UGREEN FT207

UGREEN FineTrack Mini Duo 2 Tracker User Manual

Model: FT207

1. INTRODUCTION

The UGREEN FineTrack Mini Duo 2 is a versatile item tracker designed for both Apple and Android ecosystems. It is certified for use with both Apple Find My and Google Find My Device networks, allowing you to locate your belongings with ease. This tracker features a loud 110dB alarm, a reflective design for visibility in low light, and IP68 water and dust resistance for durability.

Important Note:

Due to system limitations, this device cannot be used simultaneously with both Apple Find My and Google Find My Device. You must choose one system for pairing.

Von Apple und Google zertifiziert

Vollständig kompatibel mit iOS- und Android-Systemen

Hinweis: Kann nicht gleichzeitig auf zwei Systemen verwendet werden.

4. SETUP AND PAIRING

The UGREEN FineTrack Mini Duo 2 Tracker can be paired with either Apple Find My or Google Find My Device. Choose the appropriate instructions for your device.

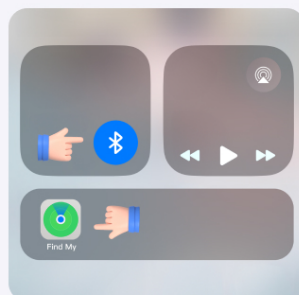

4.1. Pairing with iOS (Apple Find My)

1. Press and hold the symbol on the tracker for 2 seconds to power it on.
2. Open the "Find My" app on your iPhone, enable Bluetooth, and hold the product near your iPhone.
3. For first-time pairing: Select "Items" > "Add Item" > "Other Supported Item" > "Connect" and name the item.
4. For already connected users: Tap the "+" symbol on the "Items" page, select "Other Item," and the system will display the device's pairing information.

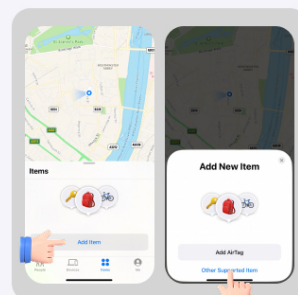

iOS:

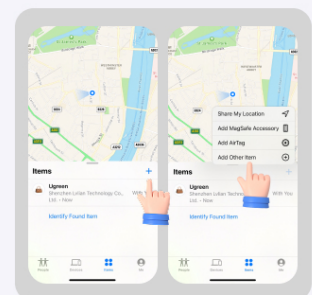

1. Halte das Symbol 2 Sekunden lang gedrückt, um das Gerät einzuschalten.

2. Öffne „Wo ist“, schalte Bluetooth ein und halte das Produkt in die Nähe deines iPhones.

3. Erstmalige Kopplung: Wählen Sie „Objekte“ > „Objekt hinzufügen“ > „Anderes unterstütztes Objekt“ > „Verbinden“ und benennen Sie das Objekt.

4. Für bereits verbundene Benutzer: Tippen Sie auf der Seite „Objekte“ rechts auf die Schaltfläche „+“, wählen Sie „Anderes Objekt“ aus, und das System zeigt die Kopplungsinformationen des Geräts an.

4.2. Pairing with Android (Google Find My Device)

1. Press and hold the symbol on the tracker for 2 seconds to power it on.
2. Open the Find Hub app and hold the product near your smartphone.
3. A pop-up window will automatically appear on your smartphone. Tap "Connect" > "Accept and Continue" > "Open App" > "Allow access to devices nearby."

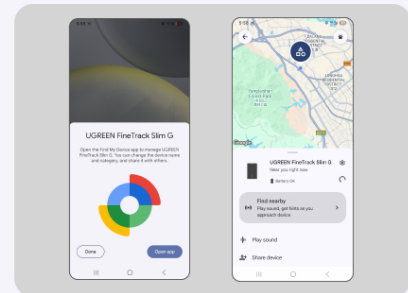

Android:

1. Halten Sie das Symbol 2 Sekunden lang gedrückt, um das Gerät einzuschalten.

2. Öffnen Sie die FindHub-App und halten Sie das Produkt in die Nähe Ihres Smartphones.

