GAOMON Cat Litter Box Enclosure with Ladder & Platform User Manual

Model: hRSYk5paCB4jQ

1. Introduction

This manual provides instructions for the assembly, operation, and maintenance of your GAOMON Cat Litter Box Enclosure with Ladder & Platform. This product is designed to offer a discreet and functional space for your cat's litter box, while also providing an engaging environment with a ladder and platform. Please read these instructions carefully before assembly and use to ensure proper function and safety.

Figure 1: Fully assembled GAOMON Cat Litter Box Enclosure in a home setting.

2. Safety Instructions

- Ensure all parts are securely fastened during assembly. Loose parts can pose a hazard.
- Do not allow children to climb on or play inside the enclosure. This product is designed for pet use only.
- Place the enclosure on a flat, stable surface to prevent tipping.
- Keep the enclosure away from open flames, heat sources, and excessive moisture.
- Regularly inspect the enclosure for any damage or loose components. Discontinue use if damage is found and repair or replace as necessary.
- Do not exceed the recommended weight capacity.

3. Package Contents

Before beginning assembly, verify that all components are present and undamaged. The package includes:

- All necessary panels for the enclosure structure (MDF wood panels).
- Metal grid door and ladder components.
- All required assembly hardware (screws, dowels, hinges, handles, etc.).
- Assembly instructions (this manual).

