Nifeliz Galley Sailing Ship Building Set (NF10338) Instruction Manual

1. INTRODUCTION

This manual provides detailed instructions for assembling the Nifeliz Galley Sailing Ship Building Set, model NF10338. This set is designed for adult enthusiasts and consists of 1,536 precision-engineered pieces. Upon completion, the model represents a 16th-century galleass warship, suitable for display and collection. Please read all instructions carefully before beginning assembly. The finished model measures approximately 54 cm (L) x 23 cm (W) x 41 cm (H).

2. SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

This building set contains numerous small components. Keep all parts out of reach of young children and pets to prevent accidental ingestion. Adult supervision is recommended during assembly, especially for individuals new to complex building sets.

3. SETUP AND ASSEMBLY

The Nifeliz Galley Sailing Ship Building Set includes 1 instruction book, 1536 parts in numbered bags, and 3 storage boxes to assist with organization during the build process.

- Unpacking:** Carefully open the product packaging. You will find several individually numbered bags containing the building blocks. These numbers correspond to the assembly steps in the instruction manual.
- Organize Parts:** Utilize the provided 3 storage boxes to sort and organize the pieces from the numbered bags. This helps in efficient assembly and reduces the chance of losing small parts.
- Review Instructions:** Before starting, familiarize yourself with the instruction manual. The manual features high-quality images and clear, concise assembly steps. Pay attention to the sequence of steps and the orientation of pieces.

4. **Assembly Process:** Follow the step-by-step instructions in the manual. Each section of the build is typically covered by specific numbered bags. Assemble one section at a time to maintain clarity.

The assembly process is designed to be engaging and provide a strong sense of achievement. Some steps may require patience due to the intricate details and the number of pieces involved. Ensure all connections are secure to prevent parts from detaching during subsequent steps.

4. DISPLAY AND HANDLING

Once assembled, the Nifeliz Galley Sailing Ship is intended for display. The set includes a dedicated base for stable presentation.

- **Placement:** Position the model on a flat, stable surface away from direct sunlight, excessive heat, or high humidity to preserve the integrity of the materials and colors.
- **Handling:** When moving the model, support it from the base and main hull structure. Avoid lifting by delicate parts such as masts, sails, or oars to prevent damage.
- **Display Base:** The custom display base ensures the model stands securely, highlighting its detailed design.

5. MAINTENANCE

To maintain the appearance and longevity of your Nifeliz Galley Sailing Ship model, follow these simple maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry brush or a microfiber cloth. For stubborn dust, a slightly damp cloth can be used, but ensure no water seeps into the connections. Avoid abrasive cleaners or solvents.
- **Environmental Conditions:** Keep the model in a stable environment. Extreme temperature fluctuations or prolonged exposure to direct sunlight can cause material degradation or color fading over time.
- **Part Integrity:** Periodically check for any loose connections. Gently press parts back into place if they

become dislodged.

6. TROUBLESHOOTING

- **Missing Pieces:** While Nifeliz strives for 98.97% completeness, in the unlikely event of missing pieces, please contact Nifeliz customer support via email. Missing parts will be sent within 24 hours.
- **Parts Not Fitting Securely:** Ensure that pieces are aligned correctly according to the instruction manual. Apply firm, even pressure when connecting. If a part consistently fails to connect, double-check that it is the correct piece for that step. Some intricate sections may require extra care during assembly.
- **Model Instability:** Verify that all base connections are firm and that the model is placed on a level surface. If specific sections feel unstable, re-examine the corresponding steps in the manual to ensure all support structures are correctly assembled.
