Uwell Caliburn G5 Lite KOKO

Uwell Caliburn G5 Lite KOKO VAPE Starter Kit Instruction Manual

Model: Caliburn G5 Lite KOKO | Brand: Uwell

INTRODUCTION

Thank you for purchasing the Uwell Caliburn G5 Lite KOKO VAPE Starter Kit. This device is designed for ease of daily use and a rich flavor experience, featuring a large 1600mAh battery and compatibility with GPP cartridges. Please read this manual thoroughly before use to ensure proper operation and maintenance.

Note: This product is a VAPE starter kit and does not include e-liquid. It is nicotine-free.

PACKAGE CONTENTS

- Caliburn G5 Lite KOKO Device (Main Unit)
- GPP Cartridge 0.6Ω
- User Manual
- FlavorKitchen Original Mini Pouch

PRODUCT OVERVIEW

The Caliburn G5 Lite KOKO combines a compact design with powerful performance and a long-lasting battery. It features the latest Pro-FOCS 4.0 technology for enhanced flavor and a top airflow system to prevent leakage.

SETUP

- 1. Charge the Device:** Before first use, fully charge the device using the provided USB Type-C cable. The KOKO logo light will indicate charging status and battery level.
- 2. Fill the Cartridge:**
 - Remove the mouthpiece from the GPP cartridge.
 - Insert the nozzle of your e-liquid bottle into the red filling port.
 - Fill the cartridge with e-liquid, ensuring not to overfill.
 - Securely replace the mouthpiece.
- 3. Install the Cartridge:** Insert the filled GPP cartridge firmly into the device until it clicks into place.
- 4. Prime the Coil:** After filling, wait at least 5-10 minutes before vaping to allow the e-liquid to fully saturate the coil. This prevents dry hits and extends coil life.

OPERATING INSTRUCTIONS

- **Power On/Off:** The Caliburn G5 Lite KOKO is an auto-draw device, meaning it powers on automatically when you inhale. There is no power button.
- **Vaping:** Simply inhale from the mouthpiece to activate the device and produce vapor.
- **Battery Indicator:** The KOKO logo light on the device indicates the current battery level:
 - **Green:** High battery level
 - **Blue:** Medium battery level
 - **Red:** Low battery level (recharge soon)
- **Airflow Adjustment:** The device features a top airflow system. You can adjust the airflow by rotating the cartridge to switch between MTL (Mouth-to-Lung) and RDL (Restricted Direct-to-Lung) vaping styles.

MAINTENANCE

- **Cleaning:** Regularly clean the device, especially the area where the cartridge connects, to prevent e-liquid residue buildup. Use a dry cloth or cotton swab.
- **Cartridge Replacement:** Replace the GPP cartridge when you notice a burnt taste, reduced vapor production, or diminished flavor. Cartridge life varies depending on usage.
- **Charging:** Use only the provided USB Type-C cable for charging. Avoid using damaged cables or chargers.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures. Keep out of reach of children and pets.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No vapor production	Low battery; empty cartridge; faulty cartridge connection.	Charge device; refill cartridge; re-insert or replace cartridge.
Burnt taste	Low e-liquid level; coil not primed; coil needs replacement.	Refill cartridge; wait 5-10 minutes after filling; replace cartridge.
Leaking e-liquid	Overfilled cartridge; worn-out coil/seal; improper cartridge installation.	Do not overfill; replace cartridge; ensure cartridge is seated correctly.
Device not charging	Faulty cable/charger; dirty charging port.	Try a different USB Type-C cable/charger; clean charging port.

SPECIFICATIONS

- **Dimensions:** 86.55 × 45.5 × 18.9mm
- **Battery Capacity:** 1600mAh
- **Maximum Output:** 35W
- **Material:** PC (Frost Texture Shell)