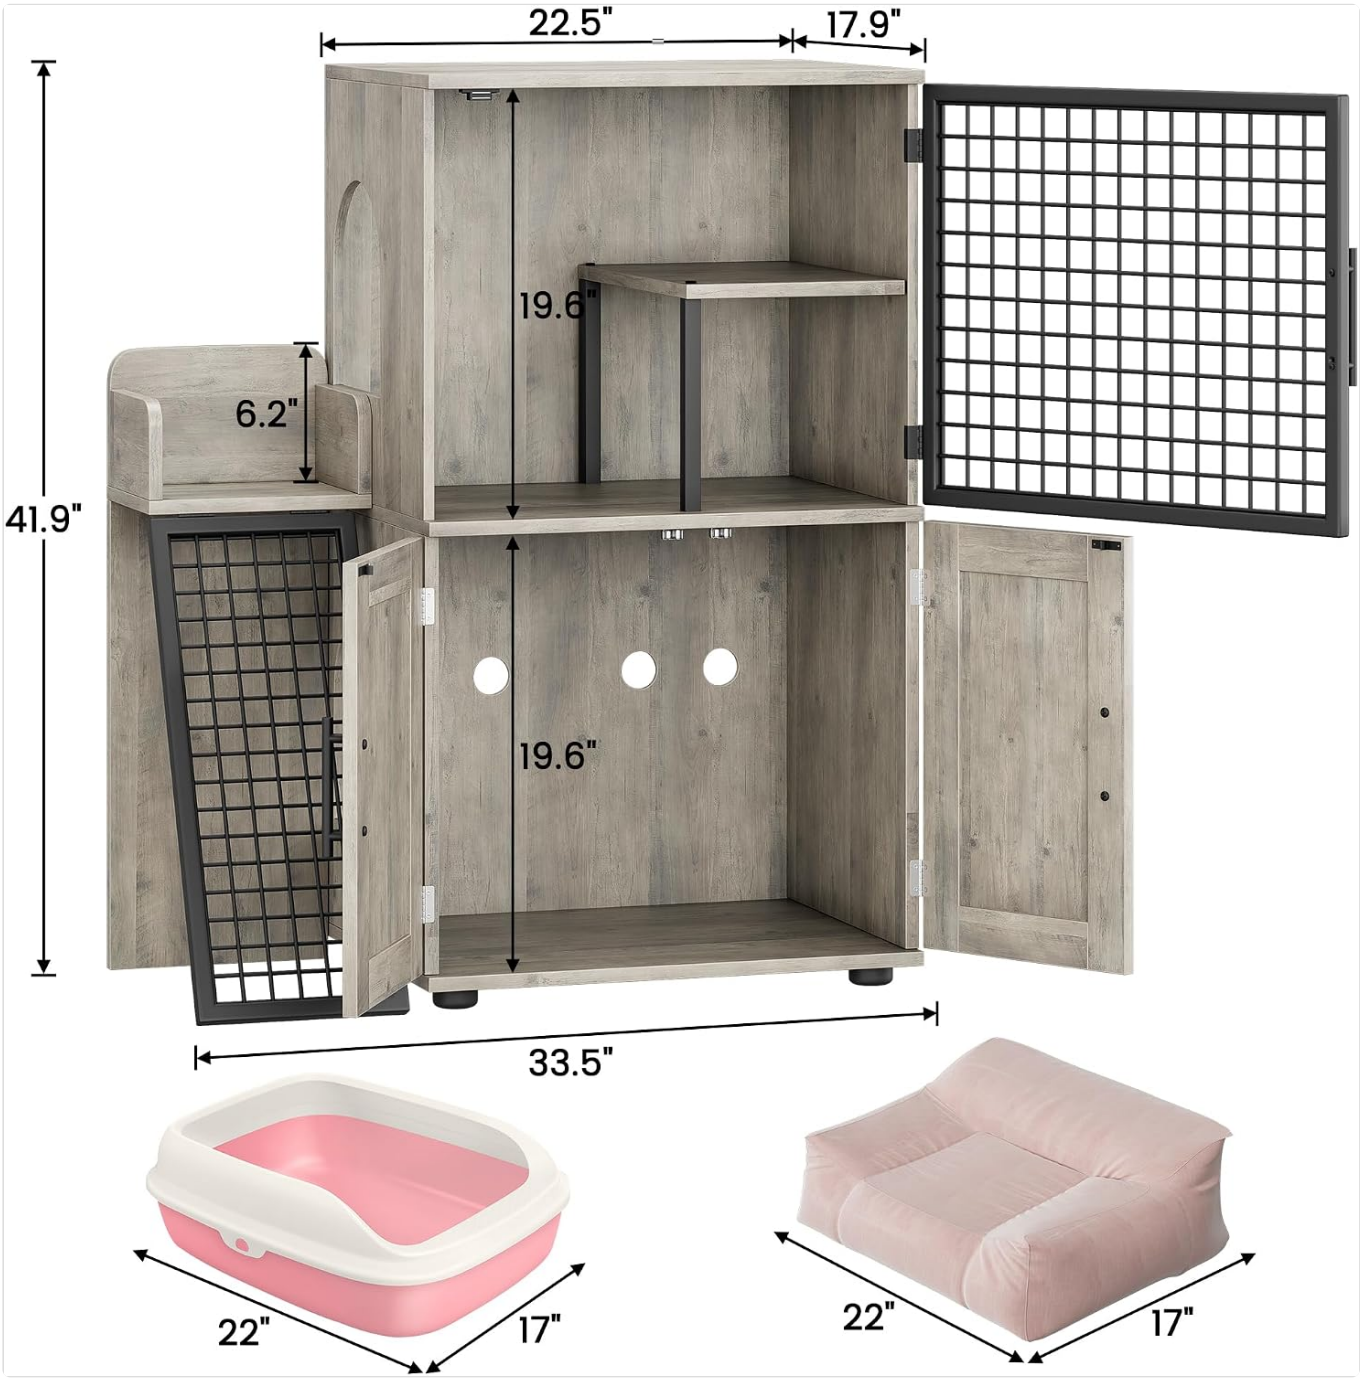

Figure 2: Overview of components and dimensions. The main enclosure measures approximately 33.5" L x 17.9" W x 41.9" H.

4. Setup and Assembly

Assembly typically requires two adults and basic tools (e.g., screwdriver). Follow the numbered steps provided in the included assembly diagram (refer to Figure 2 for component identification).

