## LAMTTO 11" AI CarPlay Screen

# LAMTTO 11-inch AI CarPlay Screen User Manual

Model: 11" AI CarPlay Screen | Brand: LAMTTO

## 1. INTRODUCTION

Thank you for choosing the LAMTTO 11-inch AI CarPlay Screen. This advanced car infotainment system is designed to enhance your driving experience with smart features, seamless connectivity, and high-quality visuals. This manual provides essential information for setup, operation, maintenance, and troubleshooting to ensure optimal performance and safety.

Please read this manual thoroughly before using the device and retain it for future reference.

## 2. WHAT'S IN THE BOX

Upon unboxing your LAMTTO 11-inch AI CarPlay Screen, please verify that all the following components are included:

- 1 x 11" Large In-Cell Carplay Screen (1920\*720 Resolution)
- 1 x 1080P Backup Camera with 256-inch Cable
- 1 x Installation Kit with 2 Types of Mounting Brackets and Tools
- 1 x Car Charger with Type-C Connector (5V/3A, USB Port, Built-in FM Antenna, Max 32V Input)
- 1 x 60" AUX Cable
- 1 x User Manual

### 3. SETUP & INSTALLATION

The LAMTTO 11-inch AI CarPlay Screen is designed for quick and effortless installation without professional tools. Follow these steps for a hassle-free setup:

1. **Mounting the Screen:** Choose between the 3M adhesive dashboard mount or the suction cup mount. Ensure the dashboard surface is clean and dry before applying the 3M adhesive disc. For the suction cup mount, stick the red 3M adhesive disc on the dashboard and leave it for 24 hours before installing the suction cup mount.
2. **Power Connection:** Connect the Type-C connector of the car charger to the screen and plug the cigarette lighter adapter into your vehicle's 12V-24V power outlet.
3. **Audio Output:** Connect the provided 60" AUX cable from the screen to your car's AUX input for audio output through your car speakers. Alternatively, use FM transmission or Bluetooth.
4. **Backup Camera Installation:** Install the 1080P backup camera at the rear of your vehicle. Connect its cable to the designated rear camera input on the screen. The red wire from the camera should be connected to your reverse light power for automatic activation.
5. **Cable Management:** Use the provided pry bar and cable clips to neatly tuck away cables along the vehicle's interior panels.

## 4. KEY FEATURES & OPERATING INSTRUCTIONS

### 4.1. Gemini AI CarPlay

Connect to a mobile hotspot to activate Gemini AI, your ultimate AI co-pilot. Gemini can decipher complex intent through natural dialogue, providing real-time travel intelligence, local discovery, and entertainment. Sign in to your Google account to access Gemini features.

