## 5. OPERATING INSTRUCTIONS

---

### 5.1 Recording Audio

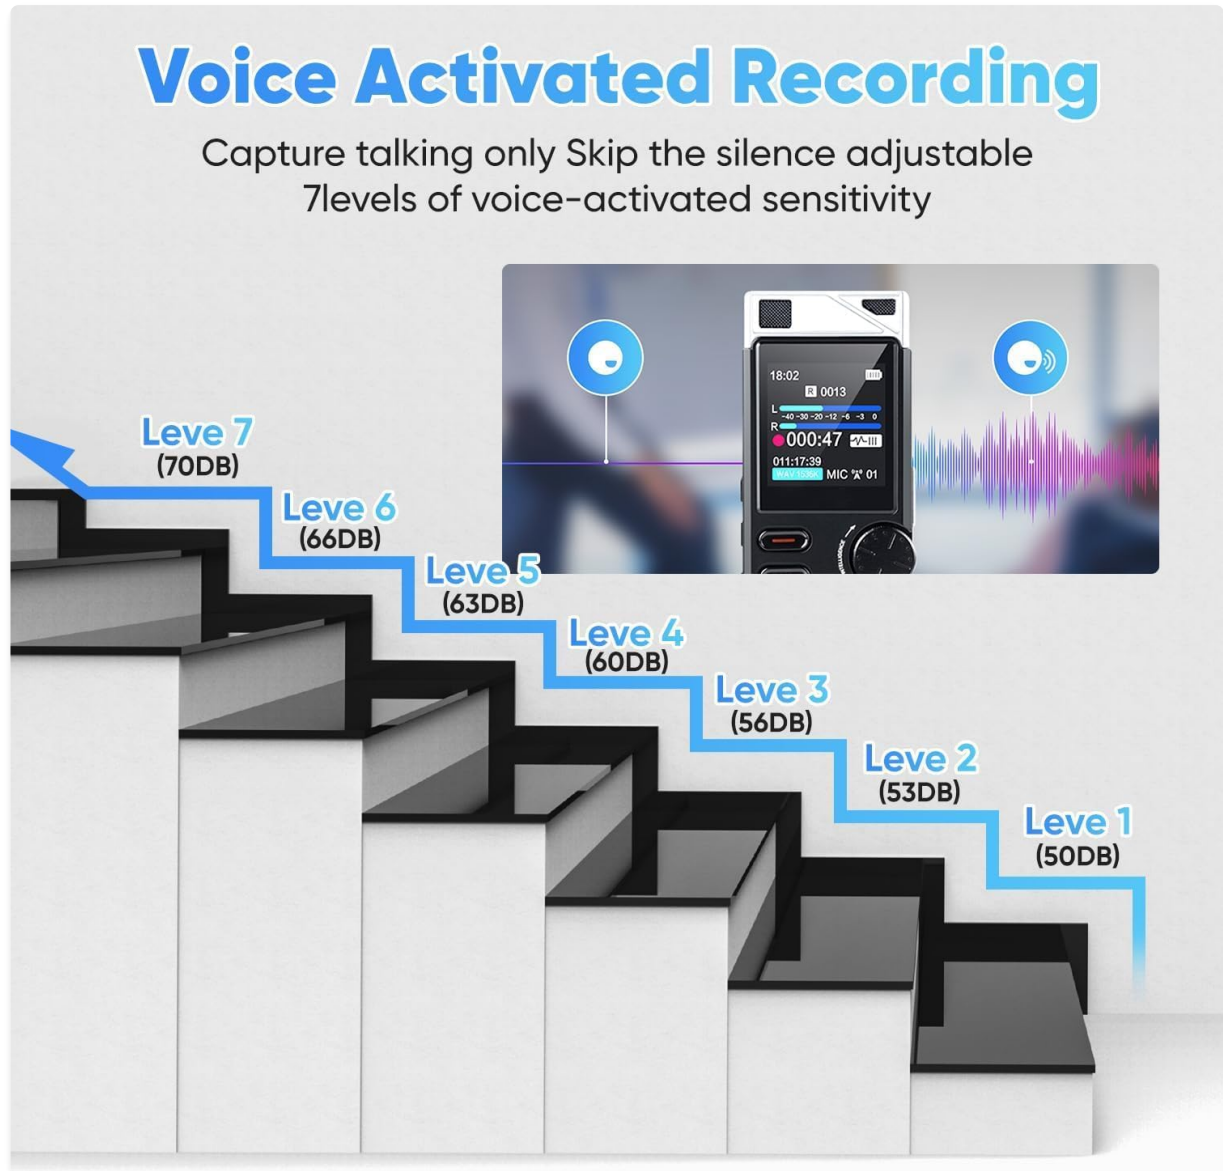

To start recording, simply press the dedicated red record button. The device will immediately begin capturing audio. To pause recording, press the Play/Pause button. Press it again to resume. To stop and save the recording, press the red record button again.

Your browser does not support the video tag.

### 5.2 Voice Activated Recording (VOR)

The powerful voice control function automatically starts recording when sound reaches a correct decibel level and stops when there is no sound. This feature conserves memory space and reduces listening time. Adjust the voice-activated sensitivity (7 levels available) using the menu settings.

**Image 5:** Visual representation of the 7 adjustable levels of voice-activated sensitivity, ranging from 50DB to 70DB, for the Wucotc Digital Voice Recorder.

### 5.3 Noise Reduction

Equipped with a 3rd-gen audio chip and dual-channel microphones, the recorder offers 1536kbps HD stereo recording with hardware-level noise reduction. Use the dedicated noise reduction switch to activate this feature, eliminating background interference for clearer audio.

# Remote Zoom Recording and AGC Automatic Gain

The autofocus system and highly sensitive 360 degree pointing microphone automatically adjust to the appropriate distance to capture the sound source and confirm the best recording effect.

Turn on the automatic gain function, and the machine will automatically balance and maintain better sound quality.
