

Sekey FW188-1

Sekey Heavy Duty Beach Wagon (Model FW188-1) Instruction Manual

Your guide to assembly, operation, and maintenance.

1. PRODUCT OVERVIEW

The Sekey Heavy Duty Beach Wagon is designed for transporting items across various terrains, including sand, gravel, and grass. It features a robust construction, large capacity, and a foldable design for convenient storage and transport.

- **High Capacity:** Capable of holding up to 600 lbs (272 kg) with a 200L volume.
- **All-Terrain Wheels:** Equipped with 9-inch sand-proof balloon tires for smooth movement on challenging surfaces.
- **Adjustable Handle:** Ergonomic handle for comfortable pulling at various heights.
- **Compact Fold:** Folds flat for easy storage and transport in a vehicle trunk.

2. SETUP AND ASSEMBLY

Your Sekey Beach Wagon requires minimal assembly. The primary steps involve inflating and installing the wheels.

1. **Unfold the Wagon:** Carefully remove the wagon from its packaging. Grasp the center handle or sides and pull outwards to fully expand the wagon frame. Ensure all locking mechanisms (if present) are engaged.
2. **Inflate Tires:** Use the included air pump to inflate the 9-inch balloon tires.**Important: Do not use an electric air pump.** Only use the provided manual air pump for safe and proper inflation. Refer to the tire sidewall for recommended pressure range (typically 1.4-3.2 PSI).
3. **Install Wheels:** Attach the inflated wheels to the wagon axles. Ensure they are securely fastened according to the instructions provided with the accessories.

3. OPERATING INSTRUCTIONS

3.1 Loading the Wagon

Distribute weight evenly within the wagon to maintain stability. Avoid overloading beyond the 600 lbs (272 kg) capacity.

3.2 Pulling and Maneuvering

The adjustable handle allows for comfortable pulling. The 360-degree swivel front wheels provide smooth turning, even when the wagon is fully loaded.

Where You

Image: Details of the wagon's turning mechanism and adjustable handle height.

3.3 Navigating Different Terrains

The 9-inch balloon tires are designed to roll smoothly over sand, gravel, and grass without sinking, unlike wagons with narrower wheels.

Image: Visual comparison of the Sekey wagon's performance on sand compared to a standard wagon.

3.4 Folding for Storage

To fold the wagon, ensure it is empty. Locate the central pull strap or mechanism and pull upwards. The wagon frame will collapse. Secure any straps or clips to keep it in a folded position.

COMPACT FOLD

STANDS TALL, SAVES SPACE!

4. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your beach wagon.

- **Cleaning:** After use, especially in saltwater environments, rinse the wagon frame and fabric with fresh water to prevent corrosion. The fabric net can be removed for easy washing if needed.
- **Tire Care:** Periodically check tire pressure and inflate as necessary using the provided manual pump. Avoid over-inflation.
- **Storage:** Store the wagon in a dry place when not in use to protect the frame and fabric from prolonged exposure to elements.
- **Frame Durability:** The wagon is built with a carbon steel frame and anti-rust coating to withstand seaside conditions.

Seaside Durability

Built to survive saltwater, sea breeze, and years of beach trips

5. TROUBLESHOOTING

- **Wagon difficult to pull on sand:** Ensure tires are properly inflated to the recommended pressure. Under-inflated tires can increase resistance. Check for any obstructions in the wheels.
- **Tire losing air:** Inspect the tire for punctures or valve stem issues. If a small hole is found, a tire repair kit may be used, or contact customer support for replacement options.
- **Wagon not folding/unfolding smoothly:** Check for any debris or obstructions in the folding mechanism. Ensure the wagon is empty before attempting to fold. Apply a small amount of silicone lubricant to moving parts if necessary.
- **Handle not adjusting:** Verify that the locking pins or buttons for handle adjustment are fully disengaged before attempting to change height.

6. SPECIFICATIONS

Model Number	FW188-1
--------------	---------

Brand	Sekey
Product Dimensions (Unfolded)	42.2"D x 26.4"W x 45.2"H (107.2 cm D x 67.1 cm W x 114.8 cm H)
Weight Capacity	600 Pounds (272 kg)
Volume Capacity	200 Liters
Wheel Type	9-inch Tubeless Balloon Tires
Material	Carbon Steel Frame, Polyvinyl Chloride (PVC) Fabric
Special Features	Adjustable Handle, Sand Friendly, Compact Fold, Maneuverable
Required Assembly	Yes (Minimal)

7. WARRANTY AND SUPPORT

For warranty information, product support, or to inquire about replacement parts, please contact Sekey customer service. Refer to the product packaging or the official Sekey website for contact details.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page’s manual context to help answer it.
