IRONCK QR-700

IRONCK QR-700 Dog Kennel Instruction Manual

Model: QR-700

INTRODUCTION

Thank you for choosing the IRONCK QR-700 Dog Kennel. This furniture-style dog crate is designed to provide a secure and comfortable space for your small to medium-sized dog, up to 30 lbs. Featuring a unique roof design, a personalized name tag, easy mobility with wheels, a convenient pull-out tray, and chew-resistant construction, this kennel integrates seamlessly into your home environment.

SAFETY INFORMATION

- Ensure all parts are securely fastened before allowing your pet to use the kennel.
- Do not exceed the recommended weight limit of 30 lbs.
- Regularly inspect the kennel for any loose or damaged parts. Discontinue use if damage is found.
- Keep small children away from the kennel during assembly and ensure they do not play inside or around it unsupervised.
- This kennel is designed for indoor use only.
- Always engage the wheel locks when the kennel is stationary to prevent accidental movement.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly.

- Metal frame panels (various sizes)
- MDF wood panels
- Pull-out tray
- Four swivel wheels (two with locks)
- Bone-shaped name tag
- Assembly hardware (screws, bolts, Allen wrench)
- Instruction manual

SETUP INSTRUCTIONS

Assembly is designed to be straightforward, typically taking less than 20 minutes. All parts are numbered for easy identification.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Check against the package contents list.
2. **Assemble Base Frame:** Connect the bottom metal frame pieces using the provided hardware. Ensure all connections are snug but do not overtighten.
3. **Attach Wheels:** Secure the four swivel wheels to the underside of the base frame. Ensure the two lockable wheels are positioned at the front for easy access.
4. **Install Side Panels:** Attach the metal side panels and MDF wood panels to the base frame, following the numbered instructions.
5. **Assemble Roof Structure:** Connect the roof frame pieces and secure them to the top of the side panels.
6. **Install Doors:** Attach the front doors to the designated hinges and ensure they open and close smoothly. Install the locking mechanisms.
7. **Insert Pull-Out Tray:** Slide the pull-out tray into the designated slot at the bottom of the kennel.
8. **Attach Name Tag:** Secure the bone-shaped name tag to the front of the kennel.
9. **Final Check:** Verify all screws and bolts are tightened and the kennel is stable.

OPERATING INSTRUCTIONS

Using the Doors and Locks

The kennel features two front doors with sturdy sliding bolt closures. To open, slide the bolt back and pull the doors outward. To close, push the doors shut and slide the bolt forward until it clicks into place.

