Garvee Bathroom Vanities-30-N

Garvee 30 Inch Fluted Bathroom Vanity with Sink Instruction Manual

Model: Bathroom Vanities-30-N | Brand: Garvee

INTRODUCTION

This manual provides essential information for the safe and efficient installation, operation, and maintenance of your Garvee 30 Inch Fluted Bathroom Vanity with Sink. This freestanding vanity features a natural oak finish, a fluted panel design, and a white ceramic sink. It includes two drawers and one flip-down drawer for organized storage. Please read these instructions thoroughly before assembly and use.

SAFETY INFORMATION

- **Two-Person Assembly:** For safety and efficiency, two persons are recommended for assembly and installation due to the product's weight and size.
- **Stable Surface:** Always place the vanity cabinet on a flat, stable, and level surface during assembly and after installation.
- **Ventilation:** Ensure the installation area is dry and well-ventilated to maintain optimal water resistance and product longevity.
- **Weight:** The vanity weighs approximately 105.8 pounds. Exercise caution when lifting and moving.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer service.

- Vanity Cabinet (Engineered Wood, Natural Oak Finish)
- White Ceramic Sink
- Drawer Handles (Modern Gold)
- Drawer Slides
- Assembly Hardware
- Instruction Manual

SETUP AND ASSEMBLY

This freestanding vanity requires assembly. Follow the step-by-step instructions included in the package. Two-person assembly is recommended.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Assemble Cabinet Frame:** Follow the diagrams in the included manual to assemble the main cabinet frame using the provided hardware.
3. **Install Drawer Slides:** Attach the smooth sliding rails to the cabinet interior according to the instructions.
4. **Assemble Drawers:** Construct the two main drawers and the flip-down drawer.
5. **Install Drawers:** Carefully insert the assembled drawers onto the slides.
6. **Attach Handles:** Secure the modern gold handles to the drawer fronts.
7. **Place Sink:** Position the white ceramic sink onto the vanity cabinet. The sink is designed with pre-drilled faucet holes and a drain hole for easy installation of your preferred faucet and drainage system (faucet and drain not included).
8. **Final Placement:** With assistance, move the assembled vanity to its final desired location. Ensure it is level and stable.

OPERATING INSTRUCTIONS

The Garvee bathroom vanity is designed for functional storage and daily use in a bathroom environment.

- **Drawer Usage:** Utilize the two main drawers and the unique flip-down drawer for organizing cosmetics, toiletries, towels, and cleaning supplies. The flip-down drawer is ideal for smaller items or for concealing plumbing access while maintaining a clean aesthetic.
- **Sink Functionality:** The ceramic sink is ready for connection to standard plumbing fixtures. Ensure all connections are secure and watertight to prevent leaks.

MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your vanity.

- **Cleaning the Cabinet:** Wipe the engineered wood cabinet with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the finish.
- **Cleaning the Sink:** The premium ceramic sink is stain-resistant and easy to clean. Use mild soap and water with a soft cloth or sponge. Rinse thoroughly and dry to prevent water spots. Do not use abrasive pads or cleaners that could scratch the ceramic surface.
- **Spills:** Promptly wipe up any water spills or splashes on the cabinet surface to prevent water damage.
- **Hardware:** Periodically check and tighten any loose hardware, such as drawer handles or screws, to maintain stability.

TROUBLESHOOTING

If you encounter issues with your vanity, refer to the following common solutions:

- **Drawers Not Sliding Smoothly:** Check if the drawer slides are properly aligned and free of obstructions. Ensure all screws securing the slides are tight.
- **Water Leaks from Sink/Faucet:** This is typically due to improper installation of the faucet or drain. Recheck all plumbing connections, ensuring they are sealed correctly with plumber's putty or tape as required.
- **Vanity Wobbles:** Ensure the vanity is placed on a level surface. Adjust any leveling feet if present, or use shims if necessary, to stabilize the unit.
- **Damaged Parts:** If any part arrived damaged or becomes damaged during assembly, do not proceed with installation. Contact Garvee customer service for replacement parts.
