Conyat H63

Conyat H63 AI Language Translator Earbuds

User Manual

Introduction

The Conyat H63 AI Language Translator Earbuds are designed to facilitate seamless communication across language barriers, provide high-quality audio for music, and enable clear phone calls. These earbuds integrate advanced AI algorithms for real-time translation in 164 languages, offering multiple translation modes to suit various scenarios. Equipped with Bluetooth 5.4, a long-lasting battery, and a comfortable design, the H63 earbuds are a versatile tool for travel, business, and learning.

Product Overview

Key Features

- **3-in-1 Functionality:** Combines real-time translation, music playback, and call functions.
- **AI Real-Time Translation:** Supports 164 languages with up to 99% accuracy via the "EarDance" app.
- **6 Translation Modes:** Free Talk, Headphone+Phone, Translation Machine, Audio & Video Translation, Voice Notes, Photo Translation, and AI Chat Mode.
- **Extended Playtime:** Up to 7 hours on a single charge, and over 40 hours with the charging case.
- **Bluetooth 5.4:** Ensures stable connection and low latency within a 15-meter range.
- **HD Audio Quality:** 13mm diaphragm speaker drivers for clear sound and built-in microphones for clear calls.
- **ENC Noise Reduction:** Built-in chip for effective environmental noise cancellation during calls.
- **IPX7 Waterproof:** Resistant to sweat and rain, suitable for outdoor activities.
- **Smart Touch Controls:** Manage music, calls, and voice assistance directly from the earbuds.

Setup

1. Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case. Connect the provided USB Type-C cable to the charging case and a power source. The LED display on the case will indicate the charging status. A full charge for the case takes approximately 1.5 hours. The earbuds provide 7 hours of listening time on a single charge, and the charging case provides an additional 4 full charges, totaling over 40 hours of playtime.

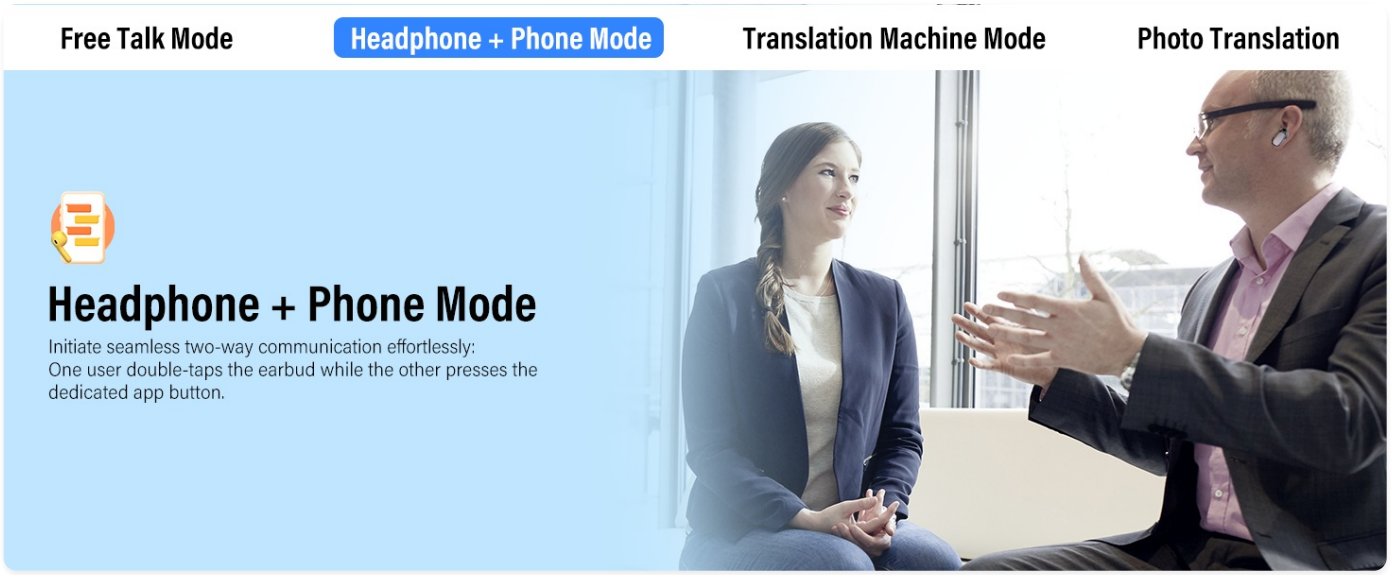

Image: Visual guide to charging and battery life indicators.

