Auxmir Zanzariera Magnetica

Auxmir Magnetic Mosquito Net Door Instruction Manual

Brand: Auxmir

Model: Zanzariera Magnetica (150x220cm, Black)

INTRODUCTION

Thank you for choosing the Auxmir Magnetic Mosquito Net Door. This product is designed to provide effective protection against mosquitoes, flies, bees, wasps, and other flying insects, while allowing fresh air and natural light into your home. Its automatic magnetic closure ensures convenience for all users, including children and pets. This manual provides detailed instructions for installation, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your mosquito net.

PACKAGE CONTENTS

Please verify that all components are present in the package:

- 1 x Magnetic Mosquito Net Door
- 2 x Adhesive Tapes (Hook-and-loop)
- 1 x Pack of Thumbtacks
- 1 x User Manual

PACKAGE CONTENTS

IMPORTANT SAFETY INFORMATION

- Ensure the installation surface is clean, dry, and smooth for optimal adhesive performance.
- Keep thumbtacks out of reach of children and pets. Use them only if additional fastening is required and with caution.
- Do not hang or pull excessively on the mosquito net, as this may damage the mesh or the adhesive.
- Regularly inspect the net for any damage or wear that might compromise its effectiveness.

PRODUCT FEATURES

The Auxmir Magnetic Mosquito Net Door offers several key features for enhanced home comfort:

- **Effective Insect Protection:** Ultra-fine mesh effectively blocks mosquitoes, flies, and other insects.
- **Automatic Magnetic Closure:** Powerful magnets along the entire length ensure quick and seamless closing after each passage.
- **Hands-Free Access:** Allows easy entry and exit for individuals, children, and pets without needing to manually open or close the screen.

- **Optimal Airflow & Light Transmission:** The mesh design permits fresh air circulation and natural light entry.
- **Durable Material:** Made from tear-resistant polyester with a reinforced top band for increased longevity.
- **Easy, No-Drill Installation:** Attaches easily with hook-and-loop adhesive tape, requiring no drilling or special tools.

CHOOSING THE RIGHT SIZE

To ensure proper fit, measure your door frame accurately before selecting a mosquito net. The screen should be slightly larger than your inner door frame dimensions.

- **Measure Inner Width (L1):** Measure the width of the inner door frame.
- **Measure Inner Height (H):** Measure the height of the inner door frame.
- **Measure Outer Width (L2):** Measure the width of the outer door frame.

Recommendation: The screen width should be $L1 + 4\text{cm}$ and less than or equal to $L2$. The screen height should be less than or equal to H . It is recommended to choose a slightly larger size rather than a smaller one. Due to manual manufacturing, a size error of 1-3 cm may occur.

How to choose the right size ?

$$L1 + 4\text{cm} \leq \text{Screen width} \leq L2 \quad H \leq \text{Screen height}$$

The screen is handmade, the size may have an error of 1-3 cm.

Image: A visual guide demonstrating how to measure the inner (L1) and outer (L2) widths, and the height (H) of a door frame to select the correct mosquito net size.

This section features a collage of images and text boxes. On the left, a teal box contains a sun icon with a dollar sign and the text 'PERMÉABLE À L'AIR ET À LA LUMIÈRE'. Below it, a photo shows a golden retriever walking through a mosquito net. To the right, another teal box features a silhouette of a cat and a dog with the text 'ANIMAUX DE COMPAGNIE ACCEPTÉS'. On the far right, a photo of a white door with a mosquito net is shown, with a teal callout box stating 'PLUS LARGE 4CM'.

Image: A detailed table providing various mosquito net sizes and their corresponding recommended inner (L1) and outer (L2) widths, and inner height (H) for proper fit.

SETUP AND INSTALLATION

Follow these steps for easy, no-drill installation:

1. **Clean Door Frame:** Thoroughly clean the door frame surface where the adhesive tape will be applied. Ensure it is dry and free of dust or grease.
2. **Lay Out Mosquito Net:** Lay the mosquito net flat on the floor to ensure it is untangled and the magnets align correctly.
3. **Apply Top Adhesive Tape:** Attach the adhesive hook-and-loop tape to the top edge of the mosquito net.
4. **Peel Backing Off:** Carefully peel off the protective backing from the adhesive tape.
5. **Attach Mosquito Net:** Position the mosquito net on the door frame. Start by attaching the top center point slightly higher than the sides to allow the magnets to close properly. Then, press the adhesive tape firmly along the entire frame.
6. **Verify Installation:** Test the magnetic closure by walking through the net. Ensure it closes automatically and completely. Adjust if necessary. If desired, use the included thumbtacks for extra security, especially on wooden frames.

OPERATING INSTRUCTIONS

The Auxmir Magnetic Mosquito Net Door is designed for simple, hands-free operation:

- **Passage:** Simply walk through the center opening of the mosquito net. The magnets will automatically separate to allow passage.
- **Automatic Closure:** After passing through, the powerful magnets will automatically snap back together, sealing the opening and keeping insects out.
- **Child and Pet Friendly:** Children and pets can easily push through the net and it will close behind them, providing continuous protection without manual intervention.
- **Temporary Opening:** If you need to keep the net open for an extended period, use the included hook-and-loop straps to tie back the sides of the net.

Image: A collage illustrating the versatility of the mosquito net in different home environments such as bedrooms, balconies, kitchens, and living rooms, ensuring insect-free comfort.

MAINTENANCE

To maintain the effectiveness and appearance of your mosquito net:

- **Cleaning:** The mosquito net is hand washable. Use mild soap and water (maximum temperature 43°C). Do not machine wash or tumble dry.
- **Drying:** Allow the net to air dry completely before re-installing or storing.
- **Storage:** At the end of the season, clean the net, fold it neatly, and store it in a dry place away from direct sunlight to prolong its lifespan.
- **Adhesive Care:** If the adhesive tape loses its stickiness, clean the surface and the tape with a damp cloth and let it dry. If necessary, replace the adhesive tape.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Net does not close automatically.	Net is not installed straight or center is too low.	Re-adjust the installation, ensuring the top center is slightly higher than the sides. Check for any obstructions.
Gaps appear between the net panels.	Magnets are misaligned or adhesive is loose.	Press firmly along the adhesive tape to secure it. Ensure magnets are free from debris.
Adhesive tape is not sticking.	Surface is dirty or tape is worn.	Clean the door frame thoroughly. If necessary, replace the adhesive tape.
Net is too long or too short.	Incorrect size chosen.	Ensure measurements were taken correctly. While some minor adjustments can be made, significant size discrepancies may require a different size net.

SPECIFICATIONS

Feature	Detail
Product Dimensions (L x W x H)	4 x 150 x 220 cm
Weight	890 grams
Manufacturer	Auxmir
Model Number	Zanzariera Magnetica
Material	Polyester
