## 1. INTRODUCTION

---

Thank you for choosing the Generic 2025 Edition Ultimate Flashlight. This LED flashlight is designed for versatility and durability, featuring a super bright zoomable light, USB-C recharging, and IPX7 waterproof rating. It is suitable for various outdoor activities such as camping, fishing, and general utility.

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your flashlight. Please read it thoroughly before use and retain it for future reference.

## 2. SETUP

---

### 2.1 Unpacking and Inspection

Carefully remove all components from the packaging. Inspect the flashlight and accessories for any signs of damage. If any parts are missing or damaged, please contact customer support.

#### Included Components:

- 1 x 2025 Edition Ultimate Flashlight
- 1 x USB-C Charging Cable
- 1 x Gift Bag (for storage or transport)

### 2.2 Battery Installation

This flashlight model is supplied *without* a battery. Please ensure you use a compatible rechargeable battery (e.g., 18650 or 26650, depending on the model's specific requirements). To install the battery:

1. Unscrew the tail cap of the flashlight by turning it counter-clockwise.
2. Insert the rechargeable battery with the positive (+) terminal facing towards the flashlight head.
3. Screw the tail cap back on clockwise until it is securely tightened.

*Note:* Ensure the battery is inserted with correct polarity to prevent damage to the flashlight or battery.

## 2.3 Initial Charging

Before first use, fully charge the flashlight. Connect the supplied USB-C cable to the flashlight's charging port and plug the other end into a standard USB power adapter (not included) or a computer USB port.

An indicator light (if present) will show the charging status. Charging is complete when the indicator light changes color or turns off.

## 3. OPERATING INSTRUCTIONS

---

### 3.1 Power On/Off

Press the power button (typically located on the side or tail cap) once to turn the flashlight on. Press it again to turn it off.

### 3.2 Changing Lighting Modes

The flashlight features 5 lighting modes. With the flashlight on, press the power button repeatedly to cycle through the available modes:

- High Brightness
- Medium Brightness
- Low Brightness
- Strobe (flashing light for signaling or disorientation)
- SOS (Morse code signal for emergencies)

Image: The flashlight providing illumination in an engine bay, highlighting its practical use and the availability of different lighting modes.

### **3.3 Zoom Function**

To adjust the beam focus, gently slide the head of the flashlight forward or backward. Sliding it forward will narrow the beam for a long-distance spotlight, while sliding it backward will widen the beam for a broad floodlight.

# Super Bright LED

Image: A powerful, focused beam from the flashlight extending across a body of water at night, demonstrating its super bright LED and zoom capability.

## 3.4 IPX7 Waterproof Rating

The flashlight is rated IPX7 waterproof, meaning it can withstand immersion in water up to 1 meter for 30 minutes. Ensure all caps and covers are securely tightened before exposing the flashlight to water.

*Caution:* Do not intentionally submerge the flashlight for extended periods or at depths greater than specified. This rating applies to fresh water; exposure to saltwater or chemicals may compromise the seals.

# For Outdoor Use

Image: The flashlight illuminating a scene under a starry night sky, showcasing its suitability for outdoor use.

## 4. MAINTENANCE

---

### 4.1 Cleaning

Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the finish or seals. Clean the lens gently with a lens cloth to maintain optimal light output.

### 4.2 Lubrication

Periodically apply a thin layer of silicone grease to the O-rings and threads of the tail cap to maintain waterproof integrity and smooth operation. This helps prevent wear and tear on the seals.

### 4.3 Storage

When storing the flashlight for extended periods, remove the battery to prevent leakage and potential damage. Store in a cool, dry place away from direct sunlight and extreme temperatures.

Image: The flashlight being used in a rugged cave environment, demonstrating its durable and reliable design.

## 5. TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery is dead or low. Battery inserted incorrectly. Tail cap is loose. Battery or flashlight contacts are dirty.	Charge the battery. Reinsert battery with correct polarity (+ towards head). Tighten the tail cap securely. Clean contacts with a clean cloth.

Problem	Possible Cause	Solution
Light is dim or flickers.	Low battery. Loose connections.	Charge the battery. Ensure tail cap is tight and battery is secure.
Flashlight gets hot during use.	Normal operation on high mode. Prolonged use on highest setting.	This is normal for high-power LEDs. Switch to a lower brightness mode if discomfort occurs.

If the problem persists after attempting these solutions, please contact customer support.

## 6. SPECIFICATIONS

---

<b>Model Name</b>	2025 Edition Ultimate Flashlight
<b>Model Number</b>	1216A
<b>Brand</b>	Generic
<b>Light Source</b>	LED
