Hajomel H105F

Hajomel 10.26" Wireless CarPlay & Android Auto Screen (Model H105F) Instruction Manual

Brand: Hajomel | **Model:** H105F

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Hajomel 10.26" Wireless CarPlay & Android Auto Screen. Please read this manual thoroughly before using the device to ensure proper functionality and safety.

2. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 10.26" CarPlay Screen with Front 4K Camera
- 1080P Rear Camera
- 64GB TF Card
- 3.5mm AUX Cable
- Type-C Car Charger
- User Manual
- Mounting Sticker
- Screws & Sticker for rear camera

Image: All components included in the product package, such as the main screen unit, rear camera, various cables, and mounting accessories.

3. SETUP AND INSTALLATION

3.1 Device Mounting

The Hajomel CarPlay screen is designed for easy dashboard installation without special tools or vehicle disassembly.

1. Adjust the angle of the mounting bracket to your preferred viewing position.
2. Clean the dashboard surface where the device will be placed.
3. Remove the protective film from the adhesive base of the mounting bracket.
4. Firmly stick the bracket to the dashboard.
5. Install the main screen unit onto the mounted bracket.
6. Connect the Type-C car charger to the device and plug it into your vehicle's 12V socket.

FITS MOST DASHBOARDS, EASES YOUR WORRIES

Image: Illustration showing how the device can be installed on different dashboard types, including those with fabric/felt surfaces, using peel-and-stick adhesive.

3.2 Rear Camera Installation

For optimal functionality of the 1080P backup camera, follow these steps:

1. Mount the rear camera at the back of your vehicle, ensuring a clear view.
2. Connect the rear camera cable to the "AV in" port on the main CarPlay screen unit.
3. Connect the red wire of the rear camera to the positive lead of your vehicle's reversing light. This enables automatic display of the rear view when reversing.

4. OPERATING INSTRUCTIONS

4.1 Wireless Apple CarPlay Connection

To connect your iPhone wirelessly to Apple CarPlay:

1. Turn on Bluetooth on your iPhone.
2. On the CarPlay screen, navigate to the Bluetooth settings and pair with your iPhone. Confirm the pairing request on your phone.

3. Allow access to contacts and call history when prompted.
4. Once paired, Apple CarPlay will automatically launch on the screen.

Image: Visual steps showing how to enable Bluetooth on an iPhone, pair with the device, confirm access, and connect to Apple CarPlay.

4.2 Wireless Android Auto Connection

To connect your Android phone wirelessly to Android Auto:

1. Turn on Bluetooth on your Android phone.
2. On the CarPlay screen, navigate to the Bluetooth settings and pair with your Android phone. Confirm the pairing request on your phone.
3. Allow access to contacts and call history when prompted.
4. Once paired, Android Auto will automatically launch on the screen.

Image: Visual steps showing how to enable Bluetooth on an Android phone, pair with the device, confirm access, and connect to Android Auto.

4.3 Mirror Link (AirPlay / Android Cast)

The device supports screen mirroring for both iOS (AirPlay) and Android (Android Cast).

4.3.1 AirPlay Mirror Link (iOS)

1. On your iPhone, open the Control Center and tap "Screen Mirroring".

2. Connect your iPhone to the device's Wi-Fi network (details available on the screen).
3. Select the device name from the screen mirroring options.
4. Confirm the connection on your iPhone.

Image: Visual steps for initiating AirPlay screen mirroring from an iPhone to the CarPlay screen.

4.3.2 Android Cast Link

1. On your Android phone, open the system Settings screen.
2. Find "More connections" or "Connected devices" and then "Wireless Projection" or "Cast".
3. Select the device name (e.g., F800-0D187758) to connect.
4. Confirm the connection on your Android phone.

4.4 Audio Output Options

The device offers multiple ways to output audio to your car's sound system:

- **Built-in Speaker:** The unit has an integrated 8R 4W speaker for direct audio output.
- **FM Transmit:** Transmit audio wirelessly to your car's FM radio. Tune your car radio to an unused FM frequency (87.5MHz-108MHz) and set the device to the same frequency.
- **AUX to Car's Audio:** Use the provided 3.5mm AUX cable to connect the device's AUX output to your car's AUX input for a wired audio connection.
- **Bluetooth to Car Speaker:** Connect the device to your car's Bluetooth system for stable and dynamic music playback through your car speakers.

