LuxeBath Luxe-778

LuxeBath SMC Shower Tray 100x80 cm (Model Luxe-778)

Installation and Care Manual

1. Introduction

This manual provides essential information for the safe and correct installation, use, and maintenance of your LuxeBath SMC Shower Tray, model Luxe-778. Please read these instructions carefully before beginning installation and retain them for future reference.

2. Safety Information

- Always ensure the installation area is clean, dry, and level before placing the shower tray.
- Wear appropriate personal protective equipment (e.g., gloves, safety glasses) during installation.
- Handle the shower tray with care to avoid damage or injury. It may require two people to lift.
- Ensure all plumbing connections are secure and watertight to prevent leaks.
- Do not use abrasive cleaners or harsh chemicals on the shower tray surface, as this can damage the material and finish.
- Verify that the floor structure can support the weight of the shower tray, water, and user.

3. Product Overview

The LuxeBath SMC Shower Tray (Model Luxe-778) is designed for modern bathrooms, offering durability and a sleek aesthetic. Its extra-flat profile and non-slip slate-effect surface ensure both safety and comfort.

Key Features:

- **Premium SMC Material:** Constructed from robust Sheet Moulding Compound for high stability, durability, and resistance to deformation.
- **Non-Slip Surface:** Provides a safe and comfortable showering experience.
- **Slate Look Finish:** Elegant black slate effect integrates harmoniously into modern and classic bathrooms.
- **Extra-Flat Design (30mm height):** Ensures easy and safe entry, ideal for low-barrier installations.
- **Efficient Water Drainage:** Features a slight slope and conical water drain for effective water evacuation.

- **Versatile Installation:** Supports three flexible installation options.

Package Contents:

- 1 x LuxeBath SMC Shower Tray (100 x 80 cm, Black)
- Mounting Material
- Integrated Drain Cover

5. Installation

5.1. Preparation

- Unpack the shower tray and inspect it for any damage.
- Ensure the installation surface is clean, dry, level, and structurally sound.
- Gather all necessary tools and materials, including plumbing supplies for the drain connection.
- Familiarize yourself with the specific installation method you intend to use.

5.2. Installation Methods

The LuxeBath SMC Shower Tray offers three flexible installation options:

1. **Surface-Mounted Installation:** The shower tray is placed directly on the finished floor.
2. **Partial Inlet Installation:** The shower tray is partially recessed into the floor, creating a semi-flush look.
3. **Inlet Installation:** The shower tray is fully recessed into the floor, achieving a flush, walk-in shower design.

Image 5.1: Visual representation of the three flexible installation options.

5.3. General Installation Steps

While specific steps vary by installation method, the general process involves:

- Positioning the shower tray according to your chosen method.
- Connecting the drain to the waste pipe, ensuring a watertight seal.
- Securing the shower tray to the floor using appropriate adhesive or mortar, ensuring it is perfectly level.
- Sealing the edges of the shower tray where it meets the wall or floor with silicone sealant to prevent water ingress.
- Allowing sufficient drying time before use, as recommended by adhesive/sealant manufacturers.

6. Care and Maintenance

Proper care and maintenance will ensure the longevity and aesthetic appeal of your LuxeBath SMC Shower Tray.

6.1. Daily Cleaning

- After each use, rinse the shower tray with warm water to remove soap residue and dirt.

- Wipe down the surface with a soft cloth or sponge to prevent water spots and limescale buildup.

6.2. Deep Cleaning

- For more thorough cleaning, use a mild, non-abrasive bathroom cleaner.
- Apply the cleaner with a soft cloth or sponge and gently scrub the surface.
- Rinse thoroughly with water and dry with a soft cloth to restore shine.
- Periodically remove the drain cover and clean any hair or debris from the drain to ensure optimal water flow.

6.3. Important Notes

- **DO NOT** use abrasive pads, wire brushes, or harsh chemical cleaners (e.g., strong acids, alkalis, or solvents) as these can damage the SMC material and slate finish.
- Avoid dropping heavy or sharp objects onto the tray surface to prevent chips or cracks.

7. Troubleshooting

This section addresses common issues you might encounter with your shower tray.

7.1. Slow Drainage

- **Cause:** Blockage in the drain or waste pipe (e.g., hair, soap scum).
- **Solution:** Remove the drain cover and clear any visible obstructions. If the blockage persists, a plumbing snake or chemical drain cleaner (used with caution and according to manufacturer instructions) may be necessary.

7.2. Leaks Around the Tray

- **Cause:** Improperly sealed edges or loose drain connection.
- **Solution:** Inspect the silicone sealant around the perimeter of the tray. Reapply sealant if it is cracked, peeling, or missing. Check the drain connection underneath the tray for tightness and ensure all seals are correctly seated.

8. Warranty and Support

LuxeBath is committed to providing high-quality products. While specific warranty details are not provided in this manual, please retain your proof of purchase for any warranty claims.

8.1. Spare Parts

Information regarding the availability of spare parts is currently unavailable.

8.2. Customer Support