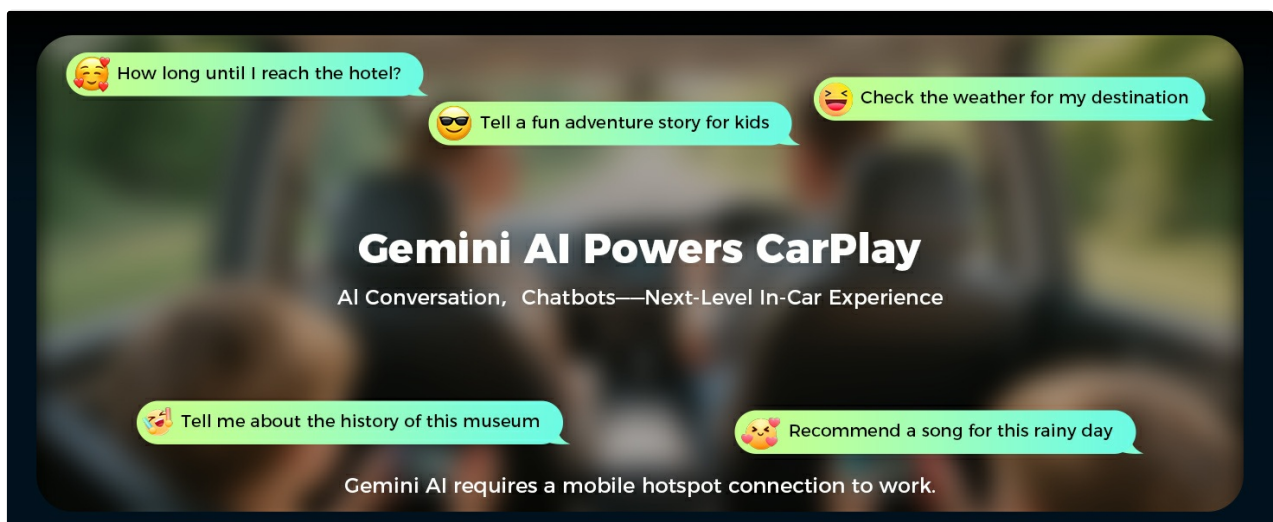

Image: The Gemini AI interface on the CarPlay screen, showing examples of natural language queries like "List 2 easy stretches for a long drive" and "Explain the history of this building to my son."

### 4.2. Google Play Store

Access the Google Play Store by connecting to a hotspot. Download and install your favorite apps like YouTube, Hulu, TikTok, Spotify, and more directly onto the screen for ultimate in-car entertainment. Regularly clear background cache to maintain smooth performance.

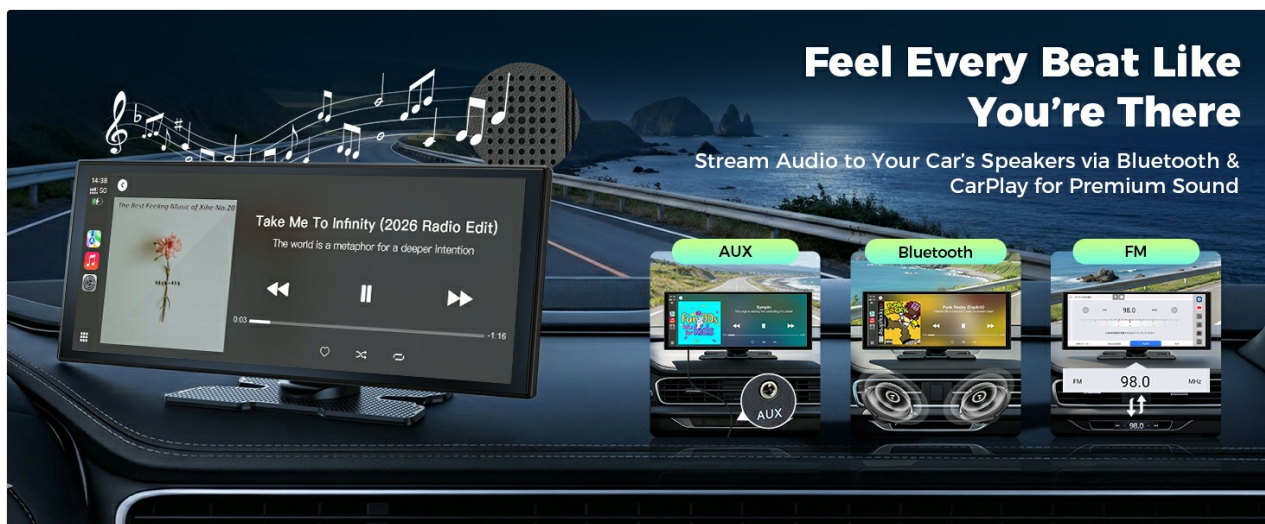

Image: The Google Play Store interface on the CarPlay screen, showing various apps like YouTube, TikTok, Spotify, and Hulu available for download.

### 4.3. Built-in GPS

The device features a built-in GPS system for accurate navigation without requiring phone data syncing. Connect to a hotspot for real-time Google Maps or Waze, or download offline maps for use in areas with no signal. Periodically clear the map cache for smooth performance.