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out and compare them against the parts list in the assembly diagram to ensure everything is present.

2. **Assemble the Base Cabinet:** Begin by connecting the side panels to the bottom panel using the provided screws and dowels. Ensure the pre-drilled holes align. Attach the back panel.
3. **Install Internal Shelves:** Insert the adjustable shelf supports into the desired holes within the base cabinet, then place the shelf.
4. **Attach Cabinet Doors:** Secure the hinges to the cabinet doors and then attach the doors to the main cabinet structure. Install the handles.
5. **Assemble the Upper Enclosure:** Construct the upper section, which includes the metal grid door. Attach the side panels and top panel.
6. **Connect Upper and Lower Sections:** Carefully place the assembled upper enclosure onto the base cabinet, securing it with the designated connectors.
7. **Assemble the Ladder and Platform:** Attach the platform to the side of the main enclosure. Secure the metal ladder to the platform and the lower access point.
8. **Final Check:** Once assembled, gently shake the unit to ensure stability. Tighten any loose screws.

Figure 3: The integrated ladder and platform provide access and an elevated resting spot for your cat.

Figure 4: The mesh door allows for ventilation and visibility into the upper section.

5. Operating Instructions

This enclosure is designed to house a standard cat litter box and provide a comfortable space for your cat.

1. **Litter Box Placement:** Open the lower cabinet doors and place your cat's litter box inside. Ensure there is enough space for your cat to comfortably enter, exit, and use the box. The internal dimensions are designed to accommodate most standard litter boxes (refer to Figure 2 for internal measurements).
2. **Cat Access:** Your cat can access the litter box through the side entrance and the ladder leading to the lower cabinet. The upper platform provides an additional resting or viewing area.
3. **Ventilation:** The enclosure features ventilation holes to promote airflow and reduce odor buildup. Ensure these holes are not obstructed.
4. **Privacy:** The enclosed design offers your cat privacy while using the litter box, which can help reduce stress and encourage proper litter box habits.

6. Maintenance

Regular cleaning and maintenance will extend the life of your cat litter box enclosure and ensure a hygienic environment for your pet.

- **Daily Cleaning:** Scoop the litter box daily as per your litter manufacturer's instructions.
- **Wipe Down Surfaces:** Use a damp cloth and mild, pet-safe cleaner to wipe down the interior and exterior surfaces of the enclosure regularly. Avoid abrasive cleaners or harsh chemicals.
- **Deep Cleaning:** Periodically, remove the litter box and thoroughly clean the entire interior of the cabinet. Allow it to air dry completely before replacing the litter box.
- **Check Hardware:** Every few months, check all screws and fasteners to ensure they are tight. Retighten if necessary.
- **Ventilation:** Ensure the ventilation holes remain clear of dust and debris.

7. Troubleshooting

Problem	Possible Cause	Solution
Odor buildup	Infrequent cleaning, poor ventilation, type of litter.	Increase frequency of litter scooping and enclosure cleaning. Ensure ventilation holes are clear. Consider using a higher-quality clumping litter or a litter deodorizer.
Cat not using the enclosure	New environment, litter box type, location, or cleanliness.	Allow your cat time to adjust. Ensure the litter box inside is clean and familiar. Place the enclosure in a quiet, accessible location. You may need to gradually introduce your cat to the new setup.
Enclosure feels wobbly	Loose hardware, uneven surface.	Check and tighten all screws and fasteners. Ensure the enclosure is placed on a flat, level surface.

8. Specifications

Feature	Detail
Model Number	hRSYk5paCB4jQ
Brand	GAOMON
Dimensions (Overall)	33.5" L x 17.9" W x 41.9" H (85.09 x 45.47 x 106.43 cm)
Material	Sturdy MDF, Iron
Color	Grey
Item Weight	59.3 Pounds (26.9 kg)
Special Features	Double Layer, Hidden Litter Box Design, Integrated Ladder & Platform, Ventilation Holes
UPC	800072262500
