Lamicall B0G6J8XJ68

Lamicall Cell Phone Stand & Ultra-Thin Cell Phone Stand User Manual

Introduction

This manual provides comprehensive instructions for the Lamicall Cell Phone Stand and the Lamicall Ultra-Thin Cell Phone Stand. Please read this manual carefully before using the product to ensure proper setup, operation, and maintenance. Keep this manual for future reference.

Product Overview

Included Components

- 1 x Lamicall Cell Phone Stand
- 1 x Lamicall Ultra-Thin Cell Phone Stand

Key Features

- **Adjustable Design:** Features a dual-pivot structure allowing adjustment of the back plate up to 180 degrees and the base up to 90 degrees. Height extends up to 4.3 inches.
- **Ultra-Thin Portability:** The Ultra-Thin stand is designed for compact folding, making it easy to carry.
- **Stable Construction:** Weighted metal base crafted from carbon steel with an integrated silicone anti-slip pad for stability.
- **Thick Case Compatibility:** Accommodates phones with cases up to 0.71 inches (18mm) thick.
- **Wide Device Compatibility:** Supports telephones and tablets between 4 and 8 inches.

The image displays both the Lamicall Cell Phone Stand in its upright, adjustable position and the Ultra-Thin Cell Phone Stand in its compact, folded state, highlighting their design.

Setup Instructions

Unfolding the Stand

1. Gently unfold the base of the stand until it lies flat on your desired surface.
2. Lift the back plate of the stand to an upright position.

Adjusting the Stand

1. To adjust the viewing angle, pivot the back plate up to 180 degrees.
2. To adjust the height, extend the central support arm. The stand can extend up to 4.3 inches vertically.
3. The base can also be adjusted up to 90 degrees for further angle customization.

This image illustrates a user adjusting the height of the Lamicall Cell Phone Stand, demonstrating its 4.3-inch vertical extension for optimal viewing angles.

Operating Instructions

Placing Your Device

Place your smartphone or tablet (between 4 and 8 inches) onto the silicone-padded hooks at the bottom of the back plate. Ensure the device rests securely against the backrest.

This image shows the Lamicall Cell Phone Stand in use, holding a smartphone at an adjustable angle on a table, emphasizing its multi-angle and height adjustment capabilities.

Charging Compatibility

The stand is designed with an open space at the bottom of the device cradle, allowing a charging cable to be connected while your device is on the stand.

A smartphone is depicted charging while resting on the Lamicall Cell Phone Stand, illustrating the stand's design for convenient cable management during charging.

Compatibility with Cases

The stand's hooks are deep enough to accommodate devices with protective cases up to 0.71 inches (18mm) thick.

The stand is shown accommodating a smartphone encased in a thick protective cover, with a charging cable connected, demonstrating its thick case compatibility and charging support.

Maintenance

- To clean the stand, wipe it with a soft, damp cloth.
- Avoid using abrasive cleaners or solvents, as these may damage the finish or silicone pads.
- Ensure the stand is dry before placing any electronic devices on it.

Troubleshooting

Stand feels unstable:

- Ensure the stand is placed on a flat, stable surface.
- Verify that the base is fully unfolded and resting evenly.
- Check that the silicone anti-slip pads on the base are clean and intact.

Difficulty adjusting angles:

- Apply gentle, firm pressure when adjusting the pivots. They are designed to be stiff to maintain stability.
- Do not force the joints beyond their intended range of motion (180 degrees for the back plate, 90 degrees for the base).

Specifications

Model Number	B0G6J8XJ68
Material	Carbon Steel, Silicone
Device Compatibility	4 - 8 inch smartphones and tablets
Max Case Thickness	0.71 inches (18mm)
Height Adjustment	Up to 4.3 inches
Back Plate Angle	Up to 180 degrees
Base Angle	Up to 90 degrees

This image provides key dimensions of the Lamicall Cell Phone Stand, including its base measurements and the 90-degree adjustable angle of the base.

A detailed side view of the stand highlights its dimensions for device placement, including the 18mm (0.7 inch) hook depth for thick cases, and confirms compatibility with devices between 4 and 8 inches.
