5. TROUBLESHOOTING

If you encounter any issues with your desk, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
Desk feels unstable or wobbly.	Ensure all assembly screws and fasteners are securely tightened. Verify that the desk is placed on a level surface. Adjust any leveling feet if present.
Barn doors on the hutch are difficult to slide.	Check for any obstructions in the sliding mechanism. Ensure the sliding bars are properly aligned and free of debris. A small amount of silicone lubricant can be applied to the tracks if needed.
