2. Locate the hidden strap under the front edge of the sofa seat.

Maintenance and Care

The sofa is upholstered with a breathable, durable linen weave fabric designed for longevity and comfort.

- **Regular Cleaning:** Vacuum regularly using an upholstery attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, use a mild fabric cleaner following the product instructions, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your sofa away from direct sun or use window coverings.
- **Fluff Cushions:** Periodically fluff and rotate seat and back cushions to maintain their shape and even out wear.

Troubleshooting

Problem	Possible Cause	Solution
Sofa sections not connecting securely	Connectors misaligned or obstructed.	Ensure connectors are properly aligned and free of debris. Apply firm, even pressure to lock them.
Pull-out bed mechanism is stiff	Mechanism may need lubrication or is obstructed.	Check for any obstructions. Apply a silicone-based lubricant to moving parts if necessary.
Chaise storage lid does not close properly	Items inside storage compartment are too tall or lid hinges are misaligned.	Rearrange items in storage. Check hinges for proper alignment and tighten screws if loose.
