry place, away from direct sunlight and moisture. Avoid kinking or bending the cable sharply.

5. Troubleshooting

If you encounter issues while using your adapter, refer to the following common troubleshooting steps.

Common Issues and Solutions:

- **Device Not Charging:**
  - Ensure all connections (Type 2 to station, Schuko to adapter, device to Schuko) are firm and secure.
  - Check the charging station's status. It might require activation or be out of service.
  - Verify that your device's charging cable is functioning correctly.
- **Adapter Not Recognized by Charging Station:**
  - Remove and re-insert the Type 2 plug into the charging station.
  - Try a different Type 2 charging station if available, to rule out an issue with the specific station.
- **Slow Charging:**
  - Ensure the charging station is providing adequate power. The adapter supports up to 3.5 kW.
  - Check your device's charging specifications; some devices may have slower charging limits.
- **Physical Damage:**
  - If the adapter or cable shows any signs of physical damage (cuts, frayed wires, bent pins), discontinue use immediately to prevent electrical hazards.

If these steps do not resolve the issue, please contact GUWIEYG customer support for further assistance.

6. Specifications

Detailed technical specifications for the GUWIEYG Type 2 to Schuko Adapter (1m).

Image 6.1: Components of the GUWIEYG Type 2 to Schuko Adapter, highlighting the Type 2 male connector, Schuko female socket, and the durable TPU cable.

Feature	Specification
Brand	GUWIEYG
Model	Type 2 to Schuko Adapter 1m
Color	Black
Input Voltage	220 Volts (AC)
Output Voltage	230 Volts (AC)
Max Current	16 A
Max Power	3.5 kW

Feature	Specification
Connector Type	Type 2 (male), Schuko (female)
Cable Material	TPU
Operating Temperature	-30 °C to 50 °C
Certifications	CE, IEC
Compatible Devices	Electric motorcycles, electric bicycles, electric scooters
Number of Ports	2 (1 Type 2 input, 1 Schuko output)

7. Warranty Information

The GUWIEYG Type 2 to Schuko Adapter comes with a manufacturer's warranty.

- **Warranty Period:** 1 year from the date of purchase.
- **Coverage:** This warranty covers defects in materials and workmanship under normal use. It does not cover damage caused by misuse, accident, unauthorized modification, or external causes.
- **Claim Process:** To make a warranty claim, please retain your proof of purchase and contact GUWIEYG customer support.

8. Support

For any questions, technical assistance, or warranty inquiries regarding your GUWIEYG Type 2 to Schuko Adapter, please contact our customer support team.

Contact Information:

- Please refer to the contact details provided with your product packaging or visit the official GUWIEYG website for the most up-to-date support information.
- When contacting support, please have your product model (Type 2 to Schuko Adapter 1m) and proof of purchase ready.
