Aivituvin AIR7013-BW

Aivituvin 2-Story Rabbit Hutch Instruction Manual

Model: AIR7013-BW

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your Aivituvin 2-Story Rabbit Hutch, Model AIR7013-BW. This hutch is designed to provide a secure and comfortable habitat for small animals such as rabbits and guinea pigs, suitable for both indoor and outdoor use.

2. SAFETY INSTRUCTIONS

- Read all instructions before assembly and use.
- Ensure all parts are securely fastened during assembly to prevent injury to pets or users.
- Regularly inspect the hutch for any damage, loose parts, or signs of wear that could compromise safety.
- Keep small children away from the hutch during assembly and ensure adult supervision when children interact with pets.
- The hutch is constructed from natural fir wood. While designed to be chew-resistant, monitor pets for excessive chewing and address as needed.
- Position the hutch on a stable, level surface. When using outdoors, ensure it is protected from extreme weather conditions.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Hutch wood panels and frames
- Wire mesh panels
- 2 x Slide-out trays
- 1 x Ramp
- 4 x Lockable caster wheels
- Hardware pack (screws, latches, hinges)
- Waterproof roof cover

PRODUCT DIMENSIONS

Figure 3.1: Overview of included components and product dimensions.

4. SETUP AND ASSEMBLY

Assembly is designed to be straightforward with pre-drilled holes and clear instructions. It typically takes approximately 30 minutes with two people.

1. Unpack all components and lay them out on a clean, flat surface.
2. Identify each part using the provided diagram (refer to the separate assembly guide for detailed steps).
3. Attach the main frame sections using the provided hardware.
4. Install the wire mesh panels into their designated slots.
5. Secure the ramp between the upper and lower levels.
6. Install the two slide-out trays into their respective compartments.
7. Attach the four lockable castor wheels to the base of the hutch.
8. Place the waterproof roof cover over the designated roof area, securing it as instructed.
9. Ensure all doors and latches operate smoothly and securely.

5. OPERATING INSTRUCTIONS

The Aivituvin Rabbit Hutch offers various features for ease of use and pet comfort.

5.1 Mobility

The hutch is equipped with four lockable caster wheels for easy relocation. To move the hutch, unlock the wheels. To secure it in place, engage the wheel locks.

Figure 5.1: Lockable caster wheels for easy movement and stability.

5.2 Access Points

The hutch features multiple access doors and an openable roof for convenient interaction with your pets, feeding, and cleaning.

- **Front Doors:** Use the latches to open and close the front wire mesh doors for access to the lower and upper living areas.
- **Side Doors:** Additional side doors provide alternative access points.
- **Opening Roof:** The roof can be opened for top-down access, secured by hinges. A waterproof cover is provided for weather protection.

Multi-Door Access & Large Activity Space

Better Interaction with Pets

6. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity of your hutch and the health of your pets.

6.1 Cleaning the Trays

The hutch features leak-proof pull-out trays for easy cleaning. Simply slide out the trays, empty waste, clean with pet-safe disinfectant, rinse, and dry thoroughly before reinserting.

Figure 6.1: Leak-proof pull-out trays for convenient cleaning.

6.2 General Cleaning

Wipe down all surfaces of the hutch regularly with a damp cloth and pet-safe cleaner. Ensure all areas are dry to prevent mold or mildew growth. Periodically check the wire mesh for any damage or rust.

6.3 Roof Cover Care

Clean the waterproof roof cover as needed. If used outdoors, ensure it is securely fastened to protect the hutch interior from rain and sun.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your rabbit hutch.

- **Difficulty Sliding Trays:** Ensure the trays are correctly aligned within their runners. Check for any debris or obstructions that might be preventing smooth movement.
- **Doors Not Latching Securely:** Verify that the hutch is assembled squarely and that the door frames are not warped. Adjust latches if necessary to ensure a tight fit.
- **Hutch Instability:** Confirm that all screws are tightened and the hutch is placed on a flat, level surface. Engage the locks on the caster wheels to prevent unwanted movement.
- **Pet Chewing on Wood:** While the ramp is chew-proof, other wooden parts may be susceptible. Provide

alternative chew toys for your pets to redirect their chewing behavior.