2. Pairing with Your Device

1. Open the charging case. The earbuds will automatically enter pairing mode.
2. On your smartphone or other Bluetooth-enabled device, go to Bluetooth settings.
3. Select "H63" from the list of available devices to connect.
4. Once connected, you will hear an audio prompt, and the earbuds will be ready for use.

The earbuds utilize Bluetooth 5.4 technology, providing a stable connection up to 15 meters (approximately 49 feet).

3. App Download and Connection (for Translation Features)

To utilize the AI translation features, you must download and connect to the "EarDance" application.

1. Scan the QR code provided in the user manual or on the packaging box, or visit the official download link: https://earjoy.watchfun.cn/app-download-h5?appCode=eardance to download the "EarDance" app.
2. Install and open the "EarDance" app on your smartphone.
3. The app will automatically detect and connect to the earbuds if they are already paired with your phone's Bluetooth.
4. Navigate to the "My" page within the app and select "Bind Device" to authorize the earbuds. You may need to scan an authorization QR code found on the packaging box.
5. Once authorized, you can begin using the translation functions.

Operating Instructions

Translation Modes

The Conyat H63 earbuds offer 6 distinct translation modes to cater to various communication needs:

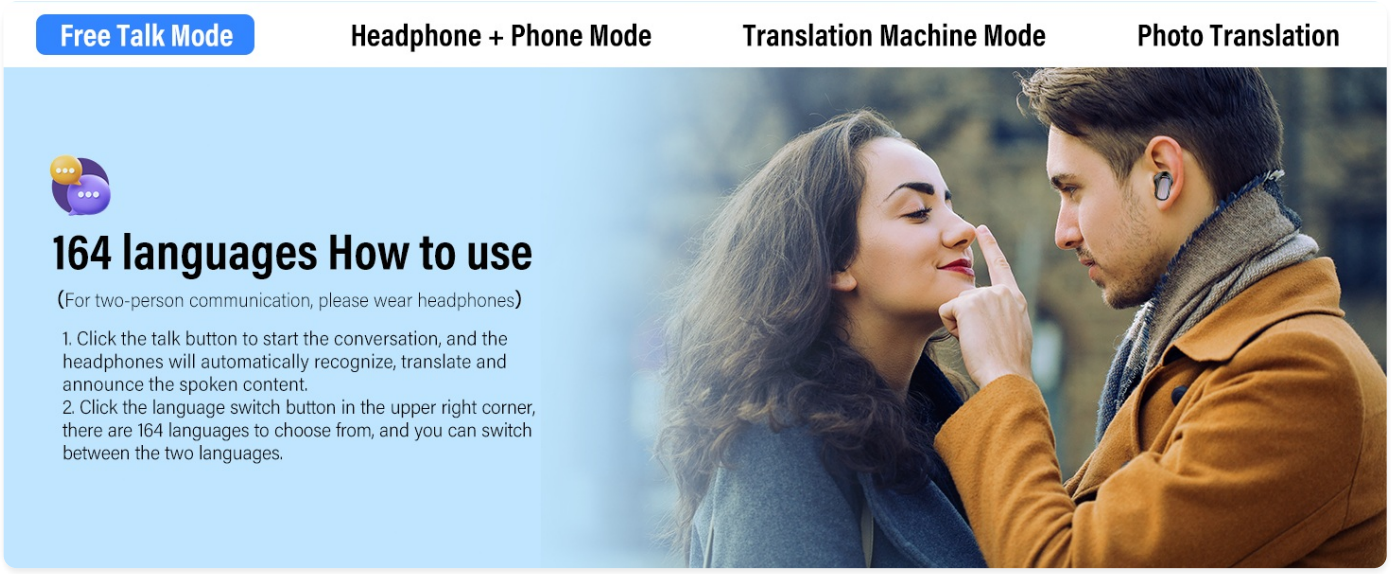

Image: Overview of the six available translation modes.