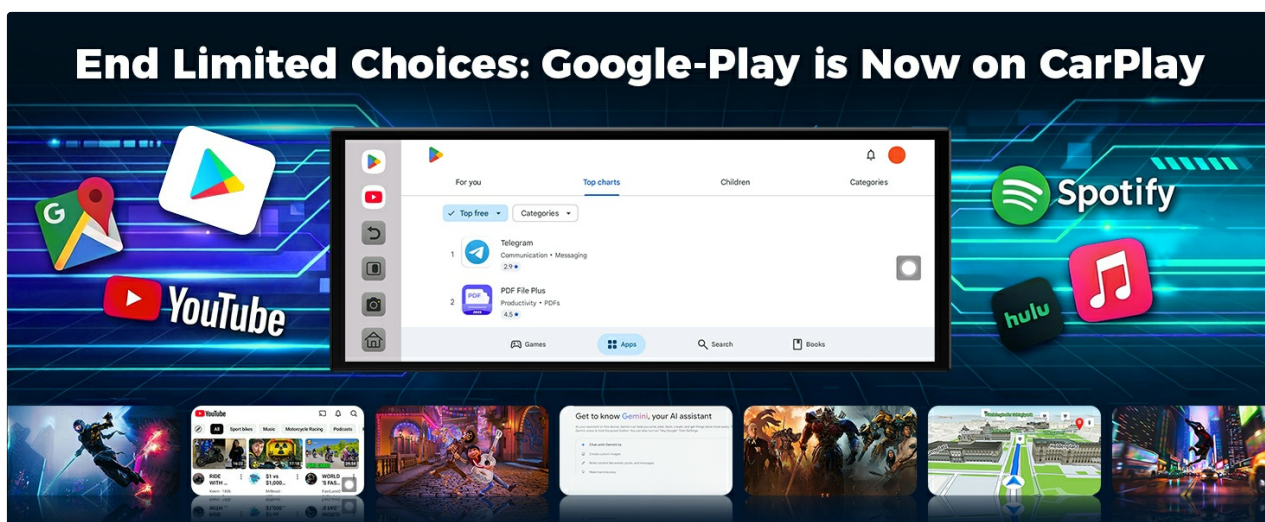

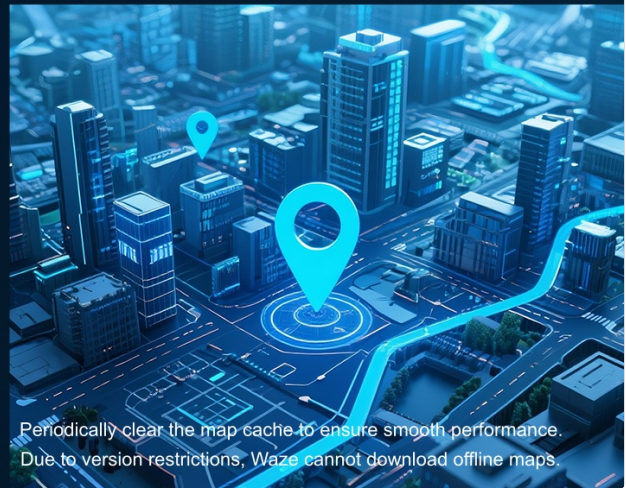

Image: A visual representation of the built-in GPS system, emphasizing precise guidance and the ability to download navigation apps via Google Play.

### 4.4. 1080P Backup Camera & DVR

The included 1080P waterproof backup camera provides a versatile safety solution. It offers one-touch reversing with on-screen direction adjustments. Loop Recording continuously captures your journey, providing evidence for incidents. The camera can also be temporarily mounted in the backseat to monitor children or cargo.

## Built-in GPS: Independent Navigation Solution

Hotspot Connection Only—Skip CarPlay.  
Use GPS Apps Freely and Keep Your Privacy Safe

Periodically clear the map cache to ensure smooth performance.  
Due to version restrictions, Waze cannot download offline maps.

Image: Illustrations showing the backup camera's features, including adjusting reversed images, IP67 waterproof rating, one-tap reverse view, and DVR functionality.

