# KUKIHO 2-in-1 Wireless CarPlay and Android Auto Adapter

INSTRUCTION MANUAL

Model: B0G6MTHR4S

## 1. INTRODUCTION

---

The KUKIHO 2-in-1 Wireless CarPlay and Android Auto Adapter is designed to convert your vehicle's existing wired CarPlay or Android Auto system into a wireless connection. This device enhances your driving experience by providing seamless access to navigation, music, voice assistants, phone calls, and messaging without the need for cables. Its compact design and advanced chip technology ensure stable performance and broad compatibility.

## 2. PRODUCT FEATURES

- **2-in-1 Wireless Connectivity:** Seamlessly converts wired CarPlay and Android Auto to wireless, supporting essential functions like navigation, music playback, voice assistant, phone calls, and text messaging.
- **Plug and Play Setup:** Features a simple 3-step installation process without the need for additional applications or drivers. The adapter automatically reconnects to your device upon vehicle startup after initial pairing.
- **Broad Compatibility:** Supports iPhone models from iPhone 6 onwards running iOS 10 or later, and Android phones with Android 11 or higher. Includes a USB to USB-C converter for versatile port compatibility in various vehicles.
- **Enhanced Performance:** Equipped with an upgraded intelligent chip and advanced signal filtering technology for stable, low-latency connections. Supports original car controls including steering wheel, touchscreen, and knob operations.
- **Durable and Compact Design:** Features an elegant, space-saving design made from zinc alloy to prevent signal interference and enhance impact resistance. The glazed panel improves heat dissipation for extended

product lifespan.

### 3. SETUP AND INSTALLATION

Follow these steps to set up your KUKIHO Wireless CarPlay and Android Auto Adapter:

1. **Plug In:** Connect the adapter to your car's USB or USB-C port that supports wired CarPlay or Android Auto. Use the provided USB-C converter if necessary. The adapter's indicator light will illuminate.
2. **Enable WLAN:** On your iPhone or Android phone, ensure WLAN (Wi-Fi) is enabled. No specific Wi-Fi network connection is required at this stage, just ensure the Wi-Fi function is active.
3. **Activate Bluetooth and Pair:** Go to your phone's Bluetooth settings. Locate and select the device named "AIBOX-BT-XXXX" (where XXXX is a unique identifier) to initiate pairing. Confirm the pairing request on both your phone and the car's display.
4. **Confirm CarPlay/Android Auto:** Once paired, your car's screen will prompt you to use CarPlay or Android Auto. Select "Use CarPlay" or "Use Android Auto" to complete the connection.

After the initial setup, the adapter will automatically reconnect to your phone when you start your car, provided

Bluetooth and Wi-Fi are active on your phone.

## 4. OPERATING INSTRUCTIONS

Once connected, your car's display will mirror your phone's CarPlay or Android Auto interface. You can interact with the system using your car's original controls:

- **Touchscreen Controls:** Directly tap and swipe on your car's touchscreen display.
- **Steering Wheel Controls:** Use your vehicle's built-in steering wheel buttons for audio, calls, and navigation.
- **OEM Control Knob:** Utilize the car's original equipment manufacturer (OEM) control knob for menu navigation and selections.
- **Voice Assistant:** Activate your phone's voice assistant (e.g., Siri for CarPlay, Google Assistant for Android Auto) for hands-free commands, navigation, music selection, and calls.

## 5. COMPATIBILITY

The KUKIHO Wireless CarPlay and Android Auto Adapter is designed for broad compatibility:

- **iPhone Compatibility:** Works with iPhone 6 and newer models running iOS 10 or a later version.
- **Android Phone Compatibility:** Compatible with Android phones running Android 11 or a later version.
- **Vehicle Compatibility:** Requires a vehicle equipped with factory-installed wired CarPlay or Android Auto. The adapter includes both USB and USB-C connectors to fit various car ports.

## 6. TROUBLESHOOTING

If you encounter issues with your KUKIHO Wireless CarPlay and Android Auto Adapter, consider the following:

- **No Connection:** Ensure your vehicle has factory-installed wired CarPlay or Android Auto. Verify that Wi-Fi and Bluetooth are enabled on your phone. Try unplugging and re-plugging the adapter.
- **Connection Unsuccessful:** If a Bluetooth pairing request fails, ensure the adapter is within range and powered on. Re-attempt the pairing process.
- **Lag or Delay:** The adapter features an upgraded chip for stable transmission. If you experience significant lag, ensure your phone's operating system is up to date and there are no other devices interfering with the Wi-Fi or Bluetooth signal.
- **Firmware Updates:** The adapter supports firmware updates to improve performance and compatibility. If you experience persistent issues, contact technical support for assistance with updating the firmware.
- **LED Brightness:** Some users may find the adapter's LED lights bright, especially at night. Consider placement in a less distracting area if this is an issue.

## 7. SPECIFICATIONS

Package Dimensions	5.75 x 2.99 x 0.67 inches
Item Weight	2.39 ounces
Compatible Devices	Smartphone (iPhone 6+/iOS 10+, Android 11+)
Connector Type	USB, USB Type C
Color	Blue
Number of Ports	2 (USB-A, USB-C via adapter)
Manufacturer	KUKIHO
