## 1. Remote Control Functions

The included remote control allows navigation through the Google TV interface, volume adjustment, input selection, and access to special features. Insert the two AAA batteries into the remote control, observing polarity.

## 2. Google TV Interface

Google TV provides a personalized home screen with access to streaming apps, live TV, and content recommendations. Use the directional pad and 'OK' button on the remote to navigate. Voice control is available through the remote's microphone button.

## 3. Display and Picture Settings

Your TV features QD-Mini LED technology for superior picture quality. Access the picture settings menu to adjust brightness, contrast, color, and other display parameters. The 144Hz refresh rate ensures smooth motion, especially beneficial for gaming and fast-paced content.

### **4. Art Time 2.0 Feature**

When the TV is not actively being used for content viewing, activate Art Time 2.0 to transform your screen into a digital art display. This feature allows you to showcase a selection of over 400 iconic artworks or your personal photos, turning the TV into a dynamic art piece.

All-in-One Design

## Box-Free Hassle

Eliminates messy wires and separate components, keeping the focus entirely on the art.

## 6. Wireless Connectivity

The TV supports Wi-Fi for internet access and Bluetooth 5.0 for connecting wireless accessories like headphones or game controllers. Screen mirroring from compatible mobile devices is also supported.

## MAINTENANCE

---

### 1. Cleaning the Screen

Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, lightly dampen the cloth with water or a specialized screen cleaner. Avoid using harsh chemicals or abrasive materials.

### 2. Cleaning the Casing

Wipe the TV casing with a soft, dry cloth. Do not use liquid cleaners directly on the casing.

### 3. Software Updates

Ensure your TV's software is up to date for optimal performance and security. The TV can automatically check for and install updates when connected to the internet. You can also manually check for updates in the settings menu.

## TROUBLESHOOTING

---

If you encounter issues, refer to the following common solutions before contacting support.

Problem	Possible Solution
No power	Check if the power cord is securely connected to both the TV and the electrical outlet. Ensure the outlet is functional.
No picture, but sound is present	Verify the correct input source is selected. Check external device connections. Try restarting the TV.
No sound, but picture is present	Check the volume level and mute status. Ensure external audio systems are properly connected and powered on.
Remote control not working	Replace the AAA batteries. Ensure there are no obstructions between the remote and the TV's IR sensor.
Cannot connect to Wi-Fi	Check your router and modem. Ensure the Wi-Fi password is entered correctly. Try restarting the TV and your network equipment.
Picture quality issues (e.g., blurry, distorted)	Check the source resolution. Adjust picture settings in the TV menu. Ensure cables are securely connected.
