OPERATING INSTRUCTIONS

Converting from Sofa to Bed

1. **Clear the Area:** Ensure there is sufficient space in front of the sofa for the pull-out bed mechanism to extend fully.
2. **Locate Pull Handle:** Find the integrated handle located at the front base of the sofa.
3. **Pull Out Bed:** Gently pull the handle outwards. The bed mechanism will glide forward, extending the sleeping surface. Continue pulling until the bed is fully extended and locked into place.

4. **Adjust Backrest (Optional):** The backrest can be adjusted to a flat position for sleeping.

Adjusting the Backrest

The backrest offers three adjustable positions:

- **Sitting Position:** Upright for comfortable seating.
- **Lounging Position:** Partially reclined for relaxation.
- **Sleeping Position:** Fully flat for use as a bed.

To adjust, gently push the backrest forward until you hear a click, then recline it to your desired angle. Repeat to cycle through the positions.

CARE AND MAINTENANCE

- **Cleaning Fabric:** For general cleaning, vacuum the velvet fabric regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, use a mild fabric cleaner specifically designed for velvet, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position the sofa bed away from direct sunlight or use curtains/blinds.
- **Frame Care:** Wipe the frame and legs with a soft, damp cloth. Avoid harsh chemicals.

- **Mechanism Maintenance:** Periodically check the pull-out mechanism for smooth operation. If it becomes stiff, a small amount of silicone-based lubricant can be applied to moving parts (avoiding fabric).
