PHEZEN B0G7HHCMN7

PHEZEN 9.7-inch Android 13 Car Stereo User Manual

Model: B0G7HHCMN7

Introduction Safety Information Product Overview Setup & Installation Operating Instructions Maintenance Troubleshooting Specifications Warranty & Support

1. Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your PHEZEN 9.7-inch Android 13 Car Stereo. This unit is designed to fit Chevy Express models from 2008 to 2011, offering advanced features such as CarPlay, Android Auto, GPS navigation, Bluetooth connectivity, Wi-Fi, and a backup camera input. Please read this manual thoroughly before using the product to ensure proper function and safety.

2. Safety Information

- **Professional Installation Recommended:** Installation of this car stereo requires cutting wires and is not a plug-and-play process. It is highly recommended to have the unit installed by a qualified professional to prevent damage to the vehicle or the stereo.
- **Driving Safety:** Do not operate the system in a way that distracts you from driving safely. Always keep your attention on the road and traffic conditions.
- **Volume Control:** Keep the volume at a level where you can still hear outside traffic and emergency signals.
- **Power Source:** Ensure the vehicle's battery is disconnected before beginning installation to avoid electrical shorts.
- **Wiring:** Connect all wires correctly as per the wiring diagram to prevent malfunctions or damage. Incorrect wiring can cause fire or electric shock.
- **Temperature:** Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods.

3. Product Overview

The PHEZEN 9.7-inch Android 13 Car Stereo is a double DIN unit featuring a large touchscreen display. It is powered by a 4-core CPU with 4GB RAM and 64GB ROM, providing ample storage and smooth multitasking capabilities.

Key Features:

- **9.7-inch Touchscreen Display:** High-resolution IPS display for clear visuals.

- **Android 13 Operating System:** Access to a wide range of applications.
- **Wireless CarPlay & Android Auto:** Seamless smartphone integration for navigation, music, and communication.
- **GPS Navigation:** Supports both offline and online maps.
- **Bluetooth Connectivity:** Hands-free calling and audio streaming with A2DP.
- **Wi-Fi Hotspot:** Connect to the internet for online features and app downloads.
- **Backup Camera Input:** Includes a 170° wide-angle, IP68 waterproof, night vision camera for safe parking.
- **Steering Wheel Control Support:** Integrate with existing steering wheel buttons for convenient operation.
- **FM/RDS Radio:** Listen to your favorite radio stations with clear reception.
- **Audio Equalizer (EQ):** Customize sound settings for optimal audio quality.

Included Components:

The package includes the car radio set, a reversing camera, RCA input/output cables, 2 USB cables, a reverse camera extension cable, a reverse camera voltage cable, a universal loose wire harness, a GPS antenna, and an instruction manual.

5. Operating Instructions

5.1 General Interface and App Access

The car stereo runs on Android 13, providing a user-friendly interface with access to various applications. You can navigate through apps, settings, and media functions directly from the touchscreen.

Figure 5.1: The main screen of the car stereo showing various applications like Play Store, Radio, Sound Effects, Video, and YouTube.

5.2 CarPlay and Android Auto

The unit supports both wireless CarPlay for iOS devices and Android Auto for Android smartphones. Connect your phone to access navigation, music, messages, and voice assistants like Siri or Google Assistant, allowing you to focus on driving.

5.4 Bluetooth & FM Radio

Utilize Bluetooth for hands-free calling and streaming music from your smartphone. The built-in FM radio function allows you to tune into your favorite stations, with support for RDS (Radio Data System) where available.

Figure 5.4: Screenshots showing the Bluetooth connection interface, FM/RDS radio tuner, and audio equalizer (EQ) settings.

5.5 Backup Camera & Steering Wheel Control

The included reversing camera provides a wide-angle view with night vision and IP68 waterproofing, automatically displaying the rear view when the vehicle is in reverse gear. The system also supports integration with your vehicle's existing steering wheel controls for easy access to functions without taking your hands off the wheel.

Backup Camera Resolution Setup:

This video guides you through the steps to set up the backup camera format and resolution within the car stereo's settings menu. Proper configuration ensures optimal display quality for your camera.

Your browser does not support the video tag.

Video 5.2: Step-by-step instructions for configuring the backup camera's format and resolution settings on the car stereo.

6. Maintenance

- **Screen Cleaning:** Use a soft, lint-free cloth to clean the touchscreen. Do not use abrasive cleaners or solvents, as they may damage the screen.
- **Software Updates:** Periodically check for software updates to ensure optimal performance and access to new features. Updates can typically be found through the system settings or the manufacturer's website.

- **General Care:** Keep the unit free from dust and debris. Avoid spilling liquids on the unit.

7. Troubleshooting

If you encounter issues with your car stereo, refer to the following common troubleshooting steps:

- **No Power:** Check all power connections and fuses. Ensure the vehicle's ignition is on.
- **No Sound:** Verify speaker connections. Check volume levels and audio settings (EQ). Ensure the mute function is not activated.
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (note: this will erase all user data).
- **Bluetooth Connection Issues:** Ensure Bluetooth is enabled on both the stereo and your phone. Delete previous pairings and try reconnecting. Check the device name and PIN.
- **GPS Not Working:** Ensure the GPS antenna is properly connected and has a clear view of the sky. Check GPS settings within the system.
- **Backup Camera Not Displaying:** Verify the camera's power and video connections. Check the reverse video resolution settings in the system menu (refer to Video 5.2).
- **CarPlay/Android Auto Not Connecting:** Ensure your phone's operating system is up to date. Try restarting both the phone and the car stereo. Check Wi-Fi and USB connections as shown in Video 5.1.

For persistent issues, please contact PHEZEN customer support.

8. Specifications

Feature	Description