Image: Illustration detailing the four available audio output methods for the device, including built-in speaker, FM transmission, AUX cable, and Bluetooth connection to the car's audio system.

4.5 Dash Cam and Loop Recording

The integrated 4K front dash cam and 1080P rear camera provide continuous recording for driving security.

- **Loop Recording:** The system automatically overwrites the oldest footage when the storage card is full, ensuring continuous recording.
- **Storage:** The device includes a 64GB TF card for ample storage.
- **Video Playback:** Recorded videos can be viewed directly on the screen or via a mobile app.

WATCH RECORDED VIDEO ON MOBILE APP

Monitor driving conditions anytime and anywhere

- Download the app
- Open a Wi-Fi connection. (Password:12345678)
- Quickly view, download & edit videos on your phone

Image: Steps to download the mobile app, open a Wi-Fi connection (password: 12345678), and view, download, or edit recorded videos on a smartphone.

4.6 Backup Camera Functionality

The 1080P waterproof rear camera provides a clear view for safe reversing and parking.

- When properly installed and connected to the reversing light, the screen will automatically display the rear view when the vehicle is put into reverse.
- Adjustable reverse reference lines assist with parking.
- The camera offers a 170° wide viewing angle.

Image: A visual representation of the backup camera's display, showing the wide field of view and adjustable parking guidelines.

4.7 GPS Navigation

Utilize your smartphone's navigation apps through Apple CarPlay or Android Auto for real-time guidance.

- Compatible with popular navigation apps like Google Maps, Apple Maps, and Waze.
- The 10.26-inch display provides an enlarged view of maps and traffic updates.
- Voice guidance is routed through your car speakers (if connected via AUX, FM, or Bluetooth).

Item Weight	1.92 pounds

Image: Infographic detailing the 10.26-inch IPS display features: 550 Cd/m² brightness, 1000:1 contrast, 1600x600 resolution, 16.7 million colors, and 60FPS refresh rate.

6. MAINTENANCE

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the screen. Do not use abrasive cleaners or solvents.
- **Camera Lenses:** Keep the front and rear camera lenses clean for clear recordings. Use a soft cloth to remove dust or smudges.
- **Cable Connections:** Periodically check all cable connections to ensure they are secure.
- **Software Updates:** Check the manufacturer's website or app for any available software updates to ensure optimal performance and new features.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	No power supply or loose connection.	Ensure the Type-C car charger is securely plugged into both the device and the 12V car socket. Check if the car socket is functioning.
Wireless CarPlay/Android Auto fails to connect.	Bluetooth not enabled, incorrect pairing, or interference.	Verify Bluetooth is enabled on your phone. Ensure the correct device is selected for pairing. Try restarting both the phone and the CarPlay screen.
No audio from car speakers.	Incorrect audio output setting or loose cable.	Check if AUX cable is properly connected, FM frequency is matched, or Bluetooth audio is selected on your car stereo.
Rear camera not displaying.	Loose connection or incorrect wiring.	Ensure the rear camera cable is securely connected to the "AV in" port. Verify the red wire is correctly connected to the reversing light's positive lead.
Screen mirroring issues.	Wi-Fi connection problem or phone settings.	Ensure your phone is connected to the device's Wi-Fi. Check screen mirroring settings on your phone.

8. WARRANTY AND SUPPORT

The Hajomel 10.26" Wireless CarPlay & Android Auto Screen comes with a standard manufacturer's warranty.

Please refer to the warranty card included in your package for specific terms and conditions.

For technical support, troubleshooting assistance, or warranty claims, please contact Hajomel customer service.

Contact information can typically be found on the product packaging or the official Hajomel website.

Online Support: Visit the official Hajomel website for FAQs and support resources.

Email Support: Refer to your product documentation for the customer support email address.

Phone Support: Refer to your product documentation for customer service phone numbers.