### 4.5. Wireless CarPlay and Android Auto with Split Screen

Enjoy seamless wireless connectivity for Apple CarPlay and Android Auto. The upgraded split-screen feature allows you to access the system menu directly. Keep navigation and calls on one side while smoothly switching to any other app on the right side for versatile multitasking. Dual Bluetooth and Dual Wi-Fi ensure stable connections.

## 11" In-Cell Big Screen: Vivid & Detailed

Vivid Colors, 60Hz Smoothness, and Instant Touch  
Response Meet IPS Clarity

**IPS** IPS Panel

**2.5D** 2.5D Curved Screen

**60FPS** 60FPS

**HD** 1920 x 720 HD

Image: The split-screen functionality displaying navigation on one side and various apps like YouTube, TikTok, and Hulu on the other, emphasizing flexible multitasking.

Video: A user demonstrating the CarPlay maps functionality, highlighting the screen's brightness and real-time map reactions, and the option to play audio through the screen's speaker or the car's system.

### 4.6. Performance & Display

Powered by an 8-core processor and 4GB+64GB memory, the screen delivers lightning-fast responsiveness. Seamlessly switch between navigation and split-screen apps without lag. The 11-inch in-cell ultra-thin screen boasts a 1920x720 HD resolution and 60fps refresh rate for vivid, detailed, and smooth visuals.

## Packing List

Carplay Screen

3M sticker bracket

Suction cup bracket

1080P Backup Camera

Power Cable&USB

AUX cable

Car Wire Trim Tool

Cable Clips /Spare 3M glue

User Manual

### 4.7. Quick Installation & Instant Wake

Engineered for a hassle-free installation, the screen can be mounted and running in minutes. Once started, the screen wakes instantly, automatically resuming your previous page and media for uninterrupted entertainment. Seamless OTA updates ensure your system stays current with the latest features.

Image: A visual showing the 8-core processor enabling instant screen wake with engine start, highlighting the 2-second boot time.

### 4.8. Customization

Personalize your experience by customizing your favorite wallpapers and boot logos. This allows you to reflect your style and make the device uniquely yours.

## Dual Bluetooth & Wifi

Unmatched Stability, Maximum Freedom

Never Drop a Call: Two Bluetooth channels prevent audio conflicts.

Stream & Surf Without Limits: 2.4GHz and 5GHz work in tandem so you can stream video without slowing down CarPlay or Android Auto

2.4GHZ 5GHZ

## 5. MAINTENANCE

To ensure the longevity and optimal performance of your LAMTTO AI CarPlay Screen, follow these maintenance guidelines:

- **Cleaning:** Regularly clean the screen with a soft, dry, anti-static cloth. Avoid using harsh chemicals or abrasive materials that could damage the display.
- **Software Updates:** Ensure your system stays current with the latest features and performance improvements through seamless OTA (Over-The-Air) updates.
- **Memory Management:** Manually clear background cache regularly to maintain smooth, fluid performance, especially after using multiple apps.
- **Temperature:** The screen is designed to operate within a temperature range of 14°F to 149°F. Avoid prolonged exposure to extreme temperatures.

## 6. TROUBLESHOOTING

If you encounter any issues with your LAMTTO AI CarPlay Screen, refer to the following common troubleshooting tips:

- **Connectivity Issues (Wi-Fi/Bluetooth):** Ensure your phone's Wi-Fi and Bluetooth are turned on and functioning correctly. Restart both the phone and the screen.
- **Screen Responsiveness/Brightness:** Manually adjust the volume and brightness settings on the device. Clear phone's memory to improve speed and avoid disconnections.
- **App Performance:** If apps are slow or crashing, manually clear background cache. Note that installing too many applications may slow down your device.
- **GPS Accuracy:** Ensure a hotspot connection for real-time navigation. Download offline maps for areas with poor signal. Periodically clear map cache.
- **Overheating:** It is normal for the screen to get hot during operation. If excessive, ensure proper ventilation and avoid direct sunlight exposure.
- **Compatibility:** This screen does not support Huawei or Xiaomi devices. It is compatible with iPhone (iOS 10+) and Android phones (Android 11+).

For further assistance, please contact LAMTTO Dedicated Support.