1. **Free Talk Mode:**
   Designed for two-person communication. Both users wear an earbud. The earbuds automatically detect and translate speech in real-time. To start, click the talk button in the app. The headphones will automatically recognize, translate, and announce the spoken content. You can switch between 164 languages via the app's language switch button.

Image: Free Talk Mode in action, enabling two-way real-time translation.

2. **Headphone + Phone Mode:**
   Ideal for situations like ordering food or negotiations where one person wears the earbuds and the other interacts with the phone. The earbud user hears translations, and the phone's speaker plays the translated language for the other person. Initiate seamless two-way communication by having one user double-tap the earbud while the other presses the dedicated app button.

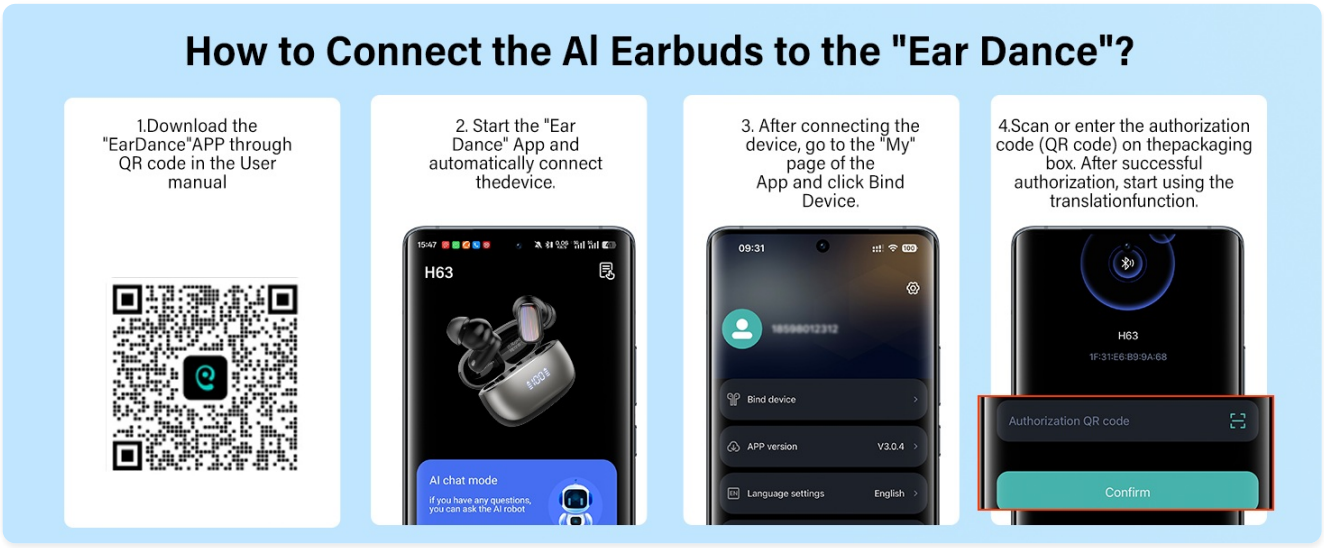

Image: Headphone + Phone Mode for one-on-one interactions.

3. **Translation Machine Mode:**
   Functions like a traditional handheld translator. After setting up the app, the device translates spoken language, with the phone displaying and playing the translated text. This mode provides a seamless multilingual translation experience.