3. Auf dem Smartphone öffnet sich automatisch ein Popup-Fenster. Tippen Sie anschließend auf „Verbinden“ > „Akzeptieren und fortfahren“ > „App öffnen“ > „Zugriff auf Geräte in der Nähe zulassen“.

5. OPERATING INSTRUCTIONS

5.1. Locating Your Item

Once paired, you can locate your item using the respective app:

- **Play Sound:** The built-in speaker emits an alarm up to 110 dB, making it audible even in noisy environments or when hidden in bags or under clothing.
- **Map Tracking:** View the tracker's last known location on a map within the app. The tracker anonymously updates its encrypted location via the vast network of Apple or Android devices worldwide.
- **Loss Mode:** Activate loss mode to display your contact information to anyone who finds your item.
- **Reflective Design:** The tracker features a fluorescent surface that makes it immediately noticeable when light hits it, aiding visual location in dark conditions.

The image shows a UGREEN FineTrack Mini Duo 2 Tracker, a small black device with a silver keychain, attached to a set of keys. The tracker is shown in a circular inset and also on the keys themselves. Blue lightning bolt icons indicate the sound it emits. A smartphone displays a map with the tracker's location marked by a yellow key icon. The phone screen shows the 'Key' app interface with options like 'Stop Sound', 'Directions', and 'Share This'.

5.2. Smart Notifications

- **For Apple Users:** The "Left Behind" function automatically warns you with a push notification if you move away from your item, allowing you to retrieve it before it's lost.
- **For Google Users:** The app displays the last known location and connection duration, enabling you to check if you have all your items with you.

5.3. Location Sharing

You can share the tracker's location with family members or friends:

- Up to 5 users for Apple Find My.
- Up to 4 users for Google Find My Device.

6. MAINTENANCE

6.1. Battery Life

The UGREEN FineTrack Mini Duo 2 features a built-in 600mAh battery designed for long-term use. Based on laboratory tests (one alarm sound per day), the average power consumption is 0.2 mAh per day, resulting in an expected battery life of 5 to 7 years, depending on usage patterns.

Important:

The battery is neither rechargeable nor replaceable. The current battery level can be checked within the app.

Batterieleistung für
Bis zu
2.700
Ortungen*

Hinweis: Eingebaute Batterie nicht aufladbar oder austauschbar

Image: Graphic illustrating the UGREEN FineTrack Mini Duo 2 Tracker's battery performance, indicating up to 2,700 localizations and a note that the built-in battery is not rechargeable or replaceable.

6.2. Water and Dust Resistance

This tracker is IP68 certified according to IEC 60529. This means it can withstand immersion in 1 meter of water for one hour. You can use the tracker without concern in rain or humid environments, and it is protected against splashes, mud, and brief submersion without damage.

7. TROUBLESHOOTING AND FAQ

7.1. Common Questions

1. **How do I check the battery status?**

After connecting the product to the "Find My" or "Find Hub" app, navigate to the home screen. The remaining battery status will be displayed under the device name. Please note that the battery status updates gradually; this is normal app behavior.

2. **Does the product support precise UWB positioning?**

This product supports global positioning but not precise UWB positioning. Location is determined in meters with map-based deviations. While searching, a circular area is displayed, but no directional arrow. Use the "Play Sound" function when you are near the target to pinpoint its exact location.

3. **Is the battery rechargeable?**

No, the product battery is neither replaceable nor rechargeable.

FAQ

F3: Wie überprüfe ich den Batteriestand?

A: Nach dem Verbinden des Produkts mit der „Wo ist“-App gehst du auf die Startseite. Der verbleibende Batteriestand wird unter dem Gerätenamen angezeigt.

F4: Unterstützt das Produkt die präzise UWB-Positionierung?

A: Dieses Produkt unterstützt globale Positionierung, aber keine präzise UWB-Positionierung. Die Ortung erfolgt in Metern mit kartenbasierten Abweichungen. Während der Suche wird ein kreisförmiger Bereich angezeigt, aber kein Richtungspfeil. Nutze die Funktion „Ton abspielen“, wenn du dich in der Nähe des Ziels befindest.

F5: Unterstützt das Produkt das Aufladen?

A: Die Produktbatterie ist weder austauschbar noch wiederaufladbar.
