## SETUP AND ASSEMBLY

### Before You Begin

- Unpack all components and lay them out on a clean, flat surface.
- Identify all parts using the provided parts list (refer to the separate assembly guide for detailed diagrams).
- Ensure all hardware is present.
- Keep small parts away from children and pets during assembly.

### Assembly Steps (General Guidance)

1. **Attach the Base:** Secure the lowest scratching posts and initial platforms to the reinforced base plate using the provided hardware.
2. **Build Upwards:** Continue attaching posts, platforms, and cat condos layer by layer, following the numerical sequence in the detailed assembly guide.
3. **Install Baskets and Perches:** Secure the hanging baskets and oversized perches to their designated locations.
4. **Add Scratching Ramp:** Attach the scratching ramp to the appropriate platform.
5. **Attach Toys:** Hang the plush toys from the designated loops or platforms.
6. **Secure with Anti-tip Kit:** For maximum stability, especially with active cats, use the anti-tip kit to secure the top of the cat tree to a wall stud. Follow the specific instructions provided with the anti-tip kit.

*Note: A detailed, step-by-step assembly diagram is included in a separate guide within your package. Please refer to it for precise instructions and part identification.*

## OPERATING AND USAGE

### Placement

Place the cat tree on a flat, stable surface, preferably against a wall for added support. Ensure it is not in a high-traffic area where it could be easily bumped or knocked over. Avoid placing it near windows without proper securing, as cats may attempt to jump from the tree to the window sill.

### Introducing Your Cat

Allow your cat to explore the tree at their own pace. You can encourage them by placing treats, toys, or catnip on different levels. Some cats may take time to adjust to a new structure.

### Monitoring Use

Regularly observe your cat's interaction with the tree. Ensure they can safely access all levels and that the tree remains stable during their activities.

## MAINTENANCE

### Cleaning

- **Spot Cleaning:** For small stains, use a mild pet-safe cleaner and a damp cloth. Blot the area gently and allow it to air dry completely.

- **Vacuuming:** Regularly vacuum the plush surfaces to remove loose fur and dust.
- **Sisal Rope:** The sisal scratching posts do not require extensive cleaning. If necessary, gently brush off loose debris.

## Inspection

Periodically check all screws and connections to ensure they are tight. Re-tighten any loose hardware to maintain stability. Inspect the sisal rope for excessive wear and tear; while durable, it will eventually show signs of use.

## TROUBLESHOOTING

### Cat Tree Wobbles

- Ensure all screws are securely tightened.
- Verify the cat tree is placed on a flat, even surface.
- Utilize the provided anti-tip kit to secure the tree to a wall.

### Cat Not Using the Tree

- Try placing treats, favorite toys, or catnip on different levels to entice your cat.
- Ensure the tree is in a location your cat feels safe and comfortable.
- Allow time for your cat to adjust to the new furniture.

### Damaged Parts

If any part is damaged or missing upon arrival, or if you experience issues during assembly, please contact Globlazer customer service for assistance.

## SAFETY INFORMATION

- This product is designed for indoor use by cats only.
- Do not allow children to climb on or play with the cat tree.
- Always use the anti-tip kit to secure the cat tree to a wall, especially for tall models and active cats, to prevent accidental tipping.
- Regularly inspect the cat tree for loose parts or damage. Discontinue use if the tree becomes unstable or damaged.
- Keep the cat tree away from open flames or heat sources.