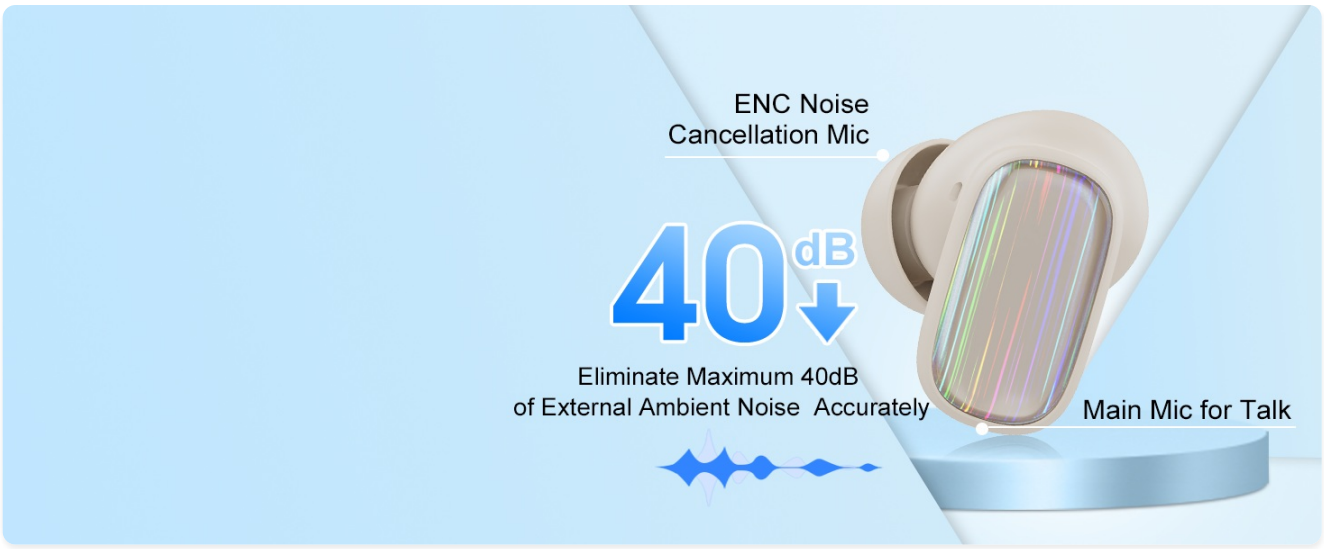

Image: Translation Machine Mode, similar to a traditional translator device.

4. **Photo Translation Mode:**
   Allows users to take photos of text (e.g., road signs, menus, documents) and receive instant translations. This mode is useful for tourism, dining, and learning, with text control functions available.

Image: Photo Translation Mode for translating text from images.

5. **Audio & Video Translation Mode:**
   Enables real-time communication with friends by sharing an "invite link." Select your language and the other party's language, then click "invite friends to talk" and share the link. Friends can open the link to communicate in real-time without obstacles.

Image: Audio and Video Translation Mode interface.

6. **Voice Note Mode:**
   This mode converts spoken content from classrooms, videos, or audio into text records. It supports 10 languages, allowing you to quickly take notes and review them later.

Image: Voice Note Mode for converting speech to text.

7. **AI Chat Mode:**
   Within the "EarDance" app, you can unlock the AI chat mode. This feature provides intelligent answers to your questions by leveraging large model algorithm analysis, acting as a personal AI assistant.

Maintenance

Cleaning

- Regularly clean the earbuds and charging case with a soft, dry, lint-free cloth.
- Do not use abrasive cleaners, solvents, or aerosol sprays.
- Gently remove any earwax or debris from the eartips and speaker mesh using a small, clean brush or cotton swab.

Storage

- When not in use, store the earbuds in their charging case to protect them and ensure they remain charged.
- Store the device in a cool, dry place, away from extreme temperatures and direct sunlight.

Troubleshooting

If you encounter any issues with your Conyat H63 earbuds, please refer to the following common solutions:

Problem	Possible Solution
Earbuds not pairing	Ensure earbuds are charged. Turn off and on your device's Bluetooth. Place earbuds back in case, close, then reopen to re-enter pairing mode.
No sound from earbuds	Check device volume. Ensure earbuds are connected. Try re-pairing. Clean speaker mesh if blocked.

Problem	Possible Solution
Translation not working	Ensure the "EarDance" app is open and connected. Check internet connection. Verify correct languages are selected in the app. Ensure earbuds are authorized in the app.
Earbuds disconnect frequently	Ensure you are within the 15-meter Bluetooth range. Avoid obstacles between earbuds and device. Fully charge earbuds and case.
Poor call quality	Ensure microphones are not obstructed. Check network signal on your phone. Try in a quieter environment.
Touch controls unresponsive	Ensure earbuds are clean and dry. Restart earbuds by placing them in the case and taking them out.
