Samsung HAF-DIN/EXP

Samsung Refrigerator Water Filter Bypass Plug Cap HAF-DIN/EXP Instruction Manual

Model: HAF-DIN/EXP

1. Introduction

This manual provides instructions for the proper use and installation of the Samsung Refrigerator Water Filter Bypass Plug Cap, model HAF-DIN/EXP. This genuine Samsung part is designed to maintain water flow to your refrigerator's dispenser and ice maker when a water filter is not installed.

Figure 1: Samsung HAF-DIN/EXP Water Filter Bypass Plug Cap. This image shows the white plastic bypass plug with black O-rings at the top, designed to fit into the refrigerator's filter housing.

2. Safety Information

- Always disconnect power to the refrigerator before attempting installation or removal of any parts.
- Turn off the water supply to the refrigerator before installation or removal.
- Ensure the bypass plug is securely installed to prevent leaks.
- This product is designed for specific Samsung refrigerator models. Refer to the compatibility list before use.
- Keep out of reach of children.

3. Setup and Installation

The bypass plug cap is designed for easy installation, allowing your refrigerator to function without a water filter. Follow these steps:

1. **Prepare the Refrigerator:** Turn off the water supply to the refrigerator. If accessible, unplug the refrigerator from the power outlet.

2. **Remove Existing Filter (if applicable):** If a water filter is currently installed, twist it counter-clockwise to unlock and pull it out. Be prepared for a small amount of water to drip.
3. **Insert Bypass Plug:** Align the bypass plug cap with the filter housing. Push it firmly into the housing and twist clockwise until it locks into place. Ensure it is seated securely to prevent leaks.
4. **Restore Water and Power:** Turn the water supply back on. Check for any leaks around the bypass plug. If no leaks are present, plug the refrigerator back into the power outlet.
5. **Flush the System:** Dispense approximately 2-3 gallons of water through the dispenser to flush any air from the water lines.

4. Operating Instructions

Once installed, the Samsung HAF-DIN/EXP bypass plug cap allows your refrigerator's water dispenser and ice maker to function normally without a water filter. Water will flow directly from your home's water supply to the dispenser and ice maker, bypassing the filter housing. This ensures continuous access to

water and ice even when a filter is not present or needs replacement.

Figure 3: Side view of the Samsung HAF-DIN/EXP bypass plug, highlighting its cylindrical shape and locking tabs for secure fitment.

5. Maintenance

The Samsung HAF-DIN/EXP Refrigerator Water Filter Bypass Plug Cap requires no regular maintenance. Periodically inspect the plug for any signs of wear or damage, especially the O-rings. If damage is observed, replace the bypass plug to prevent leaks.

6. Troubleshooting

Problem	Possible Cause	Solution
No water from dispenser/ice maker	Bypass plug not fully seated; water supply off; refrigerator unplugged.	Ensure bypass plug is twisted fully clockwise until locked. Check water supply valve. Verify refrigerator is plugged in.
Water leak from filter housing	Bypass plug not properly installed; damaged O-rings.	Remove and re-install the bypass plug, ensuring it locks securely. Inspect O-rings for damage; replace the plug if damaged.
Reduced water flow	Air in water lines; partial blockage in water line (unrelated to bypass).	Dispense several gallons of water to clear air. If problem persists, consult refrigerator's main manual or a service technician.

7. Specifications

Model Number: HAF-DIN/EXP

Brand: Samsung

Product Type: Refrigerator Water Filter Bypass Plug Cap

Product Benefits: Maintains refrigerator dispenser and ice maker functionality without a filter

Included Components: Water Filter Bypass Plug

UPC: 198957231841

8. Product Identification