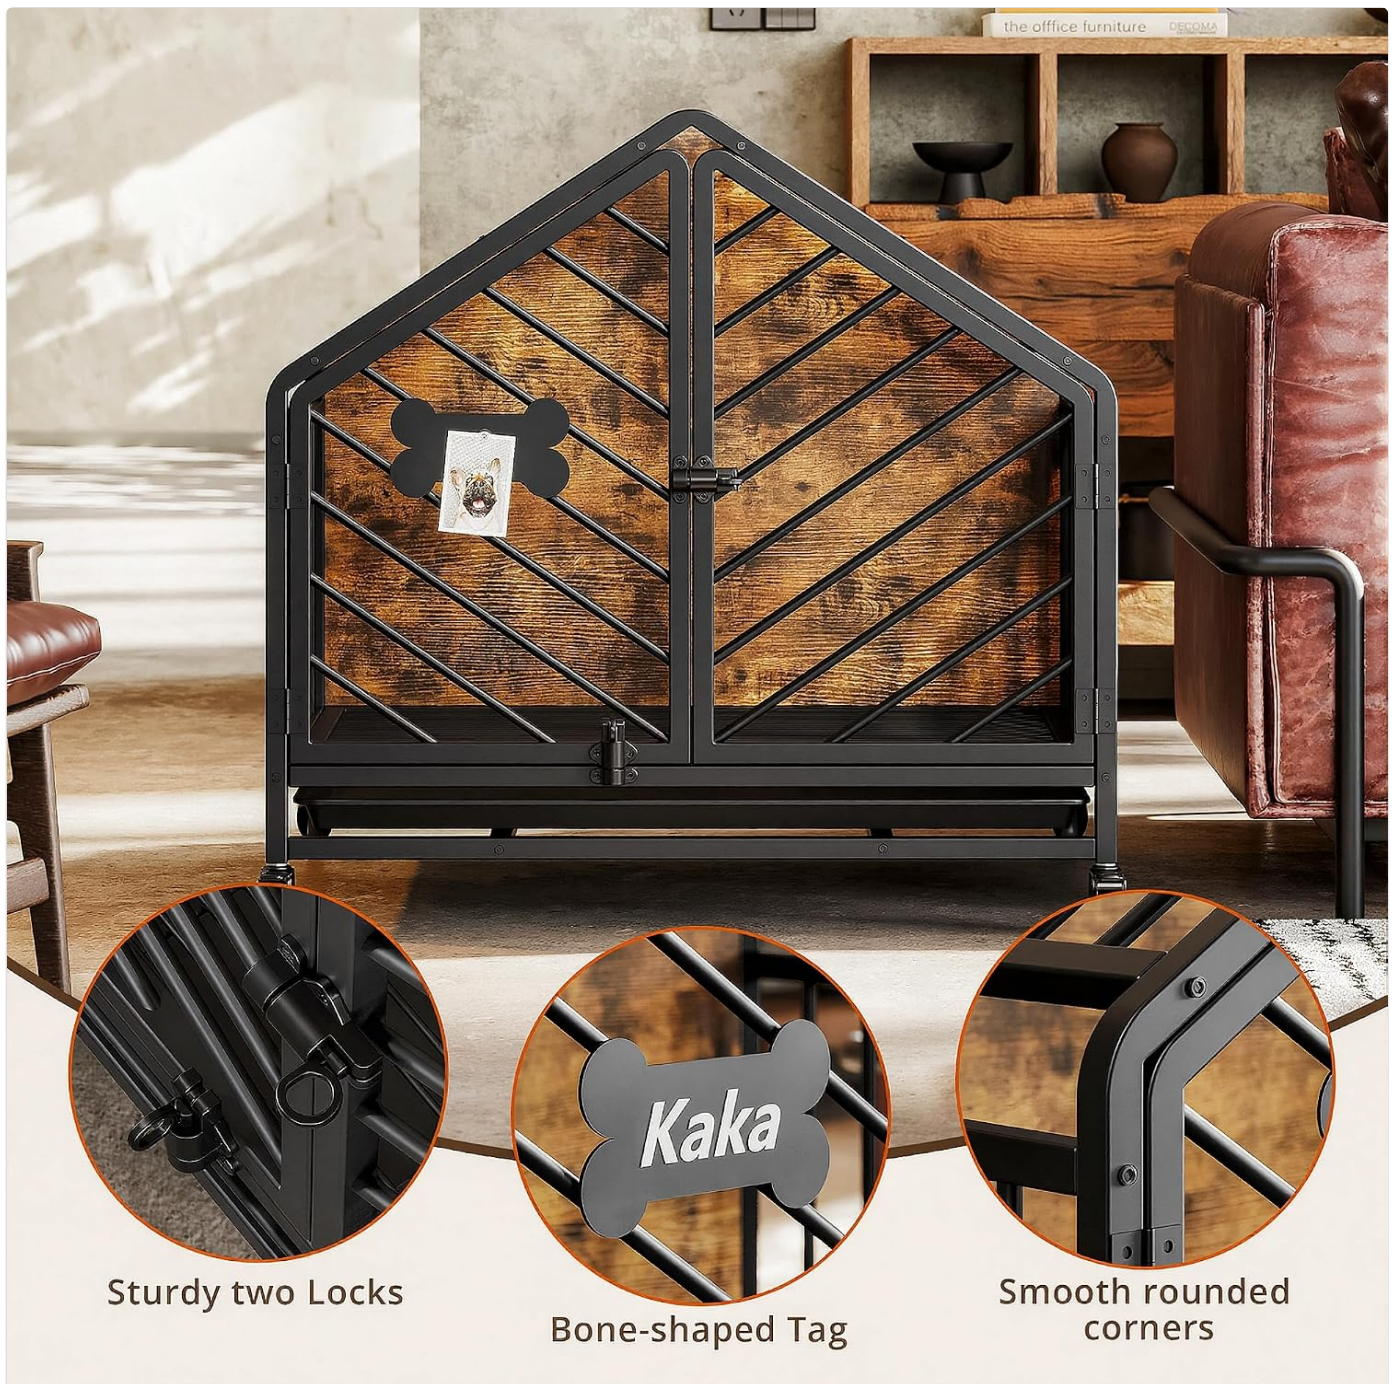

Image: Detail of the dual lock system on the kennel doors.

Utilizing the Pull-Out Tray

The removable pull-out tray is located beneath the main grate. It can be easily slid out for cleaning without opening the main doors. This feature is particularly useful for managing accidents during potty training or for quick debris removal.

Mobility with Lockable Wheels

The kennel is equipped with four swivel wheels for easy movement. Two of these wheels are lockable. To move the kennel, ensure the wheel locks are disengaged. To secure the kennel in place, press down on the levers of the lockable wheels until they click into the locked position.

Image: Instructions for using the lockable rotating wheels.

Personalized Name Tag

The bone-shaped tag on the front of the kennel can be customized with your dog's name or a small photo. Use chalk or a non-permanent marker for writing, or attach a magnetic photo.

Open-View Design

The kennel's open-sided design allows your dog to maintain visibility of its surroundings, which can provide reassurance, especially for anxious pets. The roof can be customized with a blanket for shade or fairy lights for decoration.

MAINTENANCE

Cleaning the Pull-Out Tray

The pull-out tray is made of durable plastic and is washable. Simply slide it out, empty any contents, and wash with mild soap and water. Rinse thoroughly and dry before reinserting.

General Cleaning

Wipe down the metal and wood surfaces of the kennel with a damp cloth and mild, pet-safe cleaner as needed. Avoid abrasive cleaners that could damage the finish. Ensure the kennel is completely dry before your pet re-enters.

TROUBLESHOOTING

- Dog not using the kennel:** Introduce the kennel gradually. Place familiar bedding or toys inside. Never force your dog into the kennel. Positive reinforcement with treats and praise can help.
- Tray design concerns:** The pull-out tray is designed for easy cleaning. For added comfort, place a soft blanket or dog bed on top of the metal grate inside the kennel.
- Dog attempting to escape:** Ensure all locks are securely engaged. For persistent escape artists, consider additional training or consultation with a professional dog trainer. The open roof design may allow some agile dogs to climb out; consider adding a secure cover if this is an issue.
- Wobbly kennel:** Check all assembly hardware to ensure screws and bolts are tightened. If the issue persists, disassemble and reassemble carefully, ensuring all pieces are correctly aligned.

SPECIFICATIONS

Feature	Detail
Model Number	QR-700
Product Dimensions (L x W x H)	27.8" x 19.7" x 28.2"
